Local Items. Fog pulling time. Good nights for sleeping. Vine Hill Academy opens next Monday.

The steam engine advertised on our first page, to be sold by Mr. W. A. Dunn on the 18th of Sept., will be sold on the 3rd instead.

Rev. C. A. Woodson, of Enfield, preached a very forcible sermon in the Baptist church Sunday night, from II Corinthians, v. 20.

It has been just too utterly too hot for any use, but Monday morning brought with it a cool streak, and put us in a good humor again.

Mr. Geo. M. Newell, having accepted the position of Foreman of the Commonwealth Office, his father has taken charge of the Photograph tent.

We have been informed that Mr. Gooch, one of Weldon's largest merchants, made an assignment last Saturday. We failed to learn the particulars.

Our weather reporter informs us that from Tuesday morning till Thursday night was the hottest weather, for the time of year, we have had in eleven years.

We are delighted to learn that Dr. Pritchard has accepted the call to the First Baptist Church in Wilmington. He will take charge some time in November.

We understand that about two thousand visitors have registered at Morehead City this season. Morehead is certainly the Long Branch of North Carolina.

The N. C. Press Association, or as many of its members as possible, will attend the Boston Exhibition during the first and second weeks in October. The COMMONWEALTH hopes to be represented.

Oh! that we could realize the following dream of a brother quill driver: "We dreamed a dream last night, When everything was still, We dreamed that each subscriber Came up and paid his bill."

Mr. Hilliard, who has been in Norfolk, Baltimore and Washington City for the past ten days in the interest of the COMMONWEALTH will return this afternoon. He will no doubt give our readers an account of his trip next week.

Some six or eight of our exchanges have already notified the death of our late young friend-J. R. Herring Jr., and in each his demise deeply regretted. In his age when so few are endowed with lofty ambitions we have cause for very sincere regret when such a young man as Bob Herring was, descends to the grave.

The third quarterly meeting for Scotland Neck Circuit will commence on Thursday-night the 13th of September and will continue from day to day until Tuesday the 18th, including the 3rd Sunday in the month. Rev. D. R. Burton, P. E. of the district, and Rev. J. H. Guinn of Weldon will be here to assist in the meeting.

C. W. Byrd Pastor.

You have, no doubt, heard of the seven wonders of the world, but here are seven things of much more importance to one who wants "to make the mare go."

PPP ush, P P luck, P P atience, PPP oitness, P rudence, P erseverance, P RINTERS' INK.

We are reliably informed that the cotton-picker invented and patented by Mr. B. O. Savage, of this community, is proving successful beyond the expectations of many. We have not had the pleasure of seeing the machine, but are sure of one thing-if it is made to pick cotton successfully, Scotland Neck will have a millionaire in the person of Mr. Savage. We understand that he starts for Louisville next Monday to place his invention on exhibition.

The poem on our first page was clipped from the first issue of the News-South, a paper published last year in Wilmington, now defunct. The printer neglected to give proper credit.

The street force assembled in front of our sanctum this morning presented a very dusky appearance, but the number answering to roll call is a Perry gosh showing for our 'city fathers.' It shows that they are determined to keep the streets in trim.

We extend the right hand of welcome to Mr. George A. Newell, father of our George, who has come to reside temporarily with us. He is thinking strong of leaving here permanently and will no doubt do so if he receives the proper encouragement. We can commend him to our citizens as a gentleman in every sense of the work, and that is saying enough. We have had a long acquaintance with him and know whereof we speak.

We have received the premium list of the next State Fair which is to be held at Raleigh on the 15, 16, 17, 18, 19 and 20th of October. Over 80,000 in premiums have been offered, and the railroads in the State will carry articles for exhibition free of charge. The premium offered for the largest yield of cotton per acre from five acres is \$50, \$30, and \$20, a 450 pound bale to be exhibited in each case. For the largest yield of corn from five acres, one bushel to be exhibited, \$50, \$30 and \$20.

Dr. Huffman and Rev. C. W. Byrd have both been out of town during the past week. Mr. Byrd at Hobgood's Fork, where he together with Rev. C. M. Cook was conducting a series of meetings. He reports good congregations and seemingly good results, though he is unable to estimate the extent of the work in as much as he did not open the doors of the church for the reception of members. Dr. Huffman reports a glorious revival of religion at Sandy Run. There were about sixty conversions and forty united with the church at that place and were baptized on Sunday morning. There will be others that will unite with the church at this and other places.

The Principal of Vine Hill Academy wishes us to remind the readers of the COMMONWEALTH, that both Academies, Male and female, will open on the 3rd of September, and that special efforts will be made to improve the schools, both in numbers and in manner of giving instruction. One of the Principals of the Female academy, Miss Eunice McDowell, has been spending her vacation in preparing herself for more thorough work in her school. She attended the Normal School at the University, and will be up with the modern improvements in primary teaching. The Principal of the Male Academy also visited the University Normal School this summer. Get an catalogue of Vine Hill Academy, by addressing the Principal, E. E. Hilliard, Scotland Neck.

OUR CONTEMPORARIES. Our sincere friend, E. A. Oldham, of the "Winston Sentinel," contemplates an enlargement of his excellent journal very shortly. He claims to have doubled the circulation of the "Sentinel" since he took charge, a few months ago. He has the vim and talent to run a newspaper successfully. The "Roanoke News," of Weldon, will come out enlarged to 32 columns this week. It will no doubt present a much neater appearance, as we were told by Bro. Hall that they had purchased an entire outfit of new type. Success! The Wilmington "Weekly Star" is to be enlarged to a thirty-two column paper on the first day of November next. Mr. J. G. Charles has purchased the Tarboro "Guide from Messrs Willis & Coke, and assumes entire control of the paper. Dossey Battle is still editor.

Randolph left for Richmond Tuesday morning to be gone a few days. Mr. M. G. C. Lamb, of Hamilton, was in town visiting friends (2) Sunday and Monday. He returned Monday. Miss Mattie Parker, of Hamilton, was on a visit to our town last week, the guest of Miss Julia Perry. Our clever merchant, M. Hoffman, Esq., went north Monday to purchase his Fall and Winter stock. Will return in about ten days. We received a very pleasant call on last Saturday from Dr. J. H. White, of Elizabeth City. He is on a visit to his father, near this place. Rev. W. H. Lewis, of Littleton, who was visiting in and around Scotland Neck last week, returned to his charge Friday. We had the pleasure of forming his acquaintances, and found him a very pleasant gentleman.
