Regular Army With Peace Strength Gently cleanse your liver and of 143,000.-Federalized Guard. Washington.-A growing tendency to provide for a Federal army reserve in addition to the regular army and federalized national guard was manibest in both the house and senate military committees. Members of both committees said they favored a practical test of the possibility of forming a federal volunteer army in peace times on lines somewhat similar to the continental army plan. The apparent intention to abandon the continental project wholly was one of the causes leading up to the resignation of Secretary Garrison.

The house committee agreed upon the general terms of a bill it expects to get before the house in ten days providing for a regular army with an authorized strength of 143,000 men; a Federalized National Guard which reach a fixed minimum strength of 424,000 in five years: adequate reserve systems for both of these forces; and organization of civilian training camps with wide discretion reposed in the war department as to the terms of enlistment, training and government.

#### Jump from Bed in Morning and **Drink Hot Water**

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy--cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

# Found Simple Remedy that Relieved Child

Mild Laxative Compound Corrects Stubborn Case of Constipation.

An important duty that devolves on parents is the regulation of their children's bowels. Health in later life depends in large measure on early training and a child should be taught from infancy to regular habits.

When from any cause the bowel becomes congested with stomach waste a mild laxative should be employed to open up the passage gently and carry off the congested mass. A most effective remedy for this purpose is the combination of simple laxative herbs known as Dr. Caldwell's Syrup Pepsin. Mrs. W. D. Bulls, of Reed, Okla., used Dr. Caldwell's Syrup Pepsin for her baby boy, Harley Buren Bulls, and says "It did him more good than anything we have given him. His bowels are very stubborn about acting, but they act easily every time I give him Dr. Caldwell's Syrup Pepsin."

Dr. Caldwell's Syrup Pepsin contains no opiate or narcotic drug and is a splendid remedy for children and older obtained by writing to Dr. W. B. Caldpeople as well. It has been on the well, 203 Washington St., Monticello, market for more than twenty-five Ill.

# CHILD'S BOWELS

It is cruel to force nauseating, harsh physic into a sick child.

Look back at your childhood days. Remember the "dose" mother insisted -castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomor-
