The Editor's Song.

How dear to my heart is the steady subscriber,
Who pays in advance, without saying a word;
Who lays down his dollar, and offers it gladly,
And casts 'round the office a halo of cheer;
Who never says, "Step it, I cannot afford it!"
Or, "Getting more papers each day, than I read;"
But always says, "Send it, the whole outfit likes it—"
In fact, we regard it a business need.

How welcome is he when he steps in the sanctum,
How he makes "our heart," throb,
How he makes "our eye," dance!
We outwardly thank him—we inwardly bless him—
The steady subscriber who pays in advance!

Flowers that Change Color.

(New Orleans Times-Democrat.)
"This bed of flowers was blue this morning, and now it is pink. That one was white, and it is now rose. That one by the hedge was yellow yesterday, and to-day it is purple."
The gardener chuckled delightfully.

"I call 'em my fairy flower beds, ma'am," he said. "You see, they change color. It's a grand idea, isn't it? It gives a garden such variety."
"But I didn't know that any flowers changed their color."

"Oh, yes. That bed you first mentioned is the mutable phlox. At sunrise it is blue, and in the afternoon it is pink."

"The one to the right is hibiscus—hibiscus mutabilis. It goes through three changes in the day, from white in the morning to rose at noon and to red at sunset."

"The bed by the hedge is the lantana. The lantana is yellow one day, orange the next and red the third. Its changes are slow."

"There's other flowers, too, that change. There's the cheiranthus chinensis, that shifts from white to yellow and from yellow to red. There's the gladiolus versicolor that's brown in the morning and blue in the evening. There's the coloea scandens, that moves slowly from greenish white to a deep violet."

Remarkable Rescue.

That truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. Then instant relief came. The coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed cure for coughs and colds, \$5.00, and \$1.00, at E. T. Whitehead & Co.'s drug store, Trial bottle free.

Corn is King.

Who can doubt that corn is king when, in addition to its food and feed value, the cob is used to make alcohol, cider vinegar and pure maple syrup, while from the husk is turned out a fair article of smoking tobacco? Coal and cotton will have to look to their laurels.—Selected.

Nightingales in Scotland.

(Glasgow News.)
The nightingale favors some districts and shuns others. Scotland it does not visit; but a century ago a patriotic Scotchman tried to establish the nightingale in that country. He commissioned a London dealer to purchase nightingales' eggs, one shilling each being given for them. These were well packed in wool and sent to Scotland by mail coach.

A number of men had previously been engaged to take special care of all nightingales' nests in places where the eggs could be hatched in safety. The robbers' eggs were removed and replaced by those of the nightingale, which were hatched and raised by their foster mothers. When full fledged the young nightingales seemed perfectly at home near the places where they first saw the light; and in September, the usual period of migration, they departed.

But the nightingales never returned to Scotland. It has been suggested that it was not the climate they objected to so much as the difficulty of acquiring the accent.

Old Time "Curl Up" Skates.

Few of the present generation of skaters ever saw a pair of old fashioned "curl up" skates or know what they are, but if they are native born their parents or grandparents can probably tell them about these old time appliances for skimming over the ice. The boys and girls of today have quick fastening, light and handsome skates, and in many cases keep them attached to shoes that are used only for skating and are put on at the pond side.

In the old days straps for the "curl ups" were unknown, leather thongs or stout strings being used with a sort of "harness" to keep the skates on the feet. The term "curl up" comes from the manner in which the forward ends of the skate irons were curled, extending over the toe of the foot. Doubtless many of the old folks can remember when the cheapest skates consisted only of a wood bottom for the foot and a strip of metal for an ice surface. These were "cheap" indeed.—Hartford Times.

High Point Lady May Fall Heir to \$400,000.

High Point, June 5.—A High Point woman is most likely to fall part heir to an estate valued at \$400,000. Her name is Mrs. Mattie Martin Strayhorn, and she is the wife of Mr. Ed Strayhorn. Her old home is in East Bend, Yadkin County. She and other heirs have been investigating the matter for a year or more and now the papers have arrived from Washington for her signature, which is officially drawn up. The distribution will occur in August. The estate valued at \$400,000, is in land in Indian Territory, which was taken up by the Cherokee Indians. Prominent lawyers are working on the case. Mrs. Strayhorn is one of nine children of the direct heirs and Miss Grace Joyner who clerks in Hendricks' 5 and 10-cent store, is a cousin of Mrs. Strayhorn. Two brothers, Messrs. Ed and Luther Strayhorn, live here and another in Florida.—Charlotte News.

Wise and Otherwise.

Reluctant Obedience.

A wise puppy being told to lie down in a certain place, will obey meekly at the moment, and then, waiting until his master's attention is diverted, will slip slowly away from his post. His reluctance to obey when he is told to stay is not based on a dislike of the spot, for he will often select it for himself—but purely on his prejudice against obedience as such.

So the child loves to assert his freedom by doing what he would consider a serious hardship if he were compelled to do it. A keen zest is added to play if it is close to the edge of the forbidden.

Like many of the naughtinesses of humankind, desire for the impermissible underlies the great advances of the race. Erect a barrier, and the child and the man long to climb over it. The impassable mountain, the unsailed ocean, the mysterious law of nature, the infinitely distant star—these are so many irresistible magnets to the pioneer, and they lead him, through what we may truly call an audacious disobedience, to new worlds and new triumphs of mind over matter.

"Why are the cows always getting out of the pasture?" ask the school-mistress of an old farmer. "Wal, I suppose it's because they want to be where they ain't!" A glorious impulse, which climbs from brute to man—and so on, to the heights of future development! The puppy, the cow, the child, the pioneer, the man of science alike may glory in their reluctant and temporary obedience to the voice which says, "Stay here!"

Sour Stomach

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion, and reconstructive properties. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonic and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach.
Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."
