**LEADING THE NATION IN CIGARETTE PRODUCTION!**

North Carolina, as always, continues to lead the nation in cigarette manufacture... in 1951, our state made over half the 409-billion cigarettes produced in the United States. Contributing tremendously to the farmers' and factory workers' income, this important industry helps make North Carolina a better place to work, play and live.

Also contributing to the pleasant living that is North Carolina is the brewing industry's self-regulation program where brewers, wholesalers and retailers—in counties where malt beverage sales are permitted under state control—co-operate to maintain wholesome conditions for the legal sale of beer and ale.

THE BEVERAGE OF MODERATION

**RULES FOR SAFE WALKING...**

1. Carry or wear something white at night to help drivers see you.
2. Cross only at crosswalks. Keep to the right in the crosswalk.
3. Before crossing—look both ways. Be sure the way is clear before you cross.
4. Cross only on proper signal.
5. Watch for turning cars.
6. Never go into the roadway from between parked cars.
7. Where there is no sidewalk, and it is necessary to walk in roadway, walk on left side, facing traffic.

**STEEL QUOTAS EASED**

Restrictions on the use of steel and other materials both for home and commercial construction were eased by the National Production Authority effective July 1. Copper and aluminum also were affected. The order will permit limited building of entertainment and amusement projects. Five tons of carbon steel, two tons of structural steel, will be permitted for such buildings.

Dear Folks - Somewhere in Korea

Just a note to let you know I'm still O.K. There's really not too much I can tell you. Things aren't too bad over here, but they keep us plenty busy and I'll sure be glad when my time for rotation comes!

Boy! Just thinking about sitting down to some good home cooking and hashing out the political conventions with Dad—well, it won't be too long now and after all, if you're going to have a democracy I guess everyone has to pitch in and help keep it!

Just a lonesome G. I. writing home. He's helping in the armed forces. But there are things you can do to help, too. One of the most important of these is buying United States Defense Bonds.

Tens of millions of Americans own Defense Bonds now—more than 49 billion dollars worth! And every time you add to the total, you are helping to stabilize your country's economic power, making and keeping it as strong as the G. I.'s are keeping her military power. Remember, it's your bonds and other forms of saving that keep your country strong. And in these troubled times, peace is only for the strong!

So how about starting a patriotic program of regular savings now—by buying U. S. Defense Bonds through the Payroll Savings Plan where you work—the Plan that lets you save a regular sum out of every check—before you have a chance to spend it. No matter how small your income you can't afford not to save something for yourself. Join the Plan today. It's one sure way to save!

**Peace is for the strong... Buy U.S. Defense Bonds regularly!**

The U. S. Government does not pay for this advertising. The Treasury Department thanks, for their patriotic donation, the Advertising Council and

**HERE'S HOW E BONDS NOW EARN MORE MONEY FOR YOU!**

1. Now every Series E Bond you buy begins earning interest after only 6 months. It averages 3% compounded semiannually. It reaches full maturity value earlier (9 years, 8 months) and the interest it pays is now bigger at the start!
2. Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date—without your lifting a finger!
3. During the 10-year extension period, every unexpired bond earns at the new, higher interest (average 3% compounded semiannually). Your original \$18.75 can now repay you \$33.67. \$37.50 pays back \$67.54. And so on.

Start now! Invest more savings in better-paying Series E Bonds—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank!
