**NATIONAL PROHIBITION**

The necessary number of states  
has given assent to ratification  
of the federal prohibition and sale  
of liquor are forbidden by law.  
Social drinking will become an  
abandoned custom and arranging  
the appropriate service of wines  
for a formal dinner will become  
one of the lost arts.

The United States is the first  
great nation to make the experiment  
of nation-wide prohibition. If it  
proves satisfactory here other  
nations will doubtless adopt it.

It was decided that the best  
form of embodying this great  
change would be in the form of  
an amendment to the Constitution.  
This will ensure the most vigorous  
enforcement of the law, and will  
enable the effect of it upon the  
nation to be speedily observed.

The fact that so many of the  
states have consented to ratification  
is significant of a great change  
in public opinion. A few years  
ago it would have been thought  
absolutely impossible that the  
United States should go "bone  
dry" within the lifetime of the  
present generation. Even among  
those who heartily approve of  
the principal of prohibition it  
would have seemed inconceivable  
that the nation should adopt it.  
Admitting that the use of alcohol  
was subject to great abuse,  
would the public "stand for" its  
withdrawal.

The fact that the nation entered  
into the war and that prohibition  
was strictly enforced in the  
army gave a great impetus to its  
advance. The practicality of nation-  
wide prohibition has been  
more and more confirmed in the

minds of people in general. The  
proof of this is the rapid response  
which the states have made in  
ratifying the amendment.

This legislation will undoubtedly  
banish altogether some existing  
evils and minimize others. It will  
undoubtedly be the plain duty of  
every citizen of the United States  
to conform to the law of both  
in the letter and the spirit.

**EVER SALIVATED BY  
CALOMEL? HORRIBLE!**

Calomel is quicksilver and acts like dynamite on your liver

Calomel loses you a day! You know  
what calomel is. It's mercury; quick-  
silver. Calomel is dangerous. It crashes  
into your bile like dynamite, cramping  
and sickening you. Calomel attacks  
the bones and should never be put  
into your system.

When you feel bilious, sluggish, constipated  
and all knocked out and believe  
you need a dose of dangerous calomel  
just remember that your druggist  
sells for 25c a large bottle of  
Doan's Liver Tonic, which is entirely  
vegetable and pleasant to take and is  
a perfect substitute for calomel. It is  
guaranteed to start your liver without  
stirring you up inside, and can not salivate.

Don't take calomel! It makes you  
sick the next day; it loses you a day's  
work. Doan's Liver Tonic straightens  
you right up and you feel great.  
Give it to the children because it is
