

THE COMMONWEALTH.

E. HILLIARD, Editor

Published Every Thursday.

Entered at the postoffice at Scotland Neck, N. C., as Second-Class Matter.

Thursday, July 30, 1908.

Publisher's Announcement.

It is a settled policy in newspaper ethics that editors and publishers are not responsible for the views of correspondents, and the publication of a communication does not mean that the editor or publisher endorses the communication. The Commonwealth adheres to these general principles.

There seem to be good indications all around that business is looking up. The stringent times will soon be passed, let us hope; and this will be hastened by every man discharging his financial obligations as promptly as he can.

The farmers of this region have at last shown wisdom in planting a corn crop which promises to yield sufficient harvest for most of the home needs. Now let them take up the matter of producing wheat for their own home use, and they will have taken another good stride towards home independence.

The State sustained a great loss in the death of Mr. W. E. Crossland of Richmond county last week. He was said to operate the largest farm interest in the State, and had been an efficient member of the State Prison Board for a number of years. He was a most useful man and one whose personality impressed itself upon all who conversed with him.

PRESIDENT HILL.

Dr. D. H. Hill, Professor of English in the A. & M. College at Raleigh, has been elected president of that institution to succeed Dr. Geo. T. Winston, who resigned some weeks ago.

There is general satisfaction at the election of Dr. Hill. The vote by the board of trustees was unanimous for him. He is one of the best educators in the State.

FARMERS' STORAGE WAREHOUSE.

THE COMMONWEALTH has been glad to learn that the Farmers' Storage Warehouse Company in Scotland Neck will be in good condition for the storage of cotton and peanuts this fall.

The people of the town and community put their money together in a stock company in order to give farmers the benefit of the opportunity for holding their crops if prices should not be satisfactory, and it will doubtless prove a great advantage. Frequently a farmer has a lot of cotton or peanuts which he is unwilling to sell at the current price but not having shelter room for it all, and insurance on it being so unsatisfactory, he sells his produce even at his own protest.

The storage warehouse here will relieve the farmers of Scotland Neck and community from the necessity of selling crops which they would like to hold a while. In the storage warehouse these products can be kept securely from the weather and insurance will be light.

It would be a most excellent plan for every agricultural community in the State, especially in the regions which produce cotton, corn and tobacco, to have such warehouses.

In many places these warehouses have been built and many of them are a monument to Mr. C. C. Moore, of Charlotte, in his work throughout the State as president of the Southern Cotton Association.

A SPLENDID CODE.

People who live in the country can enjoy their "elbow room" pretty much as they please without much reference to others about them; but people who live in town can not be quite so independent. They must depend more upon each other.

The following paragraph by the Sanford Express is richly suggestive:

"If you have made up your mind to live in a town then stand up for it, and if you know positively no good, then silence is golden. Do all you can to help along every man who is

engaged in legitimate business. Do not send away for everything nice you want and still expect the home men to keep a stock to suit the whims of one or two customers. The success of your fellow-townsmen will be your success. No man liveth to himself and no man does business independently of his fellow business men. Take your home paper. Do not imagine the big dailies fill up all this space. There are many little crevices of good cheer, social sunshine, mentioned in the home paper that the big dailies do not print. Then do not abuse your neighbor. The difference in the number of his faults and your own is that you see through a magnifying glass as a critic. The ill omened, the croaker, can do a town more harm in a minute than two good citizens can repair in a month."

Convicts Escape.

(Cor. to The Commonwealth.)
Halifax, N. C., July 28, 1908.

Mr. J. S. Bowers, of Scotland Neck, spent a few hours here Sunday.

Mr. R. L. Deaton has returned from a visit to friends at Enfield.

Mr. and Mrs. E. W. Gilliam are spending some time with their mother, Mrs. Gilliam.

Miss Ruby Sater has returned from Manchester, Va., where she has been visiting the Misses Froelichs for some time.

Miss Margaret Froelich came down last Thursday, to visit the Misses Saters, and to see her father, Mr. F. Froelich.

Messrs. Norwood L. Simmons, of Washington, N. C.; J. H. Eley, of Tunis; G. L. Lamb, Jr., of Hobgood; and June Tillery, of Tillery; spent Sunday here.

Mr. Gordan Fields, of Washington, N. C., has accepted a position with the "Vinson Pharmacy," and entered upon his duties last Friday.

Hon. E. L. Travis has been very much indisposed for several days. He has had some fever, which has been quite obstinate in its refusal to leave him. However, he is much better now, and will soon be strong again.

Miss Frances Sater has had some fever for several days, but it has been conquered.

Mr. J. H. Fenner seems to be better for the past few days, and his people, nurse and physician, are hoping for the best.

Rev. Father O'Brien, of Raleigh, conducted services at the Catholic Mission here Sunday.

Rev. J. E. Holden preached a very fine, helpful sermon Sunday evening. He filled an appointment at Bethel, M. P. church, about a mile from town in the afternoon.

He went up to Ebenezer church Monday morning to help Rev. Mr. Perry in a week's meeting.

