

BAD WEATHER HOLDS UP MOTION PICTURE

Bad weather held up the final shots of the great Vitagraph special "The Prodigal Judge," which will be shown at the Dixie Theatre tonight and tomorrow night. For an entire week the large cast reported each morning to make location trip on the Hudson River, only to be dismissed because the sky was so blackly overcast. The eighth day was clear, so the trip was made and some beautiful exterior scenes were taken. "The Prodigal Judge" is one of the best pictures ever produced. The atmosphere of the period of 1835 and the Judge are two of the highlights that stand out in bold relief. Every character, however, is handled in masterly style by an all star cast.

Don't miss the carnival July 4th. It's for the benefit of the Methodist Church.

WE'RE full of pep and we've got a good rep but at that we watch our step. Each plumbing job accomplished by this shop lives up to the character of the work which won us such an enviable place in the business of this community.

READ THIS FIRST Before Painting any New Building

If you think any old paint is good enough for the prime or first coat on a new building, then this interests you

WHEN the building was started, didn't you make sure that the foundation was as good as could be made?

It's just as important that the foundation coat of paint be as good as can be made. You can't start with a poor paint and end with a good painting job.

The only way to end right is to start right. Use Lowe Brothers High Standard Paint, thinned with pure raw linseed oil for the priming coat, and follow that with one or two more coats without thinning.

You'll be more than satisfied with the saving, as well as the good looks and long lastingness.
