### THEY DISTURBED HIS NAP.

Was Sleeping on a Mountain Lion and Friends Waked Him by Shooting It. "The most remarkable adventure I know of was that of a ten-year-old boy in Colorado," said Rienzi Beauchamp to John Coughenour

a St. Louis Globe-Democrat man. "A party of us had gone from Pueblo for a Eiward Alcott. week's hunting and fishing along the Arkansas river. We carried tents and "A man named Britton had his young

son with him-a manly little fellow, who could land a trout and bring down an antelope with the best of us. One est due as follows: \$132 24 balance day he got separated from the party, lost his way, and spent the night in the | terest at 6 per cent. \$174.24 balmountains. He had with him a short thirty-eight-caliber sporting rifle, a good weapon for small game, but in the section where we camped mountain well-nigh distracted, and we searched \$11.00 due by contract for unloadall night for the adventurous youngster ling, dressing and loading a car of without avail. Just at sun up we stops of lumber with interest at J. H. LAWRENCE, started to return to camp. As we de- 6 per cent. \$92 69 due by conscended a ravine we discovered the ob- tract for 8.427 feet gum lumber sold ject of our search sound asleep, with his head pillowed on an enormous mountain lion, which was curled up as cent. in which a warrant of though enjoying a nap. Three of us approached cautiously to within fifty yards, drew a bead on the animal and at a given signal fired.

"The brute never stirred. The boy, whom we supposed dead, half rose, rubbed his eyes, and inquired peevishly: 'What are you fellers tryin' t' do? I killed this yere lion four hours ago."

### DRUNK ON MUSHROOMS. The Sort of Stimulant Used by the Inhabitants of Northeastern Asia.

The inhabitants of the northeastern part of Asia use a mushroom to promote intoxication. It is known as the flyblown mushroom, and the Horticultural Times says it is also very abundant in Scotland. The fungus is gathered in the hottest part of the year, and is then hung up by a string in the air to dry. Some are dry before gathered and these are said to be far more narcotic than those artificially preserved. Usually the fungus is rolled up like a bolus and taken without chewing, for, if masticated, it is said to disorder the stomach. One large or two small fungi produce what is looked upon as a pleasant state of intoxication for one day. The effect is the same as that produced on taking a quantity of spirits or wine, except it the mind. It renders some persons exceedingly active, and is a stimulant to muscular exertion. Thus, if a person affected by it wishes to step over a straw or a small stick it impels him to take a jump sufficient to clear a low hedge or the trunk of a tree. It keeps those fond of music perpetually singing, and under its influence a talkative person can neither keep secrets nor silence; hence it is a source of danger to ladies and politicians.

### INDICATIONS OF AGE. It Is Shown Incontrovertibly by a Moist

Eye and a Dry Palm. In developing the exhibit of penology it is the aim of Mr. Rosenau to show the advancement made with the growth of civilization from the days of early history down to the present time; advancement in the manner of handling truant members of society. Visitors to the fair can take their choice between burning at the stake, which seems since the discovery of fire to have been the favorice method of capital punishment up to the time Chala Ekke made after the manner of Kemmler. It's all cription, the same thing in the end. Illustrations of prison cells in Siberia will be placed side by side with those of Joliet and

### JAPANESE ATTRACT ATTENTION Curious Crowds Watching the Workmen

from the Land of the Mikado. The Japanese workmen who are building the Japanese village on the north end of the island within the

world's fair grounds attract a great deal of attention from the visitors. There are eighteen mechanics from the J. C. LANIER land of the mikado and a civil engineer. They have the framework for the village all in place. Hight in the center of the proposed

village is a short pole with a bunch of rice paper strips floating from it. When the men began to work they went through a ceremony to drive away the evil spirit from their labors. The pole with the papers is intended to divert his attention from the mechanics in case he should wander around there.

The Japs evidently saw an American level for the first time a the fair grounds. They have not yet tired of admiring the way in which the implement indicates whether a surface is level or plumb. The head carpenter got hold of it and placed it under a box. Then he ordered one of the men to put chips underneath the ends of the box until the level indicated that the box presented a level upper surface. Then he carefully scrutinized the result and smiled all over to see how easily the level did the work. For nearly an hour he kept testing it on everything at hand.

## A Snake Charmed by Bells.

A Denison (Tex.) dispatch says: Mrs. D. M. Madden is a lady of nerve. Yesterday afternoon, her little girl Mary, aged two years, was seated on the ground under a tree playing with a Johnson's Chill & Fever Tonic The noise of the bells attracted a large blacksnake, which crawled to the feet of the child and stretched at full length, with its head resting on her left foot. The jingle of the bells seemed to charm it, for the snake closed its eyes and was motionless. Mrs. Madden saw the snake. She did not scream for assistance, as most women would have done under the circumstances. She darted to the child, grabbed the snake by the tail and hurled it through the air. The peculiar music of the bells had evidently placed the snake under a spell, as it did not move until it felt the touch of Mrs. Madden's hand.

## Calculation Extraordinary.

Some people who are not harassed by the "daily bread" problem seem to delight in researches which have no other effect than to settle a point which was never disputed. Sir Archibald Geikie, of the British association, after much careful thought and patient investigation, together with a deal of figuring, has come to the conclusion that the world is between 73,000,000 and 650,000,-000 years old. Rather a wide margin,

## NOTICE.

State of North Carolina. Halifax County, Superior Court.

# New York Weekly Herald

## ONLY ONE DOLLAR A YEAR.

During 1893, the Weekly Herald will be without question the best and chespest family journal published in America. It will be profusely illustrated by the best artists in the country, and will be a magazine of literature, art and news absolutely unrivated in its excellence. The Presiden- Our Line of Hats is Complete. Fine Clothing-Ready Made or Made tial Inaugural will be graphically described and artistically pictured, while the great feature of the coming year's history, the

## WORLD'S FAIR,

Will be given particular attention. So complete will be the descriptions of everything connected with the great Exposition, and so true to the reality the many illustrations, that a personal of the Weekly Herald next summer will be almost as satisfactory as a visit to Chicago.

## PRIZES EACH WEEK

Will be awarded for the best original articles on agricultural subjects. Each issue will contain a page devoted to practical and scientific farming. The Woman's Department will be unexcelled in practical suggestions to make the home more atteclive. Every week there will be a number of special articles on all topics of human interest. Among the novelists who will write stories for the Weekly Herald are Jerome K. Jerome, Stepnzik, Mrs. Grimwood, Edwin Arnold. John Strange Winter, Marie Correlli, Helen Mathers, Florence Warden, Hume Nisbet and Hamilton

## Because YouEat

There's a better way than that.

all the vegetables you raise, that's no reason why they should not be good enough to sell-as good as the best the market affords. Your family garden ought to be a luxury and a source of pride,

as it will be if its products are really fine. But fine vegetables have to start from fine seeds and you are not likely to get those when you send to the nearest store and trust to luck to get what you send after.

Let us help you-with our book and our seeds; the book is free, write for it and it will tell you how to get the right kind of seeds and what to do with them. Don't wait until you have a large general order to forward; send

us a dozen stamps or postal note and look for the package by return mail or express. No matter how small the order i , it is worth your while to have the best and we would like to supply it. GEO. TAIT & SONS, Seed Merchants,
