## COMMISSIONER RECEIVES THIRD FLOGGING

(By Associated Press)  
Palatka, Fla., June 16.—S. R. Fields, of Bunnell, a member of the Board of Commissioners of Flagler County, has left the county as a result of his third flogging at the hands of unidentified persons in the last few months, according to Flagler County officers, who are here to run down a clue.

## ONE HUNDRED-THOUSAND EMIGRANTS FROM POLAND

Warsaw, June 13.—One hundred thousand emigrants left Poland for the United States and Canada during 1921, according to figures published here. During the same time 40,000 re-emigrants came into Poland, bringing with them money estimated at 900,000,000 marks, or about \$300,000.

A new airplane passenger service has been opened between Warsaw, Vienna, Prague and Budapest. The first direct air service between Berlin and Moscow, via Danzig, Mamel and Riga, will be inaugurated shortly.

The Polish American Chamber of Commerce declares that trade between Poland and the United States is increasing rapidly. In spite of low rates of exchange, Polish-American imports and exports in 1921 were nearly three times those of 1920. In the first two quarters of 1921, Poland imported 345,000 tons of American goods, against 124,000 tons in the same period of 1920. Exports for the first two quarters of 1921 were 776 tons, as compared to 210 in 1920. Poland's total export trade in 1921 also more than doubled, increasing from 620,000 tons in 1920 to 2,000,000 tons in 1921. In 1920 Polish exports were only 17 per cent of the imports; in 1921 they were 43 per cent.

The introduction of general compulsory education throughout Poland will be completed by the end of 1922, according to the program of the Ministry of Education. The new measure obliges every child of seven years to enter and attend school for seven years, and already is in operation, but shortage of teachers and school buildings makes its general application slow. Warsaw alone must find school premises for 40,000 extra children to put the law into full effect. Modern new school buildings are now being erected in this city.

## AIRPLANE GAS BOMBS USED TO FIGHT LOCUSTS

Red Soviet Republic of Azerbaijan, June 15.—Forty airplanes equipped with poisonous gas bombs will be used to fight the swarms of locusts which are descending upon the crops of this district. The insects came from Persia.

The bombs will be dropped into the swamps and other breeding places; upon exploding they will diffuse suffocating gases. The experiment will cost the Moscow government 9,000,000,000 Soviet rubles, or as a local humorist has said, one ruble for each locust.

## BLAIR-DOVER CONTROVERSY IN THE TREASURY COMES UP AGAIN

Washington, June 16.—The Blair-Dover controversy in the Treasury threatened to break out afresh today when it became known that a petition had been circulated among republican members of congress asking the President to uphold the policies of Dover.

The petition, it is learned, has received the signatures of about a hundred and fifty members. Plans are being made to present it to the President within the next forty-eight hours.

Washington, June 16.—Circulated with the petition of Congressmen was a document giving the names of almost a hundred and fifty office holders in the Treasury Internal Revenue Department who were declared to be Democrats holding key positions. Many of these, Republican House members circulating the petitions said, were disloyal to the present administration and through lack of cooperation, held up the work of the government.

## Good And Bad Advice To The Women Voters

Raleigh, June 14.—The Raleigh Times stops cussin' at organized labor long enough to project its proboscis into the women's attitude, or alleged attitude, towards the two candidates for solicitor in this (7th) judicial district. Some of the organized labor people feel kindly toward Mr. Evans and will probably vote for him. This seems to be enough to rally that more or less vacillating sheet to the Himsdale standard. So the Evening Kicker bares its chesty breast to the thunderstorms of June and essays to speak the minds of the women voters of Wake and Franklin as being against Evans, because he was opposed to the ratification of the woman suffrage amendment to the federal constitution—and had the temerity to say so. It goes further and complains that Evans even said so out loud, when everybody could hear him—a habit of his. Therefore, declares the Evening Kicker, the women are against them now, after the battle is all over and everybody has accepted the result in good faith.

Well, we can't believe there are many women so narrow-minded and so deficient in moral and political acumen as the Kicker advertises them. If the women who take an "interest" in political management and activities expect to measure up to their hopes and expectations, they will not try that sort of policy and tactics—which would never get them anywhere.

Now, women should know, and many of them do know—some of 'em are that smart—that reinforcement is a stronger word than resentments. That they can make greater headway along the road they have elected to travel if they welcome new friendships along the way, holding fast and true to those they have, of course; but keeping a good weather-eye constantly on the freaks and fanatics who have populated deserted ports since the political seas became navigable—here in North Carolina.

Take your Uncle Cam. Morris on ladies, for illustrative purposes, right here. Some of the freaks of your sex were screaming about him a couple of years ago. Yet, behold, when he came into office one of the first things the Governor did was to start personal inquiry to find a woman (nobody was leading him) who would properly fit into an important state office. And he

## SO. IRISH VOTE FOR MEMBERS OF PARLIAMENT

(By Associated Press)  
Dublin, June 16.—Voters of Southern Ireland went to the polls today to elect an Irish Parliament under the terms of the Anglo-Irish treaty.

