

THE DEMOCRAT.
 E. E. HILLIARD, Editor.
 Published Every Thursday.
 Entered at the Post-Office at Scotland Neck, N. C., as Second Class Matter.
 THURSDAY, JUNE 27, 1895.

IS IT SURGICAL?

Almost every day we read the utterances of some silver man, saying that unless a silver-standard platform is adopted for the next campaign he will not support it. Almost every day, also, we read the utterances of some gold man, saying that unless a gold-standard platform is adopted for the next campaign he will not support it. Only a few days ago a meeting was held in Wilmington in the interest of the gold-standard idea, in which some gentlemen said positively that unless the gold-standard platform is adopted they would not vote for free silver, even if the Democratic party should make it a part of its platform.

The Democrat wishes to know what all these strong assertions mean. Do they mean that the Democratic party is in such a bad plight that it needs the surgical operation which their declarations threaten, in order that it may be cured of some cancer that is gnawing at the party's vitals? If so, it will be necessary to decide first which cancer is the more dangerous, the gold or the silver.

But it seems from the strong and positive declarations of certain men that both the cancers are to be cut away. The silver man is whetting his lancet to cut away what he regards a gold cancer, and the gold man is whetting his lancet to cut away what he considers a silver cancer. Now, suppose each man holds to his opinion and when the time comes he shall suit his action to his promises and thrust in his lancet. Can the Democratic party, grand as its record has been, bear up under two such operations at once? It seems to us that with the surgeon's knife cutting away at the party on two sides at once the patient will be so weakened that it will have little strength with which to fight the battle that awaits it in 1896.

It seems to us that, inasmuch as neither has all the evidence on his side that his diagnosis is absolutely correct, it would be wiser for the gold surgeon to show that he will do all in his power to say that the real cancer is on the silver side, and get the silver advocate to let him cut it out; but if he cannot do that he will let the silver surgeon cut and withdraw his lancet until the good old party shall recover from the first operation. Or, it seems to us it would be well for the silver surgeon to do all he can to show that the real cancer is on the gold side, and do all in his power to get the gold advocate to allow him to cut it out; but if he cannot do that, let the gold surgeon cut and then wait for the patient to grow stronger before he thrusts in his lancet.

In any event, it seems to us that for both surgeons to operate at once will so weaken the patient that disaster will follow. And the Democratic party has no strength to waste.

MORE ABOUT WATER.

Pure water has come to be regarded as a *sine qua non* for good health. This is especially true for Eastern Carolina. The Democrat hopes to see some movement set on foot soon which will be the means of securing better drinking water in this region. And we know of no better opportunity for this than the State farms on the Roanoke river afford.

We hope to see the authorities make an effort for purer water for the use of the officers and the convicts. This would be quite humane in itself, and if successful it would demonstrate the possibilities of better water for this whole region.

A GOOD APPETITE

Always accompanies good health, and an absence of appetite is an indication of something wrong. The loss of a rational desire for food is soon followed by lack of strength, for when the supply of fuel is cut off the fire burns low. The system gets into a low state, and is liable to severe attacks of disease. The universal testimony given by those who have used Hood's Sarsaparilla, and to its great merits in restoring and sharpening the appetite, in promoting healthy action of the digestive organs, and as a purifier of the blood, constitutes the strongest recommendation that can be urged for any medicine. Those who have never used Hood's Sarsaparilla should surely do so this season.

POSTMASTERS AND CRIMINALS.

(Correspondence to THE DEMOCRAT)
 WASHINGTON CITY, June 24, 1895.
 On July 1st, the readjustment of presidential post-masters goes into effect. Statesville shows the largest increase. It has been advanced from a third to a second-class post-office. The changes in the salaries are as follows: Increases—Edenton, \$1,200 to \$1,300; Gastonia, \$1,100 to \$1,200; Greensboro, \$2,400 to \$2,500; Henderson, \$1,500 to \$1,600; High Point, \$1,500 to \$1,600; Kinston, \$1,400 to \$1,500; Monroe, \$1,100 to \$1,300; Morganton, \$1,200 to \$1,300; Salem, \$1,500 to \$1,600; Shelby, \$1,100 to \$1,200; Statesville, \$1,900 to \$2,000; Washington, \$1,500 to \$1,700. Decreases—Salisbury, \$1,800 to \$1,700; Winston, \$1,800 to \$1,500.
 A. G. Bauer, a white man, came here this week to marry an Indian girl, Rachel Blythe. Under the laws of North Carolina the marriage would be invalid.
 Attorney General Glenn was in this city this week on his way North to attend the funeral of his uncle, Col. Dodge of the U. S. Army.

The citizens of Washington severely criticize Marshall Allison for coming here with a number of convicts, chief of whom had on a suit of new clothes and was allowed perfect freedom while the minor offenders were heavily handcuffed. Ex-Cashier Holland misappropriated about \$90,000 worth of other people's money. The other convicts were condemned to serve for a much shorter time in the Albany Penitentiary. It is possible that the Department of Justice will inquire why Holland was allowed to travel like a gentleman and the other convicts were heavily manacled.

