

INFLUENZA AND WEAK BLOOD

Run Down and Listless Condition May Make You a Target For the "Flu"

BECAUSE BLOOD IS PROBABLY THIN

At This Time of Danger, Take Pepto-Mangan—It Builds Rich, Red Blood

No matter how well you usually are, if temporarily you're run down, you're a target for the influenza.

Conagiton always gets listless people first. Whether they realize it or not, their blood is thin and undernourished—in no condition to fight off the germs it meets everywhere.

It is a wise precaution to take a good tonic at this time of danger—some well-known builder of red, vigorous blood, like Pepto-Mangan.

And if you did not think of this in time—if you are now recovering from a fight with influenza—your blood will need help for weeks after you think the danger is past.

Take no unnecessary chances. Get Pepto-Mangan and start taking it today. Pepto-Mangan is an effective blood builder that has had the endorsement of physicians for years.

Pepto-Mangan is sold by druggists in either liquid or tablet form, just as preferred. There is no difference in medicinal value. But be sure you get the genuine Pepto-Mangan. Ask for Gude's Pepto-Mangan and be sure the name is on the package.—Adv.
