National Referendum Military Preparedness

The Proposal that Congress at the Present Session Shall Authorize a Test Vote on This Issue at the Polls Next November

(From Equity)

Fresident Wilson evidently h eventhet the majority opinion (to American people will now suthe proposal of a half-billion collar program of increase for ou may and navy establishment. Elhe would never have presented th recommendation to Congress which ne did in his address of December 7 Ti o Pr sident may be right in hi ricion about this matter and, unde or present system of government is his offical privilege to recomconduction by Congress committing , mation to such a program. But his is far from admitting that the operate Congress has any moral , obt to take such action.

It is over a year since the mem los of this Congress were elected od more than a year and a ball on the were nominated by their ceive party groups Still furthh ch in the past was the President in pai electorate.

PARTIES NOT ON RECORD ch the voters of the Unite

a question about which there is ad mitted to be a wide division of the people when there has been not ever a party resolution on the subject? Would not that be a palpable prejudging of the issue? Would it not be a deplorable and an immoral abuse of the principal of representative government?

Every fair minded American cit zen, whether he is for preparedness or against it, will agree that any such action by this Congress would an utterly unfair proceeding and hat it would throw discredit on onr political institutions; as at present put into operation, proving them to be unable to meet the existing situation fairly and squarely.

WHAT SHOULD CONGREST DO

What, then, can Congress do prop erly at this session? It can do one thing that will be entirely fair to both the friends and the foes of preparedness and which will at the same attait to his off cial post by the time save our representive system of government from a 'isastroufailure. That one thing is to pass a only formal and official method joint resolution authorizing and ar-

ranging for the submission of the the have for expressing their will main question at issue to the voters national questions to their chosen at the general election of November and statives in Concress, and 'c next. Let the question be fairly the beil executive, is through the stated so that voters can answer it, dessions formulated in the plat yes or no, in the usual way-in the arms of the national political par- way that all the states, but one, have in molemented by the declara- aways adopted constitutional amend ions of the opposing caudsdates ments and in which 18 states have The Passing Wilson after his now provided for enabling the voters reached to the fird to control legislation, when they so trees a downward revision of the desire. iff he was voicing the declaration A national referendum on prethe Democratic party platform. paredness! X-RAY MACHINE

Dr. O. F. Smith has installed in his office here an improved physican's electrical cabinet, which is a most interesting and valuable asset. The editor was shown the uses to which the cabinet can be put, and is absolutely sure the usual run of physical ailments which come under Dr. Smith's attention can now be cared for more quickly and satisfactory. The little cabinet stands about four feet high, is full of little machines which are propelled by electricity, and has an attachment for making X-Ray photographs
