

# ECZEMA'S

## ITCH IS TORTURE.

Eczeema is caused by an acid humor in the blood coming in contact with the skin and producing great redness and inflammation; little pustular eruptions form and discharge a thin, sticky fluid, which dries and scales off; sometimes the skin is hard, dry and fissured. Eczeema in any form is a tormenting, stubborn disease, and the itching and burning at times are almost unbearable; the acid burning humor seems to ooze out and set the skin on fire. Salves, washes nor other external applications do any real good, for as long as the poison remains in the blood it will keep the skin irritated.

### S&S FORM OF TETTER.

"For three years I had Tetters on my hands, which caused them to swell and make them almost useless. Part of the time the disease was in the form of running sores, very painful, and causing me much discomfort. Your doctors said the Tetters had progressed too far to be cured, and they could do nothing for me. I took only three bottles of S. S. S. and was completely cured. This was fifteen years ago, and I have not since seen any sign of my old trouble."—Mrs. L. B. JACKSON, 1414 McCree St., Kansas City, Mo.

S. S. S. neutralizes this acid poison, cools the blood and restores it to a healthy, natural state, and the rough, unhealthy skin becomes soft, smooth and clear.

S&S cures Tetters, Erysipelas, Poriasis, Salt Rheum and all skin diseases due to a poisoned condition of the blood. Send for our book and write us about your case. Our physicians have made these diseases a life study, and can help you by their advice; we make no charge for this service. All correspondence is conducted in strictest confidence.

## Stole Three Bales Of Cotton.

Littleton News Reporter. Two jaded horses were driven into town yesterday morning about 7:30 o'clock by Wash Hawkins, of Warren, hauling three bales of cotton which had been stolen near Gr. Hill. Acts of Hawkins created suspicion and Chief of Police King started in pursuit of him overtaking him and William Kearney near Va. n. Hawkins confessed to the stealing of the cotton but threw the burden of the crime on Kearney, who had hired the team for that purpose, and had remained in hiding while Hawkins carried the cotton to the depot. Cards are out for Kearney's marriage to the daughter of one of the most highly respected colored citizens of Warren county at an early date. Justice of the Peace M. E. Newsum bound them over to Warren court for the sum of \$200 each.

Sore and swollen joints, sharp, shooting pains, torturing muscles, no rest, no sleep. That means rheumatism. It is a stubborn disease to fight but Chamberlain's Pain Balm has conquered it thousands of times. It will do so whenever the opportunity is offered. Try it. One application relieves the pain. For sale by E. T. Whitehead & Co. Druggists.

The average lawyer will work hard on any case that appears to be feasible.

### A POOR MILLIONAIRE

I lately stayed in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by E. T. Whitehead & Co. Druggist.

## THE COST OF A BOY.

I read the other day that it costs five thousand dollars to bring up a city boy, and educate him and dress him well. I said to myself: "That is because everything in the city has to be bought, and living is high." But I began to study the thing and I found out that even a country boy costs his parents a great deal.

When you count what a boy eats and what he wears, and the school-books he has to have, and the doctors' bills which have to be paid when he gets the measles or scarlet fever, he will cost his folks at home at least one hundred dollars a year. If a boy is pretty bad to smash things, or to kick his shoes right out, he costs more than that. So that when I am twenty-one, and old enough to do for myself, I shall have cost father more than two thousand dollars.

Mother cooked my victuals, made my clothes and patched them, washed and ironed for me when I was a little fellow and whenever I was sick, and she never charged anything for that. If she were dead, and father had to hire all that done, it would cost another hundred dollars a year more; and that is two thousand dollars' worth of work mother will have done for me by the time I am a man.

Four thousand dollars for a boy! What do you think of that?

These are hard times. When parents put four thousand dollars into a boy, what have they a right to expect from him? Is it fair for a boy to play truant at school? Is it fair for him to play ball, go in swimming, or hang around town all the time, when maybe his father's potatoes are not dug nor the wood brought in for his mother? Is it fair for him to disappoint them by swearing and drinking? Is it fair to forget his parents, and neglect even to write them letters?

Some of our parents have put about all the property they have into us boys and girls. If we make whisky decanters of ourselves, they will be poor indeed; but if we make good citizens and substantial men, they will feel as if they had good pay for bringing us up.

Boys, what are you worth to your parents?—The Advance.

### A RAGING, ROARING FLOOD

Washed down a telegraph line which Cas. C. Ellis, of Lisbon, Ia., had to repair. "Standing waist deep in icy water," he writes, "I saw a terrible cold and cough. It grew worse daily. Finally the best doctors in Oakland, Nev., San Francisco and Omaha said I had consumption and could not live. Then I began using Dr. King's New Discovery and was wholly cured by six bottles." ## The Birds.

Charlotte Observer. The Raleigh Post favors a law to prohibit the killing or catching of quail in this State for five years. We would not go to this limit, but certainly the birds of the State should be better protected or soon there will be none. Our own pot hunters are bad enough, but rich men come down to North Carolina from the North, secure large tracts of land for the hunting privilege, paying the taxes on the land in full compensation, and killing every bird they can hit. Happily they miss often than they hit, but they do a good deal of damage nevertheless. It takes so little to tempt the cupidity of some of our people, that the little board money they pay, along with the taxes on the land that they tramp over, is about all the money these "sportsmen" leave in the State in return for the harm they do.

But the present bird law is not enforced. It prohibits the exportation of birds; as matter of fact a great many are shipped out of the State. It prescribes the days when shooting may begin and shall stop, and it is violated at both ends. But we North Carolinians are markedly inappreciative of many of the good gifts of the Lord. He has endowed us with a noble forestry and we destroy splendid trees for the bark that is on them and sell the bark to steam tanneries for the cost of hauling. Walnut and many other fine timbers are sold for a song and are shipped North to be converted into furniture. Dynamite is exploded in streams and a hundred minnows are killed in order to get ten big fish to fry. There is waste, destruction, on every hand, and a people who are as indifferent as are ours to their wealth of forest and stream cannot be expected to be regardful of the birds of the air. It is a pity, though.

### SUPPOSE.

What a marvelous change in the treatment of horses would quickly occur if men were treated exactly as they treat their horses!

In that case whips would seldom be used.

Jerking the bit would cease: also Yelling, cursing, pounding and kicking.

Check-reins would be very slack. Blinders would be discarded.

Chipping and docking would go "out of style."

Big loads would rarely be seen.

Axle-grease would have a boom.

Better roads would be loudly demanded.

Wide tires would be universal.

Race-tracks would be "For Sale."

Stables would be light, clean and airy.

Horses would be watered frequently, fed regularly, and have a variety and sufficiency of food and a deep, cut bed at night. All which prove how mean, cruel and foolish some men are.

## Rheumatism.

Nobody knows all about it; and nothing, now known, will always cure it.

Doctors try Scott's Emulsion of Cod Liver Oil, when they think it is caused by imperfect digestion of food. You can do the same.

It may or may not be caused by the failure of stomach and bowels to do their work. If it is, you will cure it; if not, you will do no harm.

The way, to cure a disease is to stop its cause, and help the body get back to its habit of health.

When Scott's Emulsion of Cod Liver Oil does that, it cures; when it don't, it don't cure. It never does harm.

The genuine has this picture on it, take no other. If you have not tried it, send for free sample, its agreeable taste will surprise you.
