

POLIO—A GROWING SHADOW

CASES REPORTED SINCE 1936
SHOWN IN 3-YEAR PERIODS

*Including 1950 estimate of 30,000 cases.

During the three-year period 1948-1950
patient care alone cost more than
\$58,000,000 in March of Dimes funds.

The chart above reveals polio's ever-increasing threat to the American people and the enormous cost of patient care borne by the National Foundation for Infantile Paralysis. This year, the forward march of polio presents an especially urgent problem to the March of Dimes; the purchasing value of the dollar has shrunk to 58 cents in comparison with pre-war days, while polio cases have nearly quadrupled.

MOBILIZER WILSON SEES PRICE-WAGE CONTROLS NEEDED

PHILADELPHIA. — Defense Mobilization Administrator Charles E. Wilson told the Poor Richard Club that mandatory controls on prices, wages, rents are necessary.

There were indications they might be imposed in a matter of days.

"Voluntary methods will not work," Mr. Wilson said, confirming the United Labor Policy Committee's position that U. S. Stabilization to date was one big flop. He said:

"The power of law must be invoked. It must be used for allocation of materials, for prices, rents and wages—for whatever controls are necessary to prevent inflation, to promote production for defense, and provide a fair distribution of commodities among all our citizens. Whatever the

causes for delay up to now, we must proceed with courage, speed and forthrightness to adopt the control which will insure stability and fairness in our civilian economy."

Mr. Wilson disclosed that the rate of defense purchase "has been sharply stepped up since the first of the year" and that "we are trying to use idle facilities and manpower available, such as government ordnance workers, before making demands on non-defense facilities which are presently producing for civilian demands."

Expensive

MacTavish: "I hear yer friend Angus has marrit a third wife."

Elder: "Aye, Angus is an expensive freend—two wreaths and three presents in seventeen years."

What is it worth to You . . .

WHEN YOU
WANT TO:

Call a doctor
Chat with friends
Reach someone in a hurry

The true value of your telephone can be measured only in the many different ways it serves you—in the convenience and pleasure it adds to daily life.

Your telephone service is increasing in value day by day as the number of friends and relatives you can call keeps growing larger, and service becomes faster and better.

Yet the cost is low. Low in comparison to most other things you buy. Low in comparison to our costs of supplying service. Your telephone is at your service twenty-four hours every day—for only a few cents a day.

When you think how much it does for you, at the price you pay, telephone service stands out as one of today's biggest bargains.

Letter-Press Printing

Letter press printing in the graphic arts means the direct application of inked type and engravings or other type material to paper.

It is the simplest of all graphic methods of reproduction and at the same time the most lasting. It was the method employed by the medieval craftsmen who first applied type to paper and it has persisted throughout the centuries over all innovations, until today, when the best of craftsmanship is sought in a job, there is no alternative to letter press printing, along with high grade paper and typographic good taste.

We suggest that if you have some printing in view that you want well done, you consult us. Simply telephone 5-1776 or else call at the office, 118 East Sixth St., Charlotte, N. C.
