

Couldn't Walk!

"I used to be troubled with a weakness peculiar to women," writes Mrs. Anna Jones, of Kenny, Ill. "For nearly a year, I could not walk, without holding my sides. I tried several different doctors, but I grew worse. Finally, our druggist advised Cardui for my complaint. I was so thin, my weight was 115. Now, I weigh 163, and I am never sick. I ride horseback as good as ever. I am in fine health at 52 years."

A Roland For an Oliver.
Although no saying is in more common use than "Roland for an Oliver," yet few are acquainted with its origin. The expression signifies the giving of an equivalent. Roland and Oliver were two comrades who were famous knights in romance known in early French history for their valor. The wonderful achievements of the one can only be equaled by those of the other, and so we have the phrase, "Roland for an Oliver."

Gentlemen:—In traveling through North Carolina the past fall buying peanuts for Rodgers, McCabe & Co., I had occasion to see your Lilliston Peanut Picker in operation in several localities; in each case I found them doing superb work. I bought several large lots of peanuts from the various farmers, and in each case I paid $\frac{1}{8}$ to $\frac{1}{4}$ cent per pound more for the Lilliston picked peanuts than I did for peanuts picked by other machines working in the same crop. I take great pleasure in recommending the Lilliston Peanut Picker to all peanut growers, as I consider it the best on the market. Yours very truly, (Signed) FRANK T. PLUMMER. (Peanut Buyer.)

THE 1913

National Machine Corporation, Spur, Texas, April 5, 1913. Suffolk, Va.

Dear Sirs:—The Picker which I bought of you last fall did its work satisfactory to all. I picked 4,345 bushels, paid for my picker the first season, wasn't out a cent for repairs and consider I have a picker as good as new. My patrons got fourteen cents a bushel more for their peanuts than others got for peanuts threshed. I had applicants that wanted me to pick their crops fifty miles from home. That alone speaks enough for your picker, as nobody wants their peanuts threshed that have ever heard of the Lilliston Peanut Picker. Yours very truly, (Signed) EDD HULSE.

WHAT THE "LILLISTON" DOES.

The peanut vines are fed to the machine, passing through springs that are arranged over a wire netting. The springs break up the vines and the wire pulls off the nuts. The nuts drop on a conveyer belt and then carried through a suction system where the trash, pods and all dirt are separated. Picks Spanish or Virginia peanuts, leaves them perfect, no cracked nuts. The peanut vines make the best hay and bring a good price, are left in a convenient place to be baled. Prompt and safe shipments are made.

This season's supply is limited. We want to place one in your section. The man who delays never gets anything. Write for catalogue, prices and full information RIGHT NOW WHILE YOU THINK OF IT.
