### Iron These Arguments We Real Our Case

**THORNHILL WAGONS**

Full Circle Iron Trussed Bolsters and Long Wear Beds.

On the front bolsters of Thornhill wagons are heavy iron plates running along top and bottom—connected by rivets that run clear through the bolster. Strength and lightness are combined. Rear gears are strongly ironed. There are braces on both top and bottom that extend the full length of the bolsters. Solid cross bars extend the full length of the axle giving them double strength.
