This is a grown-up affair and those who have no intention of hustling have no business in

Perhaps one of the greatest assets possessed by a candidate in a big grand prize contest, such as The Commonwealth is conducting, is enthusiasm. The eager, jubilant person who is bubbling over with enthusiasm about his or her campaign is the person who soon has all their friends feeling the same way. They feel that they are going to win; there isn't the slightest doubt in their mind that the natural result is that every friend becomes a booster to some purpose.

And right now would seem to be the propitious time to apply every available ounce of energy. The contest is fast approaching the grand finish. How to Observe Thanksgiving.

When the world was younger and times were harder, people had bet ter appreciation of the good things that came to them. Progress, modern invention, and better enlightenment along certain lines have increased the number of bright days and shortened those of suffering, but good times in the old days were not taken so much as a matter of fact and people at certain times made it a practice to render thanks for the good things that came their Miss Jessie Parker...... 3,750 | way. Then it was no mere perfunctory observance. Thanksgiving was

a term that had real significance. The day is almost here which the almanac tells us is the time for observance of the annual proclamation calling for a day of thanksgiving. As is usual, certain games, certain annual hunting parties, and certain other plans for pleasure, not to omit the hapless turkey have been long looked forward to in keen anit. AN INCESSANT COUGH Continued Dropping of Mucus

into my Throat. A severe cough is always a grave symptom. It may not indicate organic disease of the lungs. Even though the cough is a functional disturbance it is of sufficient gravity to

demand prompt attention. The dropping of mucus from the back part of the nose into the throat indicates nasal catarrh. Sometimes this goes on a long time before the patient pays any attention to it. It is stated on good authority that mucus dropping into the throat in this way is apt to excite catarrh of the stomach. At any rate, the condition ought to be corrected as soon as pos-

Mrs. Bourland, of Frankston, Texas, found after using Peruna that not only did the incessant cough disappear, but the dropping of mucus into the throat had also ceased. Read what she says:

"For twenty-three years I was a constant sufferer from chronic catarrh. I had a severe misery and burning in the top of my head. There was almost a continual dropping of mucus into my throat, which caused frequent expectoration. My entire system gradually became involved, and my condition grew worse. I had an incessant cough and frequent attacks of bilious colie, from which it seemed I could not recover. My bowels also became affected, causing alarming attacks of hemorrhages.

"I tried many remedies, which gave all. I at last tried Peruna, and in three days I was relieved of the bowel derangement. After using five bottles I was entirely cured. "I most cheerfully recommend the

use of Peruna to any one similarly People who object to liquid medicines can now obtain Peruna Tablets.
