proaching Indians and with a wild snort started out with a gait that soon left the horsemen far behind. When yelled at the top of his voice:

"Hurry up, boys; you'll get scalped.

The Largest Candle. The making of an ordinary domestic civilized world toward the man who wax or tallow candle is sufficiently wonderful to the lay mind to excite comment, but a candle has lately been lighted in Rome that is 11 feet 3

In various places of worship candle are used in their symbolic sen dles of vast proportions, but

in question is a giant of its clan. The first step in the making of this mammoth candle was to construct the wick, a wick that would burn clearly and cleanly, and need no snuffing.

Suspended by a derrick over a vat of beiling wax, the wick was dipped you are unable to write brilliantly cast, charming charuses of fifty well co fewer than 200 times, till the re- except when under the influence of trained, fresh, young voices, cosquired quantity of wax adhered to it. drink, it is a sure sign you were not tumes from a professional castumer, and between each dip the wax picked intended for a writer; change your picturesque Japanese stage settings

Many growing girls in school or business are frail-delicateanemic-lack energy and ambition and have thin blood. It is all unnatural and unless checked leads to serious and chronic ills.

Nourishment, not drugs, is the law of reason to build strength -but when appetite is poor and digestion weak, ordinary foods do not nourish-then SCOTT'S EMULSION is necessary.

SCOTT'S EMULSION overcomes just such conditions; its tissue material enters the blood without digestive effort and makes it rich. It tones the whole system and starts the healthy action of cells throughout the

Imitations are often offered, but to get results you must get SCOTT'S.

The Webb Bill. The encouraging news comes from Hearst, the publisher, was a young Washington that Representative business, even man and yet had his fortune to make, Webb, of this State, is confident that he and a few companions were on a his bill preventing the shipping of every man is waking prospecting tour. Uncle Sam's Moving Picture Shew.

Columbia, S. C., Dec. 6.—Complete details of the life story of the destructive cattle tick will be depicted in moving picture films at the Fifth National Corn Exposition here next month. Uncle Sam will conduct a moving picture show at the Exposition, as one of the numerous features of the elaborate government exhibit, and one entire reel will be devoted to a close, detailed study of the life and habits of this expensive pest, its rapacious methods of obtaining a living, and the most effective methods of eradicating it. The cattle tick film has recently

been completed, after two years of research in obtaining pictures. It has been given a preleminary tryout before Secretary Wilson and other officials of the department, but its first public appearance will be reserved for the Ffth National Corn Exposition, which opens Janu-"The Servant in The House," at any 27th. This reel is highly instructive, and will especially interest the cattle owners of the South, who are estimated to lose annually from \$50,000,000 to \$100,000,000 through the cattle tick alone. Magnified many times, the ticks in all stages of growth will crawl upon the screen before the audience.

This reel is supplementary to the ive feature of the department exhibit, at which will be actually demonstrated this most certain, effective and permanent method of eradi- comeback. cating the cattle tick.
