Across the sea, on China's shore  
A peasant woman trudged her way;  
Her body with disease was sore,  
Yet hope had stirred her heart  
this day.

For she had heard that in the town  
A missionary, kind, was there,  
With medicines of rare renown,  
To help the sick in their despair.

She went, was helped, and later when  
Her health was finally restored,  
With ten large eggs—she went  
away again—  
The choicest gift she could afford.

The missionary smiled because  
The gift, she did not want to take;  
She knew how poor the woman was  
And longed to serve for Love's own sake.

"Forgetter of one's grace? Ah, no!"  
The woman plaintively replied:  
"I would not be so mean and low!"  
She could not, would not, be denied!

How often gross ingratitude  
We would despise as low and base!

It is a sin of magnitude  
Ignoring and forgetting grace!  
Forgetters of God's grace are we?  
Forgetting all that He has done,  
Providing life, eternal, free,  
Through Jesus Christ His blessed Son?

Like that poor peasant may we yearn  
Our gratitude to faintly express;  
And from her action may we learn  
To render heartfelt thankfulness!

# Have you heard the good news?

**A NEW LAW MEANS YOUR SERIES E BONDS  
CAN NOW GO ON EARNING INTEREST  
AFTER THEIR MATURITY DATE**

Ten years ago, did you go to the defense of your country with the purchase of U. S. Defense Bonds? If you have kept those bonds here's good news for you.

Congress has passed a law which makes it possible, now, for your Defense Bonds to go on paying you interest longer than was originally planned—with absolutely no effort on your part.

And there is nothing for you, as a bond holder, to do. You need not exchange the bonds you have. You need not sign any paper, fill out any form. You simply keep your bonds as you have been keeping them.

You may still redeem any Series E Bond at any time after you've owned it for sixty days. But holding on to your bonds is the smart thing to do if you can. For in U. S. Bonds your money is safe... your government bonds are as safe as America itself.

And don't forget that the money you put into U. S. Bonds regularly and leave there is steadily growing into a larger and larger sum. Before you know it you'll have money enough for a home, a business, a retirement fund, an education for your children, or whatever really big thing is your personal dream. Now, remember, your Series E Bonds earn 3% interest compounded semiannually when they're held to maturity.

Bonds are safer than cash, too. For once lost, cash is gone forever. But if your bonds are lost or accidentally destroyed your United States Treasury will replace them at no cost or loss to you.

So if you have bonds which are coming due this month, remember the new money-making chance your government is giving you. Just hold onto your bonds and they'll go on earning for you. In the meantime

keep up your regular saving with more U. S. Defense Bonds—through the Payroll Savings Plan where you work. It's the easy, systematic saving plan that lets you save before you draw your pay. Thousands say it's the one sure way to save!

### 3 NEW MONEY-MAKING OPPORTUNITIES FOR YOU!

New Series H, J, and K

Defense Bonds pay 2.76% to 3%!

If you want to get the interest on your bonds in the form of current income, or if you want to invest more than the annual limit for E Bonds, ask at any Federal Reserve Bank or Branch about these new bonds:

**Series H.** A new current income bond, available in denominations of \$500 to \$10,000. Sold at par. Matures in 9 years, 8 months and pays approximately 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Annual limit, \$20,000 maturity value.

**Series J.** A new 12-year appreciation bond, available in denominations of \$25 to \$100,000. Sold at 72% of par value. Pays 2.76% compounded semiannually if held to maturity. Annual limit, \$200,000 issue price jointly with Series K Bonds.

**Series K.** A new 12-year current-income bond in denominations of \$500 to \$100,000. Pays interest semiannually by Treasury check at the rate of 2.76% per annum. Sold at par. Annual limit, \$200,000 issue price jointly with Series J Bonds.

**Now even better... invest more in Defense Bonds!**
