ROYAL BAKING POWDER ABSOLUTELY PURE Makes the food more delicious and wholesome

HAUL STORM—Last Friday afternoon persons who were caught in the storm towards Roanoke river reported considerable hail.

HEAVIEST RAIN KNOWN HERE.—There were several very heavy rains here last week, but the downpour on Friday morning was pronounced by many as the heaviest rain they had ever seen for the length of time.

A DRY WEATHER COMMISSIONER—The reply which one of the town commissioners made to a lady's inquiry Saturday indicates that our "city fathers" have at least occasional requests concerning drainage.

MOVED HERE FROM LEWISTON.—Mr. Andrew Hancock has moved his family here from Lewiston. He has rented the hotel on Depot street known as the Camp Hotel, recently occupied by Mr. J. E. Woodard.

A DAY OF AUCTION SALES.—Last Saturday was a day of many auction sales in Scotland Neck. A number of joggles and some horses, belonging to the estate of the late M. J. Cooke, were sold at auction.

NOTE BETTER.—Mr. A. Johnson, editor of Charity and Children, published at the Baptist Orphanage at Thomasville, spent a Sabbath in Scotland Neck recently. In an editorial article concerning his visit here, among other things he said:

ROCKY MOUNT LAUNDRY.—Attention is called to the advertisement of the Rocky Mount steam laundry. The work has given entire satisfaction to all who have sent laundry from Scotland Neck through the agent here, Mr. John W. House.

LOGICAL SUGGESTION.—"After years of bitter experience, including bankruptcy, I learned the value of advertising," says Mr. C. C. Shayne, the largest merchant of New York. "I discovered that the road to success is through judicious advertising. I believe in advertising, and I think that if \$10 worth of newspaper space pays \$15 worth will pay better; if \$25 worth pays \$50 worth will pay better—and so on until your business reaches such a magnitude that you cannot supply the demand. Even then it is not good policy to quit advertising."

Death of Mrs. James L. Staten.

Mrs. James L. Staten died at her home near town last Sunday, November 2, 1902, at 5:30 o'clock, p. m., aged about 65 years. She left a husband, four sons and two daughters. The remains were interred in the Baptist cemetery Monday afternoon, Rev. J. C. Jones conducting the services.

WOULD SMASH THE CLUB. If members of the "Hay Fever Association" would use Dr. King's New Discovery for Consumption, the club would go to pieces, for it always cures this malady, and Asthma, the kind that baffles the doctors'—it wholly drives from the system. Thousands of once-hopeless sufferers from Consumption, Pneumonia, Bronchitis owe their lives and health to it.

THE VI-E OF NAGGING

Clouds the happiness of the home, but a nagging woman often needs help. She may be so nervous and run-down in health that trifles annoy her. If she is melancholy, excitable, troubled with loss of appetite, headache, sleeplessness, constipation or fainting and dizzy spells, she needs Electric Bitters, the most wonderful remedy for ailing women. Thousands of sufferers from female troubles, nervous troubles, backache and weak kidneys have used it, and become healthy and happy.

Mrs. Claude Kitchin returned home from Wake Forest Tuesday, where she had been some time by reason of the illness and death of her mother.

Mr. W. A. Dunn has been chosen to deliver the next annual address at the Baptist Orphanage at Thomasville. Mr. Dunn is a fine speaker and the selection is a good one.

Rev. W. R. Cullom, teacher of the Bible in Wake Forest College, spoke in the Baptist church here Sunday morning on Ministerial Education. He made a strong presentation of the subject and a most effective appeal for an educated Christian ministry.

On Friday night, Feb. 28th, little Miss Catherine Hancock celebrated her ninth birthday by giving her little friends an elaborate party. Her party was held at the residence of her grandmother, Mrs. Gray, on Ninth street.

Little Girl's Party.

The parlors and halls were brilliantly lighted and were decorated with cut flowers, palms, ferns, etc. The evening's pleasure consisted of juvenile games, music, both vocal and instrumental, and all manner of frolics for the little folks.

The table was artistically decorated with hyacinths, lilies, and numerous other flowers, and the birthday cake was entwined with green surmounted with nine colored tapers, the number representing the years of the little hostess.

