R. STATON CASE DISMISSED.
The case of the State vs R. Staton, charged with enticing labor from this State to Virginia was not prosed magistrates' court here Saturday.

The prosecution put on several witnesses but failed to establish guilt and asked for a nol pross which his honor the magistrate granted.

HAS ACCEPTED POSITION.
Mr. Irwin Clark left this morning for Norfolk where he has accepted a position as manager of the Cotton Exchange branch of the Western Union Telegraph Co. Mr. Clark is well known here and his friends here and elsewhere wish him success in his new position.

WILL LECTURE HERE.
Pastor A. M. Graham, representing the International Bible Students Association of America will lecture in the Palace Theatre here on Sunday June 18th, at 3 o'clock and again in the evening at 8 o'clock. Everyone is extended a cordial invitation to hear him.

BARACA CLASS ADDRESSED.
Sunday morning Rev. W. C. Burrell, pastor of the Baptist church of Williamston addressed the Baraca class at the Baptist Sunday School in their class room. Mr. Burrell spoke but a short time but his address was much enjoyed by all who were present and each one left feeling that the occasion had been one of uplift to them.

Following the Sunday School services Mr. Burrell preached to the Baptist congregation, he having been requested to do so by the pastor, Rev. R. A. McFarland.

THOMPSON ORPHANAGE GUILD.
The Thompson Orphanage Guild had a very pleasant meeting at the home of Mrs. Jim Hall Monday night, June 12th, at which the following program was rendered:

Piano solo: Miss Nannie Shields.
Vocal solo: Mrs. Bond.
Piano solo: Miss Reta Shields.
Reading: Mr. Cartwright.
Piano solo: Mrs. Bond.
Reading: Miss Laura Clark.

CHILDREN'S DAY CELEBRATED
Children's Day was celebrated Sunday evening in the Methodist church here and a large crowd enjoyed duets, choruses, and the like that the children rendered.

Back of the altar were evergreens on which the words "The Kings Children" were written in white cape jasmines.

Both the children and their instructors deserve much praise for the way in which the celebration was carried out each child performing exceptionally well.

TO PLAY WITH LUMBERTON.
Mr. Selva Whitehead left Monday morning for Lumberton with which town he will play ball for the summer season.

Mr. Whitehead is well known here and his many friends predict for him a brilliant future as a ball player. Lumberton is in the Cape Fear League.

ATTENDING BANKERS ASSOCIATION.
Mr. J. Harper Alexander, Jr., cashier of the Scotland Neck Bank left this morning for Asheville where he will attend the North Carolina Bankers Association that is in session there this week.

NEGRO DROWNED.
Sunday afternoon while swimming in the fish pond of Mr. W. H. Josey between Scotland Neck and Palmyra, Stewart Bowers a colored man was drowned.

Bowers it seems had been drinking a little too much fire water and becoming tired while in the centre of the pond called for help. Several negroes that were in the immediate vicinity went to his aid but being under the influence of liquor he fought so that no one was able to help him.

ENLARGING CEMETERY.
The Baptist Cemetery, that is situated about a mile from town is being enlarged, so that every family that wishes to purchase a square can do so. Practically all the desirable squares in the original part are taken and numbers of people are asking that they be granted a square in the addition.

The trees have been cut down and the stumps are being taken up as fast as possible and within a few weeks the grounds will have been laid off and the addition will have been taken into the regular cemetery.

STOMACH TROUBLES AND CONSTIPATION.
"I will cheerfully say that Chamberlain's Tablets are the most satisfactory remedy for stomach troubles and constipation that I have sold in thirty-four years' drug store service," writes S. H. Murphy, druggist, Wellsburg, N. Y. Obtainable everywhere.

OUTPUT OF SILICA EXCEEDS \$1,000,000.
The silica (quartz) sold in 1915 for pottery, tile, glazes, paints, wood-filler, wood-polish, abrasive soaps, fine filters, and other uses, as reported to the U. S. Geological Survey, amounted to 243,340 short tons, valued at \$1,270,825. This product was obtained from quartz veins, pegmatites, quartzites, sandstones, sand, tripoli, and diatomaceous earth in Arizona, California, Connecticut, Illinois, Maine, Maryland, Massachusetts, Michigan, Missouri, Nevada, New Hampshire, New York, North Carolina, Oregon, Pennsylvania, Tennessee, Virginia and Wisconsin.

TO THE PUBLIC.
"I have been using Chamberlain's Tablets for indigestion for the past six months, and it affords me pleasure to say I have never used a remedy that did me so much good."—Mrs. C. E. Riley, Illinois, N. Y. Chamberlain's Tablets are obtainable every where.

THE OUTPUT OF ABRASIVES.
Industry Represents a Production Valued at Over a Million and a Half Dollars.

The output of natural abrasive materials in 1915 was valued at \$1,662,055, according to figures given out by the United States Geological Survey. Millstones and related products valued at \$53,480 were produced in New York, Virginia, Pennsylvania, and North Carolina. Grindstones and like products valued at \$648,479 were produced in Ohio, Michigan, and West Virginia. Oilstones, hones, whetstones, synthetic stones, and rubbin stones valued at \$115,175 were produced in Arkansas, Indiana, Ohio, Kentucky, and Pennsylvania. Emery to the value of \$31,131 was produced in New York. Garnet amounting to 4,301 short tons and valued at 139,584 was produced in New York and New Hampshire. The diatomaceous earth and tripoli produced amounted to 35,294 short tons and were valued at \$611,021. Tripoli and rottenstone were produced in Illinois, Missouri, Georgia and Pennsylvania, and diatomaceous earth was produced in California, Connecticut, Maryland, Massachusetts, Nevada, New Hampshire, New York, Oregon, Virginia and Washington. Pumice to the amount of 27,708 short tons valued at \$63,185, was produced in California, Kansas and Nebraska.

