HOW'S

Your Liver?

Is the Oriental salutation,

knowing that good health

cannot exist without a healthy Liver. When the

Liver is torpid the Bow-

els are sluggish and con-

stipated, the food lies

in the stomach undi-

gested, poisoning the

blood; frequent headache

ensues; a feeling of lassi-

tude, despondency and

nervousness indicate how

the whole system is de-

ranged. Simmons Liver

Regulator has been the

means of restoring more

people to health and

happiness by giving them

a healthy Liver than any

agency known on earth.

It acts with extraor-

dinary power and efficacy.

R S. WILDER, Princeton, N. J., says: -

so that you get the Genuine

with rod 2, on front of wrapper,

THE REWARD.

Bind us a crown for our brows, O years

Bind it of weeds and grass and thorns

Where our days pass sweetly by,

Give us no unearned glory, O years,

No swift fading crown of a day,

Insanity Not on the Increase.

People who worry themselves about

their nerves may take heart of hope

Dr. Clifford Allbutt, regius professor of

medicine at Cambridge University,

England, says the reports of an increase

in nervous diseases and insantty are al

nonsense. The hurry and bustle of

modern life have no more effect on the

nervous system than the alleged slow

ness and deliberateness of the past

Probably increased knowledge sees dis-

ease for the first time which has always

existed. Nerve specialists and machin

ery for the toning of nerves are mul

tiplying daily, says the professor, bu

rich idle people are increasing in num

bers, and they run, as they atways did.

after the fashionable fad of the day

What was "fiver" fifty years ago is

'nerves" to-day. It is pretentious non-

sense to claim that people's nerves are

too sensitive, too excitable. It is the

virtue of nerves to be excitable, the

more excitable they are, the more effi-

cient. He was glad that nature is

stronger than the faddists, and that

there is a fund of elasticity and insou-

ciance in healthy wouth that blunder

as we may we can not crush. Dr. All-

butt's position on this topic has led to

much discussion. A great many emi-

nent men agree with him, but the

nerve specialists are up in arms against

what they term his antiquated and

Uses and Value of Charcoal.

Charcoal is one of the most remark-

able articles in common use, and pos

sessess many qualities not generally

understood by the laity. As an absorb-

ent of bad odors it has no equal. Placed

around articles of food, it prevents

decay and preserves them for a time in

all of their freshness. In fine powder

it is one of the most perfect dressings

for malignant wounds and those where

proud flesh is present. As a cure for

neadaches it is invaluable, a teaspoon-

ful in nalf a glass of water often afford-

ing immediate relief. The power of

charcoal to absorb gases is not generally

appreciated. It will take up and hold

thirty volumes of ammonia, forty o

nitrous oxide, sixty-five of sulphurous

acid, and eighty-five of hydrochloric

acid. Some of these gases may be

withdrawn and used at will. The stor

age value of charcoal, while it is just

becoming known to practical workers.

has already opened many avenues of
