TEXTILE WORKERS GET PENSION IN WINNSBORO
 ATLANTA, GA. — The first company paid pension agreement in any South Carolina textile plant was signed in July by the United States Rubber Company and the United Textile Workers of America, A. F. of L., and covers 1500 wage earners at the Winnsboro plant.

The new pact provides for \$100 a month minimum pension-including social security benefits—for employees who reach the age of 65 and have 25 or more years of service. Employees with 20 years service at the age of 65 will receive \$80.00 a month minimum pension including social security.

A minimum disability pension of \$60 a month is provided after 20 years service for those who become totally disabled.

The insurance feature provides for company paid life insurance in the amount of \$2,000 for all employees. An additional \$1,000 may be purchased by the employees at their own cost. The company formerly paid for life insurance in the amount of \$1,000 for men, and \$500 for women.

The agreement was arrived at after several weeks of negotiations between the U. S. Rubber Company and the UTWA-AFL at Winnsboro.

It is estimated that there are now about 250 Winnsboro employees with twenty to fifty years of service according to M. A. Kirkland, plant manager.

The collective bargaining agreement between the UTWA-AFL and the U. S. Rubber Company on wages and conditions of employment had been renewed on July 1, 1950, for a two-year period. The pension and insurance plan becomes effective August 1, 1950.

A missionary traveling in the Near East stopped for the night in the tent of a shepherd whom he had visited several years before. The old nomad greeted him with the question, "Did you bring back the sheep book?" For a moment the missionary was at a loss to understand the meaning of the question. Then it occurred to him that when he had last seen the old shepherd he had read to him in his own language the 23rd Psalm, and to this ignorant keeper of flocks the Bible was the "sheep book." He understood its language as it spoke about the Shepherd and the sheep. They were things with which he was familiar.

Wonderful Book! Each man finds in its pages something which seems addressed especially to him. The sinner sees his picture, painted by the hand of God in the words of the holy men of old, who "spoke as they were moved by the Holy Spirit" (II Peter 1:21). He sees his sin set forth in all its blackness. Beholding himself pictured as God sees him, he becomes conscious of his need of a Saviour and in the pages of the Bible the Saviour is presented, Jesus Christ, who bore the guilt of the sinner on the cross and became the propitiation for his sin.

Lonely hearts find comfort as they turn its pages. The seekers after knowledge find divine truth. The Bible must be God's Book, for its appeal is broader than any nation or century or language or class of men. It sounds the depths of the human soul. It probes into the thoughts of the mind and the impulses instinctive in the human heart. Chinese hearing God's Word for the first time cry, "This Book was written for the Chinese." The women of India say it was written for them. Both are right. To them and to all men everywhere God speaks through the Bible. His own infallible Word.

EBERHARTER SPEAKS UP FOR WAR TAX

Rep. Herman Eberharter (D., Pa.) points out that Congress is "morally bound" to pass an excess profits tax during the special session beginning November 27.

Eberharter, a member of the House Ways and Means Committee, which handles tax laws, said on November 10 that Congress ordered itself to pass an excess profits tax last September.

Just before recessing for the elections, Congress approved a bill telling the Ways and Means Committee and the Senate Finance Committee which takes care of tax matters in the Senate, "to report . . . a bill for raising revenue by the levying, collection and payment of corporate excess profits taxes with retroactive effect to October 1 or with July 1, 1950. . . ."

Eberharter thinks that measure clearly indicates that Congress promised the American people it would pass an excess profits tax as soon as possible.

Commenting on the formation of a Business Committee on Emergency Corporate Taxation to fight the profits tax, Eberharter said:

"This businessmen's group is practically the same one that always opposes tax measures which are based on the principle of ability to pay."