Everyone had a good time, and all wish for Miss Catherine the happy return of many more birthdays.

Killed Mules and a Horse.

In last week's issue it was stated that Dr. Tait Butler, State Veterinary Surgeon from Raleigh, had just come to Scotland Neck to diagnose a disease among the horses here. He pronounced it glanders, and soon afterwards Mr. J. A. Kitchin had two or three mules killed and Mr. A. P. Kitchin had a fine mare killed.

The disease is such that when a horse is once attacked by it he seldom if ever recovers from it. So Dr. Butler advised that the best thing was to kill those that were sick.

Good care is being taken with the stables in which these horses were kept. Dr. Butler instructed that the stables should be kept in strict quarantine for at least sixty days.

Up to the present writing there have been no new cases reported. There seems to have gone out an exaggerated report that the sales stables here have lost mules and horses. This is untrue. Neither Prince & Co., nor Biggs & Johnson have lost any horses or mules.

LAGRIPE QUICKLY CURED.

"In the winter of 1899 I was taken down with a severe attack of what is called LaGrippe," says F. L. Hewett, a prominent druggist, of Winfield, Ill. "The only medicine I used was two bottles of Chamberlain's Cough Remedy. It broke up the cold and stopped the coughing like magic, and I have never since been troubled with grippe." Chamberlain's Cough Remedy can always be depended upon to break up a severe cold and ward off any threatened attack of pneumonia. It is pleasant to take, too, which makes it the most desirable and one of most popular preparations in use for these ailments. For sale by E. T. Whitehead & Co.

Plant Bed on Main Street.

On the site where were burned a few weeks ago the Carolina Buggy shops and the town market on Main street, Mr. E. W. Hyman has sowed a bed of tobacco seed.

ANGE OF GOLDS AND LA GRIPPE.

The greatest danger from colds and LaGrippe is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this Remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that is a certain preventive of that dangerous malady. It will cure a cold or an attack of LaGrippe in less time than any other treatment. It is pleasant and safe to take. For sale by E. T. Whitehead & Co.

Hotel Changed Hands.

The Scotland Neck hotel, generally known as "the Brick Hotel," changed hands yesterday. Mr. P. A. Rasberry who has been proprietor something more than a year, retired, and Mr. J. E. Condry takes charge. Mr. Condry is well known to the public as a hotel man, having managed this same hotel in Scotland Neck for several years, and he is pleasantly remembered as being a successful manager of the hotel. He will again give it special care and the public may well look for first class fare and good treatment.

Mr. Rasberry will give his attention to the livery business which he has been running successfully in connection with the hotel.

Help... Nature

Babies and children need proper food, rarely ever medicine. If they do not thrive on their food something is wrong. They need a little help to get their digestive machinery working properly.

SCOTT'S EMULSION OF PURE COD LIVER OIL WITH HYPOPHOSPHITES OF LIME & SODA

will generally correct this difficulty. If you will put from one-fourth to half a teaspoonful in baby's bottle three or four times a day you will soon see a marked improvement.

For larger children, from half to a teaspoonful, according to age, dissolved in their milk, if you so desire, will very soon show its great nourishing power. If the mother's milk does not nourish the baby, she needs the emulsion. It will show an effect at once both upon mother and child.

Mrs. Mills, wife of Prof. L. B. Mills, of Wake Forest, died at her home there last week, after a lingering illness for many months. The cause of her death was paralysis. She was mother of Mrs. Claude Kitchin, whose many friends here sympathize with her in her deep bereavement.

SOMETHING THAT WILL DO YOU GOOD.

We know of no way in which we can be of more service to our readers than to tell them of something that will be of real good to them. For this reason we want to acquaint them with what we consider one of the very best remedies on the market for coughs, colds, and that alarming complaint, croup. We refer to Chamberlain's Cough Remedy. We have used it with such results in our family so long that it has become a household necessity. Its prompt use we haven't any doubt but that it has time and again prevented croup. The testimony is given upon our own experience, and we suggest that our readers, especially those who have small children, always keep it in their homes as a safeguard against croup.—Camden, S. C., Messenger. For sale by E. T. Whitehead & Co.
