## LOCAL NEWS.

**White Frost.**

**CROPS INJURED.**—The heavy rains all through the eastern section of the State have injured the cotton crop considerably, and have also damaged the late corn crop.

**HYMENEAU.**—Cards are out announcing that Miss Claudie Hyman of Palmyra will be married to Mr. G. A. Guilford in the Methodist church of Palmyra at 2 o'clock p. m., Sept. 6th.

**PROPERTY TRANSFER.**—Mr. Jos. Stern has purchased of Capt. Kitchen the store-house, adjoining the new one just erected by the former, and recently occupied by Mr. Jas. L. Josey.

**OPENED WELL.**—The male school was opened this morning (Wednesday). Messrs. Prince and Wilson have gone to work in earnest and are much encouraged. The opening was much more flattering than they expected.

**OFF TO COLLEGE.**—The following young men left for college Tuesday: For Chapel Hill, Messrs. R. J. Allebrock and Durwood Leggett; for Wake Forest, Mr. Dempsey Gay; for the A. & M. College, Raleigh, Messrs. Isaac Smith, Nat. Smith and Ed. Hall.

**COTTON OPENING.**—The cotton fields begin to show the fleecy staple and the pickers will soon be busy from early morn to dewy eve stripping the fields of snow-white harvest. Will the farmers sell at once, or will they hold their cotton to lose money on it?

**FIRE NEAR PLYMOUTH.**—While at Plymouth last Friday we learned that on the night before Mr. John Ambrose who lived 4 miles from Plymouth had the misfortune to lose his house and its entire contents by fire. Mr. Ambrose just did succeed in saving his wife and children from the flames. It was supposed that the fire came from the flue from the cook-stove.

**SCOTLAND NECK PUSHES AHEAD.**—A gentleman who lived in Scotland Neck two years ago visited the town recently and after looking around he said he believed that the town is more prosperous than he had ever seen it. "And thereby hangs a tale." Our people have not given up the fight for progress, notwithstanding money has been scarce and times have been hard. We have pushed ahead and now when general prosperity returns we will be already on the move and not have to lose time "getting up steam."

**Inspected the Riflemen.**  
Col. A. L. Smith of Charlotte was here last Thursday and inspected the Scotland Neck Mounted Riflemen. The company was out in full force and bore fine inspection.

### Parale, Plymouth and Politics.

The editor of THE DEMOCRAT ran down the road a day last week. Parale is perhaps the most wonderful town in Eastern Carolina. Five years ago no one who rode on the cars from Rocky Mount to Williamston would ever have dreamed that the croaking of frogs in the swamp midway between Bethel and Robersonville was the prelude to the hum of machinery and merriment of a town club. But such was the case. The Parale-Eccleson Lumber Company now flourishes there, the waste place has begun to blossom, the croak of the frogs has been silenced by the hum of machinery and the crack of the hammer and the town has a pleasure club. Let no one say that town building is impossible anywhere.

Plymouth is the same good-natured old town it has been for a long time. Several new buildings indicate progress and the people there, like elsewhere in the State, hope for good business this fall.

The political situation in those counties begins to grow interesting. There are some very strong Ransom men in Plymouth and they are of the opinion that he will be returned. Some say both Ransom and Jarvis will be dropped and another man will be chosen.

### Tillery.

We spent a day in Tillery last week. There is a great deal of business there for a town so small. The North Carolina Lumber Company makes the most of the business for the place. It is one of the most complete and best equipped lumber plants in the State and does a great deal of work and spends a great deal of money. The pay-roll is about \$600 a week, and almost all the money is spent in Tillery. This makes business brisk. The company have expended a large amount of money in locating and equipping their plant, and have also purchased timber enough in the surrounding country to keep the plant at work fifteen years.

The business, as managed by Mr. R. R. Cowles, is prospering and all the employes speak well of the management.

Lookout for White Frost on or about Sept. 13th.

## COMING AND GOING.

## From Roxobel.

(Correspondence to THE DEMOCRAT)

ROXOBEL, N. C., Sept. 4, '94.

