> most be called a lazy one! Perhaps you are not surprised, but look at the people who try to amass fortunes without work; who speculate in ways all more or less dis-

honorable; who scheme for power. It isn't work which wears such peo-

ple out, but excitement. The true worker is never satisfied with him-

s-if, but constantly sees something beyond which seems better than anything he is capable of doing. "Do the duty that lies nearest you," doesn't mean the first agreeable duty, but is generally found to

be a disagreeable one.

I don't believe in overwork; "burning the candle at both ends," as it were, that isn't a duty, it isn't dealing fairly by yourself. Life wasn't meant to be all work; no indeed ! we should grow old before our time if that were the case. Rest and stripped soul. play are essential to keep brain and band quick and capable, if not constantly strained they will soon break and become worthless.

Work for independence, for power, to: fame, for the loved ones, no

matter, so long as the object and the means taken to attain that end Goldshoro shows Exum's political are fair and honorable. Who are

the great in the world? Great in literature, music, the arts, great discoursers, reformers, philanthropists! Those who have dug and delved in one way or another for

years and years.

But you will say, "I may not see the results of my labor till my figure is bowed with age." It is no such thing; you are reaping the results is abundant evidence that the Third party in North Carolina is especially day by day, if you will only notice them. Why Southern Farmers Should Vote Against Harrison.

[Appeal-Avalanche.] Because Benjamin Harrison is the father of the force bill. In his first official communication with Congress he advocated the Federal control of elections and it was his suggestion that inspired Lodge, Reid and others to attempt the passage of the force btll. It means the minority control of elections in the South. I means absolute minority rule from which the majority has no effective sppeal. It means the appointment of republican chief supervisors and epublican canvassing boards. I means two out of the three superthe convention's nomination for Govvisors at every polling place in the ernor except upon the condition that, South will be republicans. It means "if the new movement should form a even the appointment of non-resident hasis for a Republican conspiracy to supervisors. It means that United States deputy marshale, and even
