**Mrs. Killcrease Bore In North Carolina Before the Declaration of Independence.**

(Special to News and Observer.)

Statesville, N. C., July 23.—Mr. J. A. Houpe, of Statesville, has received from his sons, Messrs. John and Claude Houpe, who live in Oklahoma, a copy of the Dallas (Texas) Semi-Weekly News, which has a number of items of interest to North Carolina people in its columns. The paper prints a photograph of Mrs. L. Killcrease, probably the oldest woman in the country, and the following facts are given in connection with the photograph:

"The picture is taken from a photograph of Mrs. L. Killcrease taken June 24, 1907. Mrs. Killcrease was born in Halifax county, North Carolina June 10, 1776, nearly a month before the Declaration of Independence. She came to Texas with relatives in 1886, and now lives at Pine Mills, Wood county, Texas. Mrs. Killcrease is said to be in good health, barring the natural feebleness attendant upon an extreme old age. North Carolina, where she was born and lived for more than 100 years, is famed for the longevity of its people. Centenarians are not uncommon there, the unsurpassed healthfulness of that region with its resinous mountain air, its pure water and equable temperature conducing to prolonged life."

**Original Character of Dickens Living.**

(National Magazine for August.)

When mention is made of the empire-builders of the Canadian West, the name of Lord Strathcona instantly comes to mind. As Donald Smith, he played an important part in the exploitation of the great undeveloped country. He equipped a regiment, the Strathcona Horse, in the South African war. He has done much toward stimulating the ties that bind the Imperial and Colonial governments.

Lord Strathcona was knighted because of his public work, and was raised to the peerage because of his philanthropy. This latter point in his character was well brought out by the celebrated English novelist, Dickens, in his representation of the Cheeryble Brothers mentioned in "Nicholas Nickleby." It is not generally known that Lord Strathcona was the original of this sketch.

Hundreds of people yearly go through painful operations needlessly, because they never tried Man Zan Pile Remedy. It is put up in such a form that it can be applied right where the trouble lies. It relieves the pain and inflammation. It is for any form of piles. Price 50c. E. T. Whitehead & Co.

**Music Typewriter.**

(Youth's Companion.)

Lourenz Kromar, of Vienna, has invented a "music typewriter." With the aid of this instrument the composer may produce a typewritten scroll without the trouble of making the characters by hand. All that he has to do is to place his himself at the piano and give free play to his creative fancies. Every stroke upon the keys is registered in regular musical characters upon a paper as a scroll would upon a drum. The machine operates through a system of electric contacts with the piano keys. The registering apparatus, which resembles an ordinary typewriter in size, may, in order to remove discordant sounds, be placed at a distance from the piano, even in an adjoining room.

**For Over Sixty Years**

Mrs. Winslow's Soothing Syrup has been used for sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for Mrs. Winslow's Soothing Syrup. Guaranteed under the Food and Drug Act, June 30th, 1906, Serial Number 1097.

Since Mr. Frohman started a bus service to convey playgoers between the suburbs and his theatres, people are calling him Mr. To-and-Frohman.—London Opinion.

**THE LIMIT OF LIFE.**

The most eminent medical scientists are unanimous in the conclusion that the generally accepted limitation of human life is many years below the attainment possible with the advanced knowledge of which the race is now possessed. The critical period, that determines its duration, seems to be between 50 and 60; the proper care of the body during this decade cannot be too strongly urged; carelessness then being fatal to longevity. Nature's best helper after 50 is Electric Bitters, the scientific tonic medicine that revitalizes every organ of the body. Guaranteed by E. T. Whitehead & Co., Druggists. 50c.

**Blaine and the Bore.**

(Saturday Evening Post.)

A notorious bore came to see James G. Blaine when he was secretary of state. Mr. Blaine was busy. Still, he was polite. He was extremely sorry his engagements made it impossible to talk to the visitor, but he would be glad to see him the next day.

"What time?" asked the bore.

Mr. Blaine made an elaborate consultation of his engagement book. "Come at 10 o'clock tomorrow morning," he said. "I shall be glad to see you then. You understand the hour, do you not? Ten o'clock precisely."

"I shall be here," said the bore.

"Mark you, cautioned Mr. Blaine, when I say 10 o'clock I mean 10 o'clock. You must be here on the exact minute. Promptly at ten then."

"All right," replied the bore. And he went away jubilant.

"Blaine," asked William E. Chandler, who was present, "why did you make such a precise appointment with that man? You don't want to see him."