Roxobel Academy opened yesterday September 3rd with a goodly number of students in attendance. This is the fifth scholastic year of the school and the prospects for the largest enrollment in its history are promising.

A bountiful harvest of all crops save sweet potatoes is expected by the farmers of this section. The cotton crop will not prove as large a yield as was once thought.

Hog cholera is showing its colors in one corner of this community. If this disease among swine be checked where it is and no other preventative interferes with the growth of the animals, meat will be more plentiful with our people in 1895 than it has been in many years.

Mr. John L. Andrews left Monday for a brief sojourn in Halifax county with his two daughters Mrs. Johnston and Mrs. Hancock.

Dr. P. C. Jenkins returned home Saturday from the Sunday School Chautauqua at Venon Springs, N. C., where he spent several days. He expresses himself as being highly pleased with his trip and his stay with the Sunday School workers of the Old North State.

The Republican Senatorial Convention of the third district convenes in Roxobel to-day at noon, for the purpose of nominating a Senator.

## County Board of Education.

Superintendent Bond furnishes the following interesting items:

The Board of Education met in Halifax Monday with all members present. Mr. Spruill reported that he had been negotiating about the survey of the Lewis land and would report result at next meeting.

Superintendent was ordered to visit District No. 1 and make an investigation in regard to a school house site. Also to visit Districts No. 2 and 13 and investigate certain matters of dispute, and to visit District No. 7 and report if it would be best for the school interests that part of that District be cut off and formed into a new one. E. A. Daniel was appointed committee man for white schools in District No. 21 in place of Jno. L. Alston, and Jno. L. Alston, Wm. T. Williams and Isaac Alston were appointed committee men in same District for colored schools.

The Board ordered that the contract be kept with Miss Dickens, teacher in District No. 7, and that she be allowed to teach until the money set aside for her school be expended.

The Board ordered the secretary to notify certain committees to attend next meeting of the Board and answer charges preferred of "violation of school law and partiality in administration." The treasurer was instructed to pay to B. D. Gray or his representative \$39.30 which amount was over paid by him to school fund of Districts No. 9 and 10. Secretary was ordered to notify certain parties that one half of amount of judgment in favor of school fund must be paid on the first day of January '95.

The following sums were voted to the following Districts:  
District No. 3, \$25 per month for whites. District No. 13, \$25 for whites and \$25 for colored. District No. 25, \$25 for colored.

Board then adjourned to meet again on the second Monday of October.

## A Grand Feature.

Of Hood's Sarsaparilla is that while it purifies the blood and sends it coursing through the veins full of richness and health, it also imparts new life and vigor to every function of the body. Hence the expression so often heard: "Hood's Sarsaparilla made a new person of me." It overcomes that tired feeling so common now. Hood's Pills are purely vegetable, perfect harmless, always reliable, permanent, always reliable and beneficial.

## HARRIS Lithia Water.

ASHEVILLE, N. C., April 24, 1893.

An extended clinical use of the Harris Lithia Water prompts me to the statement that I regard it as one of the best, if not the best, Lithia Water known to the profession. In the condition of Phosphatic Urine, its action is marvelous. Its use in the Pneumatic and Gouty Diathesis afford me more comfort than either the Buffalo or Londonderry Waters.

## Mr. Butterworth's Endorsement.

GRAPE TREE PLANTATION, AUG. 19, '94.

Mess. E. T. Whitehead & Co., Scotland Neck, N. C.

Gentlemen:—Per your request I very cheerfully send you this certificate. Sometime in last May Mr. F. B. Major, the patentee of the Hog and Poultry Cholera Cure, came to my plantation to treat my hogs for cholera. Up to that time I had lost 35 or 40, also several fowls with cholera. After his treatment my hogs and fowls ceased dying. That is to say, I have only lost two hogs and they were nearly dead when he commenced to treat them (they were so bad off that they refused to eat.) I have lost no poultry since I commenced to use his medicine.

I can most cheerfully recommend the Cholera Cure to the public. I believe the medicine is given according to directions neither hogs nor poultry will have the cholera. I am so thoroughly convinced of this fact that I shall always keep some of the medicine on hand.

Very truly yours,  
WM. F. BUTTERWORTH.