## TOBACCO ASSOCIATIONS TO MEET AT RICHMOND

Richmond, Va., June 16.—Delegates from every tobacco producing section of the United States will meet here June 29th for the annual convention of the Tobacco Associations of the United States. Production, marketing and other problems will be the topics for discussion.

## WEATHER REPORT

For North Carolina: Generally fair tonight and Saturday. No change in temperature. Gentle to moderate easterly winds.

## Union Chiefs Will Support Members In Voting Strike

### GIRL ATTACKED BY NEGRO NEAR RICHMOND

(By Associated Press)  
Richmond, Va., June 16.—Search was continued here today for two negroes who, late yesterday, attempted to attack a ten year old white girl and her six year boy companion, in the woods on the outskirts of the city. The police say that they know the identity of the n...

### DOCTOR BLACK TALKED ABOUT THE DEVIL

PICTURED HIM AS GENTLEMANLY IN APPEARANCE IN HIS DISCOURSE AT THE BAPTIST CHURCH LAST NIGHT.

Dr. Black drew a mental picture of the devil last night at the Baptist Church that made his Satanic Majesty look considerably more like a gentleman than the pictures that one is used to seeing in the art drawings. He said that the original painting of the devil, which makes him appear as a horned, forked-tailed, hideous demon, was not made by a Bible student, as the Bible does not teach that he is any such animal. Quite to the contrary, the evangelist stated that his idea of the devil is a being who goes into the best circles, religious, social and otherwise, and one who always looks his best all the time and on all occasions.

Dr. Black is certainly making an impression on the people of this community, as is evidenced by the large congregations, which are growing each service.

All the seats were filled last night and about a hundred camp stools had to be brought in and placed in the aisles. Large numbers of out-of-town people were in attendance, from Halifax, Tillery, Hobgood and other nearby towns, as well as a good many people from the country.

The singing of the choir, led by Prof. Lyon, with Miss Bessie Futrell at the organ, was a very enjoyable part of the program. Mr. Lyon also sang a beautiful solo.

## AUSTRIAN GOVERNMENT TO DISTRIBUTE GRAIN

Vienna, June 1.—With the termination of governmental control of the production of bread and breadstuffs, effective on the last day of April, the government has created a grain distributing corporation.

This concern is to keep at all times 100,000 tons of cereals in stock. Of this 40 percent is to be in mills or warehouses, 30 percent in European ports and 30 percent afloat between the United States and Europe. Any profits from these operations go to the federal treasury and, on the other hand, deficits are to be met by the government. The grain exchange reopened May 1.

## TRIO MURDERERS ELECTROCUTED

(By Associated Press)  
Columbia, S. C., June 16.—S. J. Kirroy, Jesse Gappins and C. O. Fox were electrocuted at the penitentiary this morning for the murder of William Brasell, a Columbia taxi driver near Leeville last August. The trio went to their death singing and praying. Gappins and Fox made a final statement warning young men against bad company.

## THE AMERICAN RELIEF ADMINISTRATION TO INTRODUCE INOCULATION

London, June 16.—A sanitary spring offensive calling for the inoculation of 10,000,000 people against five communicable diseases, has been undertaken by the Medical Department of the American Relief Administration in Russia, says a cable reaching the London office.

Typhoid, para-typhoid (A and B), smallpox and cholera, which latter has now begun to appear in several regions, are the epidemics which the A. R. A. hopes to eradicate in this way.

The vaccines are now arriving in Russia and are being distributed to the districts and the assistance of the central government and the local health authorities has been enlisted in order to secure the cooperation of the people themselves.

The A. R. A. is also trying to revive such native sources as that of the laboratory at Roux which was known as "the second Pasteur Institute." This has been practically closed owing to lack of materials and food for the staff. Now, however, the A. R. A. officer in Samara has induced the government to guarantee water, fuel and forage for animals needed for experimental purposes. The A. R. A. is giving laboratory supplies and food packages for the personnel.

An educational campaign instituted by the government showing the dangers pictorially of the louse, the mosquito and the fly and the necessity for removing all rubbish and filth, has prepared the way. As many of people to be inoculated are receiving American rations, this prophylactic offensive is expected to be successful.

Already the A. R. A. physician in Samara, Dr. Foucar, has enlisted the aid of the refugee adults now being fed by the A. R. A., in removing trash and keeping public places clean. All children coming to the kitchens, are required to take baths in the public bathing house. At first they were reluctant to indulge in even a weekly wash but now they like it and come two and three times a week. While they are bathing, their clothes are sterilized.

Repairing sewage systems, improving housing conditions, installing chlorinators to purify the water supply in the towns are other means by which the A. R. A. hopes to make Russia safe from the sanitary standpoint. Funds for this campaign were provided by the American Red Cross which contributed \$3,000,000 in cash and \$600,000 in stocks. An additional \$4,000,000 worth of supplies from surplus army stocks contributed by the United States government, is yet to come.
