Found No Relief In 20 Years—Like Different Women Since Taking Tanlac

"I gained eight pounds on two bottles of Tanlac, which I think is wonderful for a woman who had been in such miserable condition as I was for twenty years," said Mrs. Pearl Sullivan, of 1319 N. Main Street, Houston, Tex.

"My appetite failed years ago," she continued, "and for the last five years I never ate a bite for breakfast. What little I ate at other times made me so miserable I could hardly stand it. Indigestion brought on gastritis and dizzy spells, my system was undermined by rheumatism and my back ached terribly. My nerves were worn out and I felt so tired and worn out that I had to give up doing my housework and more than once I fell to the floor when I tried to walk across the room."

"A number of my friends who had been taking Tanlac induced me to try it and it was a surprise when I began to pick up almost from the first. I just kept it up till now my relief is something wonderful. I can eat anything I want and never have any trouble. I have taken up my housework again and have even done a full day's washing and gone out visiting afterwards without feeling tired. My rheumatism is all gone and I really feel like a different woman."
