LOANS TO OUR ALLIES

With the recent loans of nearly \$16,000,000 to Greece and \$11,000,000 to Belgium the aggregate loans made by the United States to our allies now amounts to practically \$6,000,000,000.

ALIENS

There are enemy aliens and there are native aliens. The American who does not do his part towards winning the war, who neither fights nor works nor lends for victory is as much an alien to America's cause as the rankst Prussian interned in this country.

This is a war of peoples as well as of nations, and each individual has a place and a duty.

OUR EXPORTATION OF

Sixty four million dollars have been melted into bullions the United States treasury, most of which has been exported to India. Fifty eight million dollars of silver certificates have been withdrawn from circulation and destroyed as the silver on which they have secured was melted down. The Treasury still holds 426,000,000 silver dollars, against which \$390,000,000 in silver certificates are outstanding. New Federal reserve bank notes of the denominations of \$1 and \$2 are being issued to replace the silver certificates withdrawn.

REHABILITATION OF OUR WOUNDED.

Perhaps none of the various uses to which the proceeds of the Liberty Loan are to be devoted appeals more strongly to the American people than the rehabilitation and reeducation of our wounded men. To teach these men, to train and fit them for useful and gainful occupations, when

by reason of loss of sight or limbs or other injuries they are rendered unable to pursue ordinary vocations, is a work which every American has a heartfelt interest.

Compensation will be allowed them and family allowances will be paid their families as if they were in actual service while they are taking the training, and every method known to science will be used to restore our wounded men to health and usefulness.

This work has been delegated by Congress to the Federal Board for Vocational education. The board publishes at Washington a monthly bulletin, dealing with its work, called the Vocational Summary, which will be sent free to anyone upon request.

STOP, LOOK, AND LISTEN.

Stop! Recall how the brave Russian armies were defeated for lack of guns, munitions, and supplies. The German's laughed at the Russian government's failure to stand by its fighting men. Let them have no such mirth at our expense. Give our government the support of our people, our resources, and our money, so that it can arm, equip supply and maintain our fighting men at the very highest point of efficiency!

Look! at the war map and see what absolute devotion of a nation's resources to military purposes has accomplished by the enemy! Increase production and lend money to the United States, so that our support of our fighting force will equal if not surpass that of Germany! It is better to spend our money that way than in paying Germany's war bills.

Listen! to the call of duty and patriotism, and economize! Do your utmost in every way to win the war by increased production, by decreased consumption, and by lending to the government. Let nonessentials go; make sacrifices! How little and inconsequent they are compared with the great purpose they help attain! How well the worth making they will appear when our troops come home victorious—victorious by their own courage and ability, backed by the unselfish wholehearted support of their nation.

SO-CALLED NON ALCOHOLIC
Samples of the so called non-alcoholic drinks, such as hot tonic and the various fruit flavors, sold from barrels, have been sent to the state chemist for analysis, and his report shows that every kind contains alcohol and are forbidden under the state prohibition law.

This notice, therefore, is given as a warning to all who have stocks of these drinks on hand to get rid of them from their place of business as possession in a public place is evidence of purpose of sale and the merchant in whose place same is found will be liable to prosecution.

This does not apply to Bevo as the government has passed as non alcoholic and can be sold.

PRIVELEGE TAXES

The time for payment of the privilege payment has expired and all merchants and other liable for those taxes are doing so at their peril as the town ordinance states, "None shall commence doing business unless the privilege taxes are paid, and each shall be liable, under penalty, for not obtaining same."

No Wonder They Like It

Truck delivery by schedule is meeting with the approval of almost everyone of my customers. They tell me they like it better than the old bicycle way, because their groceries reach them in far better condition, all they need at a time and plenty often.

My new Stewart Truck has arrived and I can make your deliveries now without any inconvenience whatever, as it has a capacity of fifteen hundred pounds, has a canopy top and curtains all around. Regardless of rain, your packages will reach you on time and in splendid condition.

This effort on my part was made for the benefit of my many friends and customers and it is indeed gratifying to me to see that it meets so much with their approval and is appreciated by them.

LARGEST STOCK OF FANCY GROCERIES IN THE COUNTY.

Two deliveries every day, except Saturday, which day we make three deliveries.

NO ORDER TOO SMALL, NO ORDER TOO LARGE.

Goods delivered on time and in any quantity.
