"America" in His Eyes.

Greenville Reflector. Mr. Jesse Speight spent a few days of last week in Greene county and saw while there a child about whom there is a strange peculiarity. The child is a little seven-year-old son of Mr. Lassiter, and the strange feature is that around the pupil of each eye in circular shape is the word "America." The boy's eyes are very dark—almost black—and the letters are a dark brown, making such slight contrast in color that the peculiarity is not noticed from a casual glance, but a close observation shows the word very distinctly. The letters around both eyes are exactly alike. They were first discovered by the child's parents when he was a few months old, and are supposed to have been there at birth. This is as wonderful a freak of nature as we ever heard of.

CASTORIA. Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children. Dr. G. C. Osgood, Lowell, Mass. "Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various patent nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves." UNITED HOSPITAL AND DISPENSARY, Boston, Mass.

The Centaur Company, 77 Murray Street, New York City. Castoria is so well adapted to children that I recommend it as a superior, to any prescription known to me. H. A. Aeneas, M. D., 111 So. Oxford St., Brooklyn, N. Y. "Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