FORETHOUGHT.
People are learning that a little forethought often saves them a big expense. Here is an instance: E. W. Archer, Caldwell, O., writes: "I do not believe that our family has been without Chamberlain's Colic, Cholera and Diarrhoea Remedy since we commenced keeping house years ago. When we go on an extended visit we take it with us." Obtainable everywhere.

THE EXPLORATION OF THE COLORADO.

The town of Green River, Wyoming, is one of the most interesting drainage systems in America. The river rises about 200 miles farther north and at the railroad crossing is a stream of considerable size, having an average flow of 2,200 cubic feet a second. About 540 miles farther south it joins Grand River to form the Colorado, which, after winding through more than a thousand miles of the most wonderful canyon scenery in the world, reaches the Gulf of California.

From the town of Green River Maj. J. W. Powell, afterwards Director of the United States Geological Survey, started May 24, 1869, with his little company of daring associates to explore the canyons of the Colorado. The story of the trip is well known, but from the simple, unimpassioned language in which Maj. Powell himself tells it, the reader might not realize that this was one of the most hazardous undertakings in the history of modern exploration. Few have cared to undertake the adventure since, and some of those have paid for their temerity with their lives. The journey has recently been successfully repeated however, by two photographers, Ellsworth and Emery Kolb, who on September 8, 1911, also started from Green River and, after numerous adventures, emerged from the canyons with a valuable collection of negatives and moving-picture films. (U. S. Geological Survey.)

BOWELL COMPLAINTS IN INDIA.
In a lecture at one of the Des Moines, Iowa, churches a missionary from India told of going into the interior of India, where he was taken sick, that he had a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy with him and believed that it saved his life. This remedy is used successfully in India both as a preventive and cure for cholera. You may know from this that it can be depended upon for the milder forms of bowel complaint that occur in this country. Obtainable everywhere.

FOREST NOTES
It is estimated that there is enough waste from the sawmills alone to produce twenty thousand tons of paper a day.

Oiled paper has been found to be an excellent material for packing tree seedlings, when shipped in crates. When crates are not used, paper-lined burlap makes a particularly satisfactory wrapper.

The value of livestock dying from disease on the National Forest range in 1915 was less than \$200,000. A majority of the cattlemen are now vaccinating their stock for black leg, one of the chief loss-causing cattle diseases of the West, and thus preventing the serious losses of the past.

Because of the heavy snowfall last winter, Forest rangers found it necessary this spring to remove two feet of snow from the Beaver Creek Nursery in Utah, so that the young trees might be uncovered by the time they were needed for spring planting on the National Forests of that region. Part of the snow was taken off by use of shovel and pick. By spreading a thin layer of fine soil over another part, the natural melting of the snow was hastened sufficiently to make shoveling unnecessary.

INCREASED COST OF TELEPHONE WIRE EFFECTS NATIONAL FORESTS.
Washington, June 13.—With bids for furnishing wire to the Forest Service recently advanced 45 per cent, and prices on other equipment considerably increased, material curtailment of the program for telephone line construction on the National Forests this summer is said to be in prospect. There are over 20,000 miles of telephone line on the National Forests and approximately 2,000 miles of new line was planned for the coming season.

A certain amount of wire is required also for upkeep, since the lines are peculiarly subject to breakage from falling trees and similar causes. Every spring the Forest rangers have to get the lines in order in preparation for the fire season and although, to lessen the effects of accident, the wires are mostly run on swinging insulators suspended from the trees, there are in the aggregate a large number of repairs to be made.

Notwithstanding the number of telephone lines already built, large areas are still without means of communication and consequently lacking in proper equipment for fire protection. Not only are the telephones used by the Forest officers, but they are a great convenience to the public. Very often, it is said they enable isolated settlements to have a means of communication which they could secure in no other way.

Puff your way into the joys of Prince Albert!

Go ahead, quick as you lay in a stock of the national joy smoke! Fire up a pipe or a makin's cigarette as though you never did know what tobacco bite and parch meant!

For Prince Albert is freed from bite and parch by a patented process controlled exclusively by us. You can smoke it without a comeback of any kind because P. A. is real tobacco delight.

PRINCE ALBERT

the national joy smoke

will do for you what it has done for thousands of men, not only in the States but all over the world! It will give you a correct idea of what a pipe smoke or a home-rolled cigarette should be.

Get this Prince Albert pipe-peace and makin's-peace message, you men who have "retired" from pipe and cigarette-makin's pleasure; you men who have never known its solace! Because you have a lot of smoke pleasure due you, quick as you pack-your-pipe or roll-a-cigarette with P. A. and make fire!

P. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

On the reverse side of this tidy roll you will read: "Process Patented July 30th, 1907," which has made three men smoke pipes where one smoked before!

J. W. Rawls of Craven county sold 1,600 barrels of Irish potatoes last Wednesday, receiving \$5,200 for them. J. L. McCotter of Grantham, Pamlico county, has sold 16,000 barrels of potatoes this season.

Lindsay Hinkle of Davidson county is reported to have been struck in the head by a hailstone last Tuesday, and knocked to the ground. He soon recovered.