Rev. A. G. Wilcox will preach at Crowells next Sunday, exchanging pulpits with Rev. D. E. Vipperman, who will fill the pulpit at Halifax.

Let all the friends at Crowells bear this exchange in mind, and give their presence next Sunday.

Two white trustees escaped from Capt. C. J. Rhem's camp, at the North Carolina State farm last Monday, having decided to try another clime. They were pursued by guards and hounds for about 20 miles, one being caught within a few miles of this place.

Mr. Neville one of the guards chasing the fugitives, on his way home Thursday night, had a most unfortunate accident. His horse went over broadside into a deep ditch, and before he could get out of the way, the horse made a lunge to the embankment, placing his two hind hoofs on Mr. Neville's stomach, with about 1100 pounds of weight. As quickly as possible they got the suffering man to the camp, and Dr. Register after examining him, said no bones were broken, but he might be injured internally.

Wood's High-Grade Seeds.

Crimson Clover

The King of Soil Improvers, also makes splendid fall, winter and spring grazing, the earliest green feed, or a good hay crop.

CRIMSON CLOVER will increase the productivity of the land more than twenty times as much as the same amount spent in commercial fertilizers. Can be sown by itself or at the last working of corn, cotton or other cultivated crops.

Wood's Trade Mark Crimson Clover Seed is the best quality obtainable, of tested germination, and free from impurities and objectionable weed seeds.

Write for "Wood's Crop Special" giving prices and information about Crimson Clover and other Seasonable Seeds.

T. W. WOOD & SONS, Seedsmen, Richmond, Va.

FARMERS' INSTITUTE.

There Were Many Good and Valuable Suggestions Made.

THEY WERE ALL HIGHLY APPRECIATED.

According to appointment a farmers' institute was held in the graded school auditorium in Scotland Neck Tuesday, July 28th.

The State Agricultural Department was represented by Messrs. T. B. Parker and S. B. Shaw, of Raleigh, and T. E. Brown, of Hertford county.

Mr. Parker is permanently connected with the Department in demonstration work, Mr. Shaw is also permanently connected with the Department as Assistant Horticulturist, and Mr. Brown, a farmer of Hertford county, has been connected with the Department in institute work for three years.

A fairly good audience of farmers met in the institute, though not as large a number as could have desired.

SOIL IMPROVEMENT.

At 10:30 o'clock, Mr. T. B. Parker discussed "Soil Improvement."

It was shown that the soil is the home of all agricultural plants and a store-house for plant food. Land that is plowed three inches deep has a store-house for plant food of three inches depth; and land that is broken four inches deep is a store house for plant food four inches of depth. So the deeper the breaking of the land the larger the capacity of the store-house for plant food and moisture.

It was shown that when land has usually been broken three or four inches it is not best to increase the depth of breaking more than one inch each year. It was also shown that it is necessary thoroughly to prepare all lands by breaking well and pulverizing well by harrowing before planting corn, peanuts, cotton seed, or any other plant.

In soil improvement we need much humus, or decaying vegetable matter, which acts as a sponge for the absorption of moisture to make available the plant food in the soil. The best and most powerful humus is stable manure; but there is so little stable manure, compared to the immense surface of soil which is cultivated, it is impracticable to get stable manure enough to furnish all the humus needed. The cheapest way to get the humus into the soil is to grow legume crops, such as cow peas, clovers and vetches, which make the humus for the soil, and supply free nitrogen from the air.

Common clover will gather nitrogen from the air but it can not furnish phosphoric acid and potash. These must be added to the nitrogen that comes from the air.

Cow peas, clover and vetch are deep-rooted crops and the roots penetrate the earth, where they decay and so leave the earth punctured and make an increased store-house for plant food.

The green winter crops also greatly aid the soil by covering the land in winter and save great loss by leaching.

PEANUT GROWING.

Mr. T. E. Brown, of Hertford county, presented the subject of peanut growing. The peanut crop in the United States now amounts to 14,000,000 bushels, and North Carolina and Virginia produce about half the entire crop.

Several varieties of peanuts were mentioned but Mr. Brown confined his observations chiefly to the North Carolina Bunch, which are grown in Hertford county, and the Spanish peanuts which are grown mostly in Halifax county.

Stress was laid on the selection of seed peanuts, which may be done by digging them a little earlier than the general crop and picking them carefully by hand.

The preparation of the soil should be thorough, just as for any other crop. Peanuts should not be planted on the same land oftener than once in three years; and if the vines are left on the land or returned in manure peanuts will not injure land any more than other crops.

Flat cultivation is better in sandy land than ridge cultivation, and it is not best to be stingy with the seed peas. Harrowing and weeding will generally thin them out enough.

Care should be taken to dig peanuts at the proper time to save as much of the crop on the vines as possible. Ordinarily the time to dig is when the leaves begin to spread.

Care should be exercised in stacking peanuts so that the peas may be near the poles and the vines turn out to shed the water, and a wisp of grass should be well fastened at the top of the pole to keep the rain from trickling down the pole to the peas; and all peanuts should be put up in as high stacks as possible; for there are always damaged peas at

the top of the stack and the fewer the stacks the fewer damaged peas.

HORTICULTURE.

