#### Train Rocked.

About a mile this side of Tillery Monday evening some one threw a rock in the northbound passenger train, slightly missing Mr. Albion Dunn who was on his way from there to Weldon. The rock was thrown with such force as to pass through the window glass and make considerable dent in the wall of the opposite side.

The engineer reports that he saw a negro step from the railroad track about the time or a little before the rock was thrown. Further than this there is no clue as to who did the dastardly deed.

It is to be hoped that the officers will spare no pains in locating the guilty one and bringing him to justice.

Mr. and Mrs. Savage returned from Norfolk the same day of the marriage and spent the night with Mrs. John White, Mr. Savage's sister near Hobgood, and then went to the groom's home six miles from Scotland Neck.

#### Miss Applewhite's Work.

The Woman's Missionary Union Auxiliary to the North Carolina Baptist State Convention meets in Goldsboro this week. The News and Observer, in giving the details of the work of the various departments, has this to say of a Scotland Neck lady:

"A little more than a year ago the necessity for still another department was felt. There was a gap between the Sunbeam societies and the Woman's Missionary Societies. Some churches had already seen this necessity and had met it by organizing Young Ladies' Missionary Societies. Miss Mary K. Applewhite, head of the Normal Department in the Baptist University for Women, was selected as the leader of the Young Ladies' Missionary Societies. She is at work organizing this important branch and is making an earnest and successful endeavor to bring it up to a greater state of efficiency."

### The Round Table Book Club.

(Reported for The Commonwealth.)

The Round Table Book Club was most delightfully entertained on Saturday afternoon, by Mrs. Will Josey.

Miss Adelaide Smith, the president, being absent, the meeting was called to order by Mrs. R. C. Josey. Several topics of interest were discussed.

The course of study—American Authors—selected by the committee, and program of same for ensuing year, was read by the chairman, Mrs. G. S. White, and approved by all members present.

Mrs. J. P. Wimberly read two interesting papers—Character sketches of Lady Macbeth and Macbeth.

"Sleep Scene" from Macbeth was read by Mrs. R. C. Josey.

Much regret was expressed at the absence of Mrs. H. I. Clark who was to have given a "Synopsis of Macbeth," also "Lady Macbeth's Analysis of Her Husband's Character."

Guests of the club were Mrs. Charles A. Beck and Mrs. G. Hoffman.

Delightful refreshments were served, by Misses Stella Hoffman and Mary Josey.

Leaving the warm parlors we breathed the storm, knowing our hostess to be a most delightful one.

#### Scotland Neck Electric Light Plant.

On account of the great fire our town experienced last year the Electric Light Plant sustained a considerable loss in revenue for several months thereafter. Within the past twelve months, however, many new lights have been installed and the Light Plant has more than regained the lights lost by the fire. Within this period there have been installed 604 16 candle power lights. Adding these 604 to 850 lights in use last June we have a total of 1,454.

Owing to the fact that meters have to be installed and connections made with the street commercial lines this initial expense to the Light Plant was considerable. One extra street arc lamp was placed on Church street making 33 in use.

L. R. MILLS, JR.,  
Supt. Electric Light Plant.

#### Freight Car Wrecked.

There was a wreck on the yards near the depot on the afternoon of the 4th. The freight train was backing from the crossing near the cotton mills when the front or rear truck of a car loaded with brick jumped from the side track to the main track. This twisted the car so that it was derailed. It took several hours to clear the track. The derailed car had to be turned over to let another freight and the passenger train pass. The derailed car was badly broken, and some who looked at it said it was practically ruined.

The Alaska Packers Association have taken the highest awards at every World's Fair where their goods were shown. At St. Louis World's Fair, the Red Salmon took the grand prize. The only grand prize ever given to Salmon at any World's Fair. The Argo Red Salmon is the best that is packed.

#### Card of Thanks.

We wish to thank the people of this community for their kindness toward us during the sickness of our family.

MR. AND MRS. E. L. BRAXTON.

Letter to O. J. Moore.

Scotland Neck, N. C.

Dear Sir: If we sell Devoe to paint your town, your road won't have so much freight to handle.

It takes 10 gallons to paint a fair-size house, and that house won't want painting again for 5 or 10 years. That's true in a way; but people, you know, rather like fresh paint, and they paint for nothing but looks sometimes.

That house would take 12 or 13 gallons of almost any other paint than Devoe, and would have to be painted again in half that time. Ten years is a very long time for a paint to wear; and five isn't short.

Which makes the most freight, a 10 or 20-gallon paint? 5 or 10 year paint? But the 10-gallon paint is the 10-year paint; and the 20-gallon paint is the 5-year. Which makes the most freight?

Ask your paint-dealers which he'd rather sell, and which he could sell most of. Ask your painter which he'd rather paint; whether good or bad paint is good for his business; which is good paint, the 10 or 15-gallon paint; which pays the most freight, and which pays the most wages. Which will you buy yourself, the 10-gallon 10-year, or 20-gallon 5-year, paint?

Yours truly

F. W. DEVOE & CO.

## LOOK OUT FOR IMITATIONS

With Tags About the Same Color and Design As

The quality of the genuine sun cured tobacco used in REYNOLDS' Sun Cured and grown on soil where the best sun cured tobacco grows, has caused imitation brands to be brought out and offered as the genuine Reynolds' Sun Cured to unsuspecting dealers and chewers who do not look closely at the printing on the box and on the tag.

These brands only imitate the outward appearance and do not possess the genuine inside quality that has been found in Reynolds' Sun Cured ever since Reynolds' Sun Cured was introduced and which has so increased the chewing of sun cured tobacco and proven so popular, that the word "Sun Cured" is now printed on tags or in the advertising of many brands claimed to be genuine sun cured tobacco.

Did you ever see the word "Sun Cured" used in any chewing tobacco advertisement, or on any chewing tobacco tag or label, or in any other way, before it was introduced and used to identify the genuine Reynolds' Sun Cured? You see it frequently now, because many imitation brands are being made to appear as nearly like Reynolds' Sun Cured as they dare—with tag, shape of plug and style of package so similar that experienced buyers sometimes accept these imitations as the genuine Reynolds' Sun Cured.

Don't be deceived into taking imitation brands for the genuine. Be sure the letters on the tag spell "R-e-y-n-o-l-d-s' Sun Cured," and you get the best value in sun cured chewing tobacco that can be produced for chewers. Sold at 50c. per pound in 5c. cuts; strictly 10c. and 15c. plugs, with chewing qualities like that which was sold from 60c. to \$1.00 per pound before Reynolds' Sun Cured was offered to the trade.
