At this season the hay fever victim ceases to be aesthetic. He can see no beauty whatever in goldenrod.

Bids for peace according to specifications are in order but we understand that the specifications do not call for a German peace.

Our young sailor objects to being called a "jackie". In his own parlance he refers to himself as a "gob". In our view any one considering himself a "gob" should welcome the name "jackie."

Nobody will weep for Deb's sentence. Ten years or thereabouts will give him time to think—something that he evidently has never done.

In order to conserve paper the government has limited the usual fall output of novels. We shall not object. Every one who reads the news from abroad realizes that nowadays truth is far more interesting than fiction.

Pity the man or the woman who cannot merge their very spirit into that of a good book. Though the cares of life be great and heavy or though they be small, and annoying association with our grasp upon the practical things of life by changing the thoughts into new channels thereby refreshing and renewing our zeal and stimulating the soul to renewed exertion.

FOOD PRICES IN EUROPE

Take a large cake of ice and hold it against the back of your neck. It will keep you from getting hot under the collar.

The following is a vindication of the government which allows food to be sold to the allies at lower prices than obtained here. Many people have got mad at the president and administration for permitting it, but they should really give the policy their hearty endorsement.

A weekly wage of forty shillings is thought good pay for a skilled

workman in England, where salaries are lower than here; it amounts to ten dollars a week. Offer it to a city sewer-digger in America and he will faint.

Yet British workmen for this absurd (to us) salary have been helping us in various ways. For a long time they have been building 150 aeroplanes a day against 35 or 40 combat planes shipped by us in a year. In other words British workmen starting any morning at 7 A. M. could have quit at 10 o'clock the same morning and rested for a year. They would have built 40 our first year's shipment; but they kept right on and supplied our army as well as theirs.

Most of the ships that carried our army to Europe were British. The British workman built and manned them—for a newsboy's income and we should not grudge him a slight reduction on pork and beans.

Health About Gone

Many thousands of women suffering from womanly trouble, have been benefited by the use of Cardui, the woman's tonic, according to letters we receive, similar to this one from Mrs. Z. V. Spell, of Hayne, N. C. "I could not stand on my feet, and just suffered terribly," she says. "As my suffering was so great, and he had tried other remedies, Dr. had us get Cardui. . . I began improving, and it cured me. I know, and my doctor knows, what Cardui did for me, for my nerves and health were about gone."

CARDUI

The Woman's Tonic

She writes further: "I am in splendid health . . . can do my work. I feel I owe it to Cardui, for I was in dreadful condition." If you are nervous, run-down and weak, or suffer from headache, backache, etc., every month, try Cardui. Thousands of women praise this medicine for the good it has done them, and many physicians who have used Cardui successfully with their women patients, for years, endorse this medicine. Think what it means to be in splendid health, like Mrs. Spell. Give Cardui a trial.