In the afternoon Mr. S. B. Shaw, assistant horticulturist at the State Agricultural Department, spoke of the importance of the farm garden and made many practical suggestions concerning the preparation of the soil and the cultivation of garden plants. Deep plowing is necessary and the free use of good manure is essential to a good crop. No other part of a farmer's possessions yields him equal profit with a well managed garden. The following fifteen garden plants, or vegetables, were named and the method of their cultivation discussed: Snap beans, butter beans, beets, collards, cabbage, carrots, cucumbers, lettuce, Irish potatoes, sweet potatoes, tomatoes, turnips, radishes, English peas and field peas.

Many good suggestions were given for the work in a home garden and the farmers were urged to have all these nice vegetables at home. The speaker said it is better for farmers to exchange cotton or other produce with the merchants for canned vegetables rather than do without them; but by far the best plan is to raise them all at home.

A further report will appear next week.

Sad Death at Halifax.

(Cor. to The Commonwealth.)
Halifax, N. C., July 28, '08.

Mrs. McMahon died here on Monday night about 3:30, very unexpectedly. She was the widow of the late Mr. Michael McMahon, who departed this life last February. It was presumed that her health was as good as usual, as there was early in the evening no indication that death was so near. While her condition for some time has not been favorable, owing to trouble of long standing, everything that loving hearts and hands could do to cheer, bless, comfort and alleviate her suffering, was done by affectionate sons, loving relations and loyal friends.

Mrs. McMahon has been for years an object of tender solicitude, receiving loving ministrations and consideration which is always due those who seem to care so much for our success and happiness. The love that her two sons, Ferrall and Joseph, bore her was beautiful. The sweet tie that existed between her and the young daughter, Miss Mary, whom she lost two or three years ago, is one of the pleasant things we remember so well.

She seemed unable to stand sudden shocks or misfortunes of any nature very well, and the deep waters through which she had to pass for some time left deep impress. She has received much comfort and strength and help from those around her, and was often buoyed up with both energy and hope as she recognized the love of those about her which prompted their various acts of kindness.

Mrs. McMahon was before her first marriage with Captain John Toumey, Miss Nannie Ferrall, daughter of Mr. Mike Ferrall. There was by this first union one daughter, Miss Urtic, who became the wife of Mr. S. M. Gary.

She married later Mr. Michael McMahon. There were by this marriage the following children: Ferrall M., Joseph H., and Mary Morris.

The deceased was an admired character, known far and wide for her Christian virtues, and for her ready willingness and helpfulness in time of any trouble.

She was a member of the Roman Catholic church, and lived up to its privileges and requirements, and was the instrument of much good, doing so many little acts of kindness to loved ones and friends that will be as lasting in memory as her life is lived in the life of those who survive her.

The remains were placed away in the family vault at 5 o'clock Wednesday afternoon. To all those affected by this death we would point them to One who is well able to console in their grief.

W. F. C.

Confederate Reunion at Winston-Salem.

The following announcement has been received relative to the Confederate reunion at Winston-Salem, to which we gladly give space:

"The citizens of Winston-Salem, with that splendid spirit of enterprise and generosity that has ever characterized them, are making elaborate and extensive preparations for the entertainment of the Confederate Veterans on August 19th and 20th, which is the time fixed for the State reunion of the 'Boys in Gray.'"

"It is the purpose of the various committees having the matter in hand to give the old heroes such an enjoyable time that they will carry with them to their homes the pleasantest recollections of their visit to the 'Queen City of the Piedmont.' The gates of the city will be thrown wide open to the 'Old Guard.' The locks will be taken from the doors, watch dogs will be muzzled. The

BUCKHORN LITHIA WATER

For Kidney and Bladder disease has no equal. We will furnish free of cost a case of any other water to prove that Buckhorn Lithia is the most active of all waters on the kidneys.

If it does not cure inflammation of the bladder, it costs you nothing.

For Sale by all Mineral Water Dealers.

Ask your dealer or write direct for special offer and booklet.

Buckhorn Lithia Water Co., Henderson, N. C.

GET RID OF URIC ACID

MORE LITHIA THAN IN ANY OTHER WATER

police department will be suspended. Homes will be thrown open, and the old fellows will be welcomed with open hands and glad hearts. Old comrades will welcome old comrades. Sons of veterans will be glad to grasp the hands of their father's friends. Kind ladies, daughters of the Confederacy, smiling maidens, all will do their part to contribute to the happiness and comfort of the veterans during their stay in the city.

"Winston-Salem does nothing in a public way on a small scale. The occasion of the State Reunion will be made a notable one in the history of the wide-awake city. Committees are at work arranging details of the interesting event. Comfortable sleeping quarters will be arranged. There will be plenty to eat and drink and there will be something going on all the time to amuse the veterans, and everything possible will be done to make them feel at home.

"Among the number of distinguished speakers for the occasion will be a nephew of Gen. R. E. Lee."

We keep on Hand Burial Cases!

All Kinds all the Time.

Also Complete Undertakers' Outfit.

Hearse Service any Time

Day or night we are ready to accommodate our friends and the Public Generally.
