# Letter-Press Printing

Letter press printing in the graphic arts means the direct application of inked type and engravings or other type material to paper.

It is the simplest of all graphic methods of reproduction and at the same time the most lasting. It was the method employed by the medieval craftsmen who first applied type to paper and it has persisted throughout the centuries over all innovations, until today, when the best of craftsmanship is sought in a job, there is no alternative to letter press printing, along with high grade paper and typographic good taste.

We suggest that if you have some printing in view that you want well done, you consult us. Simply telephone 5-1776 or else call at the office, 118 East Sixth St., Charlotte, N. C.

## Magic of the Telephone

Your telephone can do more tricks than a vaudeville magician. It can't sit on its hind legs, but it can stop a corporation's board meeting dead. It can't whistle Dixie, but it can bring news faster than press or radio. It can't balance a ball on its dial, but it can tell you where to buy yours flowers and clothes.

How? Time Service does it. Time Service puts clever advertising messages in 10,000 cars every day . . . right here in Charlotte, where it counts. Cost? Less than a penny a call.
