Twenty-eight years ago last July, when a mere boy of nine-teen summers, I followed R. E. Lee to this noted battle field and participated in its last two days battle (July, 2nd and 8rd.) mounting stone walls, and rocks and ascending hills that now appear impregnable; and ever since I have hearfuly desired to revisit this battle field and see (in time of peace, when not molested by powder and ball) what I did not have time to see when there under shot and shell.

So on the twenty-second day of August, 1891, while in Baltimore only ninety miles off, in company with two Virginian Confederates and one Obio Union soldier, I decided to run up to Gettysburg and for a few hours partially gratify my curiosity. Starting at pine, a. m. and on through Carrol and Adam counties, Pa., and through Gettysburg we reached the battle-field about one o'clock, p m. The cars put us off at "Little Round" Top, a high rocky hill, overlooking the whole battle-field, and the Valley of Death. The next most noted spot, and place of bardest fighting is "Culp's" hill, where I am told are more signs of hard fighting than any where on the battle-field. Here stand many stumps of trees cut down by cannon balls; also many that were barked and badly scarred by musket balls, still growing though made black twenty-eight years ago. But owing to the late hour we reluctantly gave up visiting this notable spot where many costly monuments stand thick and high to the praise of both armies. Passing on by various Union monuments we made our way back to Gettysburg and took supper with a Union soldier, the back of whose house is perforated with minnie balls and across the street we saw a cannon ball deeply imbeded in the wall of a large brick house still telling of the horrors of war.
