

The Bridge
That Spans the Gulf

between "Just-getting-along" and "A-competence" is old and time worn but, unlike our modern bridges, grows stronger with age.

The road that leads directly to and across this bridge is well known and is made by the junction of the paths of Thrift, Economy, Foresight, Accumulation and Investment.

If you are traveling any of these paths (even if you are out on the main road) there are many reasons why you should identify yourself with a good, strong, conservative bank, an institution that is able to assist you when you come to the rough places in the road.

Come in and let us tell you other reasons why you should have an account with us.

**"Cut
it Out"**

says many a doctor to his
lady patients, because he
doesn't know of any medi-
cine that will cure female
troubles except the sur-
geon's knife.

That such a medicine
exists, however, is proved by
thousands of cures made by

**WINE

mend the advertisers to all who need
work in their line.

A. N. DUBOIS—Special attention
is called to the advertisement of this
able chemist, of Wilmington. He
is well known to a number of Scot-
land Neck citizens, and has spent
considerable time here in his profes-
sional work for the knitting mills.
Any work in his line will be given
prompt and thorough attention.

Closing of Colored Graded School.

The colored graded school, under
the principalship of Thos. Shields,
closed last Friday night, May 10th.
The exercises consisted of songs and
recitations by the pupils, which did
credit to the work of the teachers.
The main feature of the exercises
was an address by Prof. P. W. Moore,
principal of the colored Normal
School at Elizabeth City. The ad-
dress was carefully prepared and
was well delivered. It dealt with
the necessity proper and safe leaders
for the colored race, and was rich in
suggestions along that line. Purity
of life, faithfulness to obligations
and conscientious discharge of duty,
were some of the main features
dwelt upon in the address. It was
timely and will doubtless be fruitful
of good.

Such noble ideas as were held up
in the address should be inspiring to
any people, and the people to whom
they were presented in Scotland
Neck will surely profit by them.

Panama Canal--Eric Canal.

Machinery is digging the Panama
Canal a thousand times quicker than
the shovel dug the Erie.

Machinery produces the L. & M.
Paint at 50 times less cost for labor,
than if made by hand.

The L. & M. gives the best job in
the world, because L. & M. Zinc
hardens L. & M. White Lead and
makes L. & M. Paint wear like iron
for 10 to 15 years.

It only requires 4 gallons of this
celebrated paint and 3 gallons of
Linseed Oil at 60 cts per gallon, to
paint a moderate size house.

If any defect exists in L. & M.
Paint, will repaint house for nothing.

Governor Glenn Next Tuesday.

Governor Glenn will deliver the
address at the closing of the graded
school here next Tuesday.

The address will be at 11 o'clock,
a. m. It is not known at this writ-
ing where the place of meeting will
be, but a committee of the board of
trustees of the school will arrange
for it.

The entire town and community
will welcome Governor Glenn and if
the day is favorable a large audience
will greet him.

Superintendent Wilson has been
fortunate in securing Governor
Glenn for the occasion, and he will
ask the merchants to close their
stores at the hour of speaking, as
they did on memorial day, so that
all may have an opportunity to hear
him.

There has been some inquiry as to
the hour when Governor Glenn will
speak, and so particular emphasis is
given that it will be at 11 o'clock
a. m. Let as many as possibly can
avail themselves of this opportunity
to hear Governor Glenn.

Deafness Cannot be Cured

by local applications, as they cannot
reach the diseased portions of the ear.
There is only one way to cure deafness,
and that is by constitutional remedies.
Deafness is caused by an inflamed
condition of the mucous lining of the Eus-
tachian Tube. When this tube is in-
flamed you have a rumbling sound or
imperfect hearing, and when it is en-
tirely closed, Deafness is the result, and
unless the inflammation can be taken
out and this tube restored to its normal
condition, hearing will be destroyed
forever; many cases out of ten are caused
by Catarrh, which is nothing but an
inflamed condition of the mucous sur-
faces.

We will give One Hundred for any
case of Deafness (caused by catarrh)
that cannot be cured by Hall's Catarrh
Cure. Send for circulars free.

Prof. Mills Greatly Pleased.

Capt. John Lamb's address be-
fore the Confederate Veterans here
last week was so rich in historic de-
tail concerning the Civil War that
Prof. L. R. Mills, professor of Math-
ematics in Wake Forest College, or-
dered a dozen copies of this issue of
THE COMMONWEALTH, which con-
tains the address in full, to be sent
to the college library. He said he
wished them filed in the library for
the convenience of the students, as
the address gives certain intelligence
not published before.

So Glad He Took It.

A good citizen in another part of
the county for whom the editor of
THE COMMONWEALTH about a year
ago wrote insurance in the Union
Central, writes now that he is glad
indeed that he took the insurance.
He says his health is very poor now,
and if he had waited perhaps he
would not have been able to get the
insurance at all.

If you need insurance you would
better take it at once. Your health
might fail also, and then the older
you grow the more it will cost you.

The Union Central offers insur-
ance equal to any other and super-
ior to many other contracts. It leads
in dividends to policy holders.

If you want a policy call on or
write me.
