Fresent, Past and Future.

The larmers of the State bave had a

serious battle with the grass in their

crops for the past two weeks. Perhaps

not in a score of years have they had

such an experience with grassy crops,

are gaining a noble victory. There is

not more heroie work done anywhere

than by the tillers of the soil, and no

of the balance of the world.

people do so much towards taking care

This is the time when the people are

listing their taxes. It behooves every

one to swear as truthfully about the

valuation of his property as about any-

is no doubt about the fact that some

men, yes, many men, perjure them-

selves in swearing falsely about the

value of their property. This impres-

sion is general, so much so that cer-

tain steps have been taken to have it

avoided as much as possible. It is an

individual matter with the tax payer,

and men cannot be too careful about it.

With all the enthusiasm that has

been wrought up in the State over gen-

eral education, teachers and parents

will do well to impress upon pupils

that the matter of acquiring an educa-

tion is a personal work for the learner.

With all the provision which the State

makes for the education of the children,

it is all a failure unless the opportuni-

piece of cold iron. In order to weld

of them. And to properly impress this

upon them is no small part of the

ment in his address at Wake Forest

commencement concerning what will

be done in the way of building cit'es

during the twenfieth century. He

said that the people of this country

will not build cities in the twent:eth

century but will give attention to the

The most that the people will do with

reference to cities, he said, will be to

clean out the "pig pens" they have al-

stream of rollution and evil that flows

AVERTING HAIL.

Lyle in Everybody's Magazine, an unusually frightful storm passed over Styria, Austria, from border to border, and crossed into Hungary. It lasted two hours and twenty minutes, and travelled at a speed of over thirty miles an hour. Its path was five miles wide, and nearly eighty long. Some of the hailstones measured fully two inches in diameter. The same day the immediate causes which led Swift was made memorable by a second & Co., to post the order. Its signifi- storm, similar to the first, and almost cance lies in the fact that a great cor- paralled, except at one point where the poration employing 5,000 persons in two paths crossed. Hall cannon at its packing establishment should con- that time were hardly known, but ceive it to be necessary or desirable to their inventor. Burgomaster Albert torbid indulgence in profanity among Stiger of Windisch-Felstritz in Styria, its employes. The presumption is that had already set up stations among his the corporation was impelled by con- own vines.
