to the Governor; so was Judge Manning's; so were the names of other Judge Manning's work as a member pointment. Governor Kitchin, of course, knew Judge Manning well, not only as a lawyer, but as a man and a Democrat. So far as we can hear, the lawyers of the State speak Manning's opinions as a Judge of our Supreme Court. We accept their judgement upon that point.

Appointed by a Democratic Governor, and having "made good" or the Supreme Court Bench, Judge My observation of cigarette Manning is entitled to the nomination dorsement of the Governor's appointee by nomination has, as we recall been refused a very few times-three times-by District Conventions, but never, as we recall, by a State Con-

the most important acts of his ad-

He is his opponent's equal in every respect-in learning, in ability, in ble and as well founded as his oppo-Judge Allen's name was presented nent's. He was called from an active practice to wear judicial honors while his opponent was enjoying helping the public, and without helping the Democratic party. We submit to thoughtful men that Judge Allen's honorable ambition to go on the Supreme Bench is not sufficient to justify the humiliation of Judge Manning, or the rebuke to the Governor, which Judge Manning's defeat would necessarily involve. Many men have the ability, the character, and the ambition to adorn the Supreme Bench, but heretofore they have not sought it under circumstances that now exist, so far as we can recall. We are not questioning the right of any one at any time to seek any honor at the hands of the people, but we ask just consideration of the whole situation before humiliating one eminent and worthy Democrat, whose friends are seeking for him an endorsement of his faithful and able judicial service, in order to honor another.

With your land when for the sake of saving a few dollars you use a fertilizer whose only recommendation is its analysis. It requires no special knowledge to mix materials to analyses. The value of a fertilizer lies in the materials used, so as not to over feed the plant at one time and starve at another. This is why Royster brands are so popular. Every ingredient has its particular work to do. Twenty-five years experience in making goods for Southern crops has enabled us to know what is required.

See that trade mark is on every bag