There are 356 members of the House of Representatives. The gold men claim to have 250 against free coinage to 106 in favor of it. There will be 214 Republicans in the next house; 105 Democrats and 7 Populists. Of the 214 Republicans, only 24 are for free coinage. From this it is certain that no legislation favorable to silver can pass the next House.

Secretary Carlisle says "sound money" is going to win the day in Kentucky.

THAT TAX.

Following are the sections of the act passed by the last Legislature bearing on lawyers, doctors and boarding houses:

"Section 7. That taxes in this schedule shall be imposed as license tax for the privilege of carrying on the business of doing the act named, and nothing in the schedule contained shall be construed to relieve any person from the payment of the ad valorem tax on his property, as required in the preceding schedule. The licenses issued under this schedule shall be for twelve months, unless otherwise specially provided in any section imposing a tax.
 "Sec. 27. Every person who shall practice any trade or profession or use any trade or profession or use any franchise taxed by the laws of North Carolina, without having paid the tax and obtained a license as required in this act shall be deemed guilty of a misdemeanor, and punished by fine, not exceeding fifty dollars, or imprisonment not exceeding thirty days, and shall also forfeit and pay a penalty of fifty dollars, which penalty the sheriff of the county in which it has occurred shall cause to be recovered before any justice of the peace of the county, for the benefit of the school fund of the county.
 "Sec. 34. On all hotels and boarding and lodging houses, kept for the business of furnishing either board or lodging, or both, to regular or transient boarders, for pay or hire, the sum of fifty cents (\$50) for each bed room kept for said business.
 "Sec. 35. On each and every practicing lawyer, practicing physician, and dentist, the sum of ten dollars (\$10.00) provided that no city, town or county shall levy any additional tax on lawyers, practicing physicians, and dentists."

THE TRUE FARMER.

The Raleigh correspondent to the *Charlotte Observer* makes the following observations about agriculture:
 "The agricultural Moses is not yet come. The agricultural and mechanical colleges built by the various States came chiefly from a demand that something be done for the farmers. Yet, although it was the aim to make these schools agricultural they are all gradually turned by their trustees, faculties and students, into training schools for mechanical and industrial pursuits.
 "The ante-bellum Southerner made great success of farming. Self-reliance was probably one of the most important factors in the success of the old fashioned planter. To-day the mechanic has come to the front and he is succeeding very much as the ante-bellum planter did, by careful attention to his business and steady, persevering work. It would seem that there is room for somebody to open up a new way to success in agriculture. When the new farmer comes he will probably come with little noise. He will be known by his success rather than by the noise he will make demanding that the tariff, the financial system and all the laws of the country be changed to suit him. And he won't want any political office."

Ayer's Pills promote the natural motion of the bowels, without which there can be no regular, healthy operations. For the cure of biliousness, indigestion, sick headache, constipation, jaundice, and liver complaint, these pills have no equal. Every dose effective.

WAS IT AN AIR-SHIP?

(Charlotte Observer.)
 CONCORD, N. C., June 20.—Something resembling a balloon in shape, which soared several thousand feet above the earth, passed over this city this afternoon from 5:30 to 6:15 and attracted the attention of several hundred of our citizens. It floated majestically and slowly. Many of the citizens claimed to have seen smoke issuing from the massive air-ship, while others deny it. No one knows from whence it came. When first discovered it was over the centre of the city, coursing northward. Several young men who claim to be crack shot riflemen leveled on the big, white thing with Winchester but it amounted to nothing. In the east end of the city it was seen by an old colored woman who asserted that her time wasp, that it was the ship of old Gabriel. Some mischievous boy went over to the new roller mills, blew his drum corps trumpet, whereupon the old woman began shouting and alarming that portion of the town, and is now critically ill with hysterics. Whatever the thing was it was a beautiful sight.

AN ORDINARY BOY, BUT HUSTLED.

(Charlotte Observer.)
 The new Attorney General, Judson Harmon, is described as a splendid man physically and intellectually. He is truly a man whom the office sought, instances of which are unfortunately so rare in our political history. He was in Washington in business in 1886, and, without seeking an introduction, met Mr. Cleveland, who desired to question him regarding an Ohio applicant for office. The President, it seems, never forgot the man.
 Being interviewed recently as to his past, Mr. Harmon said: "There isn't anything in my career that makes it interesting or particularly remarkable. It's just the career of an American boy who inherited a good name and a good constitution, and who hustled for the rest." And in this sentence lies a whole sermon for the ambitious American lad who cares to heed it.

REDEEMABLE SILVER.

The following which appeared in a recent issue of the *Richmond Dispatch* may be of interest to some of our readers:

"A friend of ours, who has had several controversies with persons who are of the opinion that the silver dollar is at par, because (as they imagined) the Government would at any time exchange a silver dollar for a gold dollar, wrote to Washington for official information on the subject, and the following is the correspondence:
 May 27, 1895.
 Dear Sir.—Please let me know—
 1. If a silver certificate (I do not mean a coin certificate) is presented at the Treasury, can holder, under the law, demand gold for it?
 2. Can he first demand silver, and immediately legally demand that the Government exchange the silver for gold?
 3. If he did make the demand, would it be acceded to?
 4. Can a party holding, say one silver dollar or any number of silver dollars, legally demand from the Government that it be exchanged for gold?
 Very respectfully,
 C. S. HAMLIN,
 Assistant Secretary.

