Few Will Miss Thee,

Few will miss thee, friend, when thou For a month in dust hast lain. Skiiful hand and anxious brow, Tongue of wisdom, busy brai All thou wert shall be forgot, And thy place shall know thee not-

Some sweet bird may sit and sing On the marble of thy tomb. Soon to flit on joyous wing From that place of death and gloom,)n some bough to warble clear; But these songs thou shalt not hear.

Some kind voice may sing thy praise, Passing near thy place of rest, Fondly talk of "other days"-But no throb within thy breast shall respond to words of praise, Or old thoughts of "other days,"

Since so fleeting is thy name, Talent, beauty, power and wit, It were well that without shame Thou in God's great book were writ, There is golden words to be Graven for eternity.

"But your father may recover," said the suraf.

Mexican Criminals.

The criminal classes in Mexico are among the most accomplished artists in their line to be found anywhere on the face of the earth, and possess, moreover, a marvellous power of simulating innocence, which enables them to impose upon the most incredulous. They employ the latter faculty to great advantage in securing situations as servants, in which capacity they find ample scope for their genius. If your detect them in thieving and discharge or punish them their vindictiveness knows no bounds, and they will boldly threaten future vengeance. Nor are they slow in concoeting schemes to that end with sundry gentlemen of the garrote or the stiletto, who-outwardly as respectable as anybody-prowl the streets nightly in the interests of their employees.
