**Tobacco Workers Termed a Left Wing Outfit**  
Washington, May 6.—A government agency said yesterday it is too much to believe a lawyer made two free trips from Washington to North Carolina for a client.  
That was a major reason given for a 3 to 2 National Labor Relations board decision that a left-wing CIO union was trying to evade the non-communist affidavit requirement to win bargaining rights for 1,225 Greensboro, N. C., tobacco drying workers.  
The majority held the newly formed United Tobacco Workers was only a "front" for the left-wing CIO food, tobacco and agricultural workers union in organizing efforts at the R. J. Reynolds Tobacco company.  
Officers of the new union had filed the non-communist oaths required for access to NLRB procedures while officers of the latter group had refused to file them. The Food and Tobacco Workers union is headed by Donald Henderson, who has just returned from a Communist sponsored "peace" conference in Paris.  
Part of the testimony in the case was that the United Tobacco workers was without funds yet obtained services of a Washington lawyer for two proceedings in North Carolina.

**GREATER HEALTH BENEFITS**  
Philadelphia.—Members of the Philadelphia Orchestra represented by Local 77 of the American Federation of Musicians won new health benefits and higher travel allowances under terms of a contract covering the 1949-50 season.  
The new health clause grants musicians full pay for up to 4 weeks of illness, if they have less than 5 years of service with the orchestra. For each year more than 5, an additional week's pay is allowed.

**HEALTH RULES**  
(Continued From Page 1)  
doctor immediately. Early diagnosis and prompt treatment by qualified medical personnel often prevent serious crippling.  
Polio specialists emphasize that fear and anxiety should be held to a minimum. A calm, confident attitude is conducive to health and recovery. Parents are reminded that of all those stricken, 50 percent or more recover completely, while another 25 percent are left with only slight after-effects.