"I know it," replied Blaine, "but I fixed the hour with exactness and impressed it on him so I shall know when to be out."

Oh! my stomach's a very uncertain thing. I suffered the torment that costiveness brings. But now I am happy, normal and free. A miracle wrought by Hollister's Rocky Mountain Tea. E. T. Whitehead & Co.

Mr. Justcott—Why, what are you crying about, dear?

Mrs. Justcott—Oh, George, the mice have got into the pantry and eaten up a beautiful custard I made myself.

**Milking Machines.**

(Prof. A. M. Soule in Southern Farm Magazine of Baltimore for August.)

We have tested a milking machine for some time at the experiment station, milking from 35 to 40 cows for a period of about six months. The cows took kindly to the machine and gave down their milk as a rule. There were one or two stubborn cases, however, due we presume to the peculiar individuality of the animals more than to anything else. The machine will undoubtedly draw all the milk out of the milk cistern, but whether it will furnish as much stimulation to the nerve cells as is necessary to the well-being of the cow cannot be stated definitely at this time. You realize, of course, that this is a very important matter. We believe there is little to choose between hand milking and machine milking. Our experience leads us to believe that a good competent man will milk and care for about as many cows in a given time as can be milked by the machine. The machines are also somewhat difficult to keep clean. We think that they will probably be improved in the near future, and that if one could not secure labor and had a competent man to take charge of the machine, he could use one advantageously, but we do not think they will prove more economical than hand milking where satisfactory laborers can be secured. In our opinion one of the chief drawbacks to the milking machines is the necessity of some form of power with which to operate it which makes the installation quite expensive, and we do not think the machine will give satisfactory results in the hands of indifferent labor.

Those who have stomach trouble, no matter how slight, should give every possible help to the digestive organs, so that the food may be digested with the least effort. This may be done by taking something that contains natural digestive properties—something like Kodol For Indigestion Dyspepsia. Kodol is a preparation of vegetable acids and contains the very same juices found in a healthy stomach. It digests what you eat. Sold by E. T. Whitehead & Co.

No appetite, loss of strength, nervousness, headache, constipation, bad breath, general debility, sour risings, and catarrh of the stomach are all due to indigestion. Kodol relieves indigestion. This new discovery represents the natural juices of digestion as they exist in a healthy stomach, combined with the greatest known tonics and reconstructive properties. Kodol for dyspepsia does not only relieve indigestion and dyspepsia, but this famous remedy helps all stomach troubles by cleansing, purifying, sweetening and strengthening the mucous membranes lining the stomach. Mr. S. S. Ball, of Ravenswood, W. Va., says: "I was troubled with sour stomach for twenty years. Kodol cured me and we are now using it in milk for baby."

**The Largest, Best-Equipped and Cleanest Flat Plug Tobacco Manufacturing Plant in the World**

The Reynolds factories, equipped with every modern appliance for producing the best chewing tobacco by a clean, sanitary and healthful process, under the direction of men who have made the business a life study, are located in the centre of the Piedmont tobacco belt, known to the world as the best productive soil for tobacco with an aroma so delightful, pleasing and appetizing that it created and popularized the fondness for chewing tobacco.

Only choice selections of this well-matured, thoroughly cured leaf are used in SCHNAPPS and others of the high-grade Reynolds brands, and expert tests prove that this tobacco requires and takes a smaller amount of sweetening than any other kind, and has a wholesome, stimulating and satisfying effect on chewers.

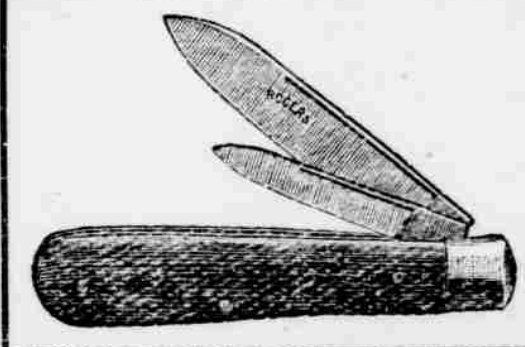

SCHNAPPS is the brand that made the Reynolds factories famous as the manufacturers of the best and most popular brands of chewing tobacco, and made necessary the enormous growth from a small factory in 1875 to the largest flat-plug factory in the world. The men who started the Reynolds Co., in 1875, are directing it to-day. There are a greater number of manufacturers making imitations claimed to be just as good as SCHNAPPS than any commodity manufactured; yet there are more pounds of SCHNAPPS chewed than the total amount of all imitative brands, or tobacco of similar appearance.
