NUMBER 1.

CONGRESS SHOULD GIVE THEM PREFERENCE IN APPRO-PRIATIONS.

R. XALH.

### By Peter Radford.

This nation is now entering upon a era of marine development. The vieckage of European commerce has critted to our shores and the world or is making unprecedented dein ands for the products of farm and inclusy. In transportation facilities : clivies are inadequate, and our flag is seldom seen in foreign ports. If c or government would only divert the chergy we have displayed in conquerg the railroads to meetering the mimerce of the sea, a foreign bot-1 hways.

This article will be confined to a discussion of our ports for the prosucce of the farm must pass over our hards before reaching the water. We ve in this nation 51 ports, of which ! ale on the Atlantic and 10 are on the Pacific Coast. The Sixty-second Congress appropriated over \$51,666,for improving our Rivers and inchors and private enterprise levies "45 a man. So has she as much righ ; tell of approximately \$50,000.000 to view as a man; she has as much where and discharge her cargo . Doi consider mistoriume a quelifica Lee of any lee or charge.

out the unnecessary link in the chain. We are officied to woman at the ther actions in connecces which ballot bar it's same as we are on-

Why should women vote? That is the question that is ringing from ocean to ocean and reverberating from the Canadian boundary to the Mezican border. It is the mission of a newpaper to give the news and the action of the Texas Farmers' Union in opposing woman's suffrage when that question was recently before the Texas legislature is significant as "representing the attitude of the organized plowmen. We reproduce in part the argument presented by Hon. W. D. Lewis, president of the Texas and we lead the world but our port | Farmers' Union, in opposing the bill: "It is gratifying to note that it is not the termet's wife who is clamoring for the ballot. She is too busy trying to make happier homes, molding the minds of future citizens and sharing with her husband the cares an would be unknown on the ocean's of his to indulge in political gossip. The ballot will give her no relief from drudgery, give no assistance in clothing the children or bring to the home additional comforts, conveniences or opportunities in life. It is, as a rule, the city woman promoted to idleness

that the bankers are getting any better The political agitator must be el.mor that the milk of human kindnesss in inated from public life before thoughtbeing imbibed more freely by our finanful consideration can be given to a ciers. It indicates that the bankers are constructive program in government. getting wiser, becoming more able fin-The liquor question is the most prolific breeding ground for agitators and whether pro or anti, the hatch is equally as undesirable. This article is in no sense a discussion of the tiquor question but deals solely and by way of illustration with the political products of that issue. Other outjects will be dealt with in the order of their importance. In the history of our government the liquor issue has never 2 reach a constructive statesman worth mentioning and it never will. It has sent more freaks to Congress, Lilliputians to the Senate and incompetents to office than any other political issue under the sou. The recent experience of the Euglish Parliament which tashed the fr into a fury over the liquor question has a lesson that it is well for the farment of this match to observe; for the subject in some forte or other is constantly before the public for some tion and of that to the exclusion of more important problems to the Amerlean plowmen.

in contradice. No mitrement is co-"ily inden with results or will Id hope can be more easily and er. That defloten than raise political is actively secured.

By Pater Radford.

There is no escabling the marketwilless and the highest development perioditors will not be attained it it is solved, for a marketas necessary for the producer as land on which to grow his crop. Governmentel and educational instifilms have spant \$180,000,000 in the inited States during the past ten 20013 for improving soil production . Dd improving seeds and plants, but very little attention and less money has been given to the marketing side of agriculture,

The problem is a monumental one and one which will never be solved woman the home and man the busi-Intil it gets within the grasp of a rigantic organization where master minds can concentrate the combined islation enacted during the past deuperience and wisdom of the age you it. It is a problem which the love for the ridiculous, but to underin more, merchants, bankers, editors - take to unsex the human race by law ad statesmen must unite in solving. The Farmers' Union stands for all