It has been said recently in North Carolina that J. H. Mills, C. M. Cooke and Grover Cleveland are the only men in America who have refused to accept the title of LL. D.
 Mr. H. A. London, of the *Chatham Record*, who was here yesterday, tells us that his printer, Mr. J. Morris, who has printed the *Record* for fourteen years, in that time has saved more than a thousand dollars, and will shortly leave to reside in Texas. He will take his family with him. He and his wife came down to Raleigh shopping, bringing with them their son Henry London Morris.—*News and Observer.*
 The Massey-Pilot suit is now being tried in Norfolk. John E. Massey sued the *Norfolk Pilot* for \$50,000 for damages in what he claimed was a libelous publication by that paper. It is an interesting suit.
 The University Summer School for Teachers at Chapel Hill will begin June 25th. Tickets at reduced rates may be bought at all Stations from 22nd, good to August 1st.
 Not many business houses in these United States can boast of fifty year standing. The business of Dr. J. C. Ayer & Co., Lowell, Mass., whose incomparable Sarsaparilla is known and used everywhere, has passed its half-centennial and was never so vigorous as at present.

Mr. Richard Stanhope Pullen, one of Raleigh's best known citizens at home, and the city's greatest benefactor, died there Sunday, aged about 73 years. He left a fortune variously estimated from \$150,000 to \$200,000. He was a great benefactor and much beloved by his fellow citizens.
 The *Patron and Gleaner* said last week that the authorities had exhumed the body of Mrs. Thomas Futrell who died suddenly at her home near Woodland recently. Some of her people were not satisfied as to the cause of her death.
 Wake Forest is to have a regular law course. Mr. N. Y. Gidley, who has been giving lectures there for two years, will now move his family there from Franklinton and make Wake Forest his home. He will devote his whole time to the work.
 North Carolina boys are coming to the front. Mr. J. R. Hunter, of Wake county, who has just taken his Ph. D. degree at Johns Hopkins University, was last week elected professor of Chemistry in Richmond College.

THE BEST FAMILY MEDICINE
 She Has Ever Known. Words of Praise from a New York Lady for
AYER'S PILLS
 "I would like to add my testimony to that of others who have used Ayer's Pills, and to say that I have taken them for many years, and always derived the best results from their use. For stomach and liver troubles, and for the cure of headache caused by these derangements, Ayer's Pills cannot be equaled."

When my friends ask me what is the best remedy for disorders of the stomach, liver, or bowels, my invariable answer is, Ayer's Pills. Taken in season, they will break up a cold, prevent a grippé, check fever, and regulate the digestive organs. They are easy to take, and are, indeed, the best all-round family medicine I have ever known.—Mrs. MAY JOHNSON, 268 Rider Avenue, New York City.

AYER'S PILLS

MILLINERY!
 I beg to announce to my customers and the public generally that I have just returned from New York City with a full
LINE OF SPRING MILLINERY.
 We will take pleasure in showing and still more in selling you.
 Hats 10c—\$2 untrimmed.
 Ribbons all widths and prices and newest designs.
MISS KATE G. TILLERY.

DO YOU WANT TO STOP TOBACCO?
 YOU CAN BE CURED WHILE USING IT.
 The habit of using tobacco grows on a man until grave diseases conditions are produced. Tobacco causes cancer of the mouth and stomach, dyspepsia, loss of memory, nervous affections, congestion of the retina, and wasting of the optic nerve, resulting in impairment of vision, even to the extent of blindness, dizziness, or vertigo, tobacco asthma; nightly suffocation; dull pain in region of the heart, followed later by sharp pains, palpitation and weakened pulse, resulting in fatal heart disease. It also causes loss of vitality.
QUIT BEFORE IT IS TOO LATE.
 To quit suddenly is too severe a shock to the system, as tobacco—to an inveterate user, becomes a stimulant; that his system continually craves. "BACCO-CURO" is a scientific and reliable vegetable remedy, guaranteed to be perfectly harmless, and which has been in use for the last 23 years, having cured thousands of habitual tobacco users—smokers, chowers, and snuff-tippers.
 YOU CAN USE ALL THE TOBACCO YOU WANT WHILE TAKING "BACCO-CURO." IT WILL NOTIFY YOU WHEN TO STOP. WE GIVE A WRITTEN GUARANTEE to permanently cure any case with three boxes, or refund the money with 10 per cent. interest.
 "BACCO-CURO" is not a substitute, but a reliable and scientific cure—which absolutely destroys the craving for tobacco without the aid of will power, and with no inconvenience. It leaves the system as pure and free from nicotine, as the day you took your first chew or smoke.
 Sold by all druggists, at \$1.00 per box, three boxes, (thirty days treatment) and guaranteed cure, \$2.50, or sent direct upon receipt of price. Send six 2c-stamps for sample box, booklet and proofs free. Enreka Chemical & Manufacturing Co., Manufacturing Chemists, La Crosse, Wisconsin. 6 13 ly
