Was Going Down Hill So Fast He Became Alarmed—Lost Forty Pounds In Six Weeks

"The best proof I can give that Tanlac was the right medicine for me is the way it has relieved my suffering and is building me up," said James H. Johnson, for ten years a switchman for the K. & I. Railroad, living at 1725 Crap St., Louisville, Ky. a few days ago.

"Yes, sir, I was in an awful fix with my stomach all out of order and my kidneys worrying me day and night. I had to be careful about what I ate and often I was so nauseated I couldn't retain a thing on my stomach. I would bloat all up with sour gas and I had the worst sort of gnawing pains in my stomach. My kidneys bothered me continually and what little sleep I did manage to get was so restless I hardly knew I had ever been to bed at all. I actually fell off forty pounds in six weeks time and was going down hill so fast it alarmed me. I tried everything anybody told me but I got worse instead of better and I was about ready to give up in despair.

"But one day I saw where a railroad man who was suffering like I was had tried Tanlac and was well pleased with it, so I began taking it and it gave me the finest kind of appetite. Then the indigestion left me and I started picking up in weight. And now in little more than a month's time I have already gained back fifteen pounds of my lost weight and I am still gaining right along. My kidneys don't bother me any more and I can sleep like a top all night long. I am feeling fine and the way Tanlac has built me up is nothing short of remarkable."
