#### "SEPTEMBER MORN" HATS.

#### That's The Name of The New Season's Fear death?—to feel the fog in my Dominant Color.

The "September Morn" hat and dneys was findly induced to try the lango hat are here. At the first Summ-Root through a te-timonial of the early spring millinery open- The power of the night, the press of as in such a condition that I was ings yesterday both were displayed

The tango hat is not the tango of Where he stands, the Arch-Fear in went bot le and before it was last spring. It is a color. Tango ed I fell so much relief that I purthis was taken the old pains one particularly bright and popular left my back and I could sleep color is always the same for them all. It is a less loud shade of the Though a battle's to fight ere the wing to Dr Ki mer's Swamp-Root, burnt orange It is a half dozen on in the best of health and feel years ago. It is the coque de roche the a boy. I am always glad to or two seasons past and it is the I was ever a fighter, so-one fight r commend Swamp-Root to those flamingo and orange of other years. The tango color which dominates the new styles, be they hats, frocks or I spring dress accessories, is "in for a rage" according to the la est advices and specimens of wearables re- N ! Let me taste the whole world

BLUE IN TOTE IS BEST LIKED. "September Morn," too, is a color. Bear the brunt, in a minute pay It is the rich, brilliant blue that forms the background in the origi-Send the cents to Dr. Kilmer & nal "September Morn" painting and For sudden the worst turns the best Compary, Binghamton, N Y, for a is quite unlike any other shade of sample size bottle. It will convince blue that has been popular in the styles f r io! these many years. It And the elements rage, the fiend- our most highly respected colored Mrs. A. B. White, this week. t-lling about the kidneys and blad. is a rich blue, neither oark nor light, der. When writing, he sure and of a certain neutral blue, but of Shall change, shall become first a

The hats are nearly all of them smail. The turban is the favorite snape, with the lopsided turban lead- O thou soul of my soul! I shall ing all other models. The inclination of the spring hats, as exhibited yesterday, seemed to be to make the two sides of one's profile as widely uifferent as possible. The majority af the hats are very close-fitting in the head size. Some have bandeaux and all show a tendency to perch higher on the head, showing more hours' session of the state Demoof the hair at the back.

CLOSE-FITTING TURBANS ARE NEW. The favorite saube is a close fitting turban, low on the right side and rising away in aspiring points the left. Clouds of silk, net. Will be in Scotlant Neck, N. C., on lace, whole gardenfuls of flowers and bouffant bows of ribbon may be used separately or altogether to create the towering peaks. Ail are popular as trimming. There is a DR. O. F. SMITH great deal of jet being used in trim-

ming the new nats also. There are some odd but very becoming styles that have been evolved in tour-cornered hats. Another odd shape exempathed by an imported model on view yesterday is a boat snape, tommed with flowers. The hat is for all the world like an inverted canoe, the bow and stern to the front and back. It is of soft purple straw and banding it are small French flowers with a perky house bow at the back. Odd color combinations are smart, and there is a ceream aking for the combination of several shades, dull in themselves but clashing prettny when placed in juxtaposition.

the new shapes are not trying and will be more generally become ing than the hats of any recent eason, say those who have tried mem on and ought to know. An of the new shapes are to be had in the varying shades of tango and "September Morn."-Baitimore Sun.

#### \_\_\_\_\_ Was Frightened

#### A. C. L. Has 162 Miles Double Track.

Rocky Mount, March 11.-Following twelve months' of construction work on the final stretch in doubletracking the Atlantic Coast Line Railroad between Pleasant Hill, N. C., and Petersburg, Va., there was opened yesterday twenty-nine miles track, twelve of which hes between Pleasant Hill and Emporia and seventeen between Stony Creek and Petersburg. The total of twentynine miles completes the doubletracking of the Atlantic Coast Line between Richmond and Selma, a distance of 162 miles.

The new trackage will not at present be thrown into general use on account of the track settling and the freight trains of the company will be run over this new trackage for several months before the double track is given final service for all trains.

#### CATARRH OF THE THROAT Is Liable to Produce Catarahai Deafness

A Case of Catarrhal Deafness.

Mrs. Wm. Bowman, R. F. D. 1. Coor Rapids, Iowa, writes: "Some time ago I wrote you abou age. He was troubled with his ears. They were very sensitive to the touch. and he was quite deaf at times. He seemed to be worse after catching cold. I had taken him to doctors, but they did not seem to be able to relieve him, and I was very much afraid he would lose his hearing entirely. He was getting more deaf every day. "I wrote to you for advice, and you ment until a cure is effected.

to him, and can now say that he is entirely cured. He is now well and hearty and can hear perfectly." Catarrh Causes Many Diseases. Many diseases are caused by taking cold. A cold is very likely to settle in the nose, causing nasal catarri It may settle in the upper part of the

prescribed Peruna. I began giving it

throat, called the nasal pharyngeal space. In this space are two little tubes called eustachian tubes, that lead to the middle car. If the catarrh settles in the pharyn geal space it may follow the mucous membrane through the eustachian tubes into the middle ear. If it does it will cause noises in the ear, and later on be sure to cause deafness. Catarrh of the throat may follow

the eustachian tubes up into the mid-

dle ear without causing much concern

tial loss of hearing is apt to be overlooked. A person may lose half his hearing before he knows it. For instance, suppose a man can hear his waten four feet from the ear.

If he loses his hearing to the extent that he can only hear the tick of his watch two fect from the ear he may not suspect it at all. His hearing is good enough for ordinary purposes. He goes on without the slightest suspicion that he is losing his hearing. He may have ringing in the ear, or cracking and snapping sounds in the ear, or a feeling of pressure in the ear, but he is not aware that he is losing his hearing. Testing the Hearing.

It is a good thing to test your hearing with a watch. First hold the watch against your ear, then move It radually away from the ear and see can actually hear it tick. Try it on the other side and see if both ears my little boy, Clarence, five years of are alike. If you find that you are unable to hear the watch on both sides alike and at a distance of four feet from the ear, you may know that deafness has already begun. You should begin taking Peruna at once. Gargle the throat with cold, strong calt water, as directed in the "Ills of Life," sent free by Peruna Co., Columbus. Ohio. Persist in this treat-

The Best Way to Gargle. Sometimes catarrh of the nasal pharyngeal space will cause an accumulation of secretions in the throat. that completely fill the space. Unless these secretions are promptly removed by frequent gargling polypi polypl or adenoids, as they are sometimes called, will require a long time with the gargling to remove. Gargling according to the proper method will sometimes remove polypi or ade-

noids, and no surgical operation is In order to understand exactly what is meant by proper gargling send for a free copy of the "Ills of Life." During the whole course of gargling eruna must be taken according to directions on the bottle
