Woods & Co., and the claim can be verified by enquiry and examination, that the Instruments of their manufacture produce QUALITIES OF TONE which are the Acarest approach that has ever been made to the tones of the pipe organ; that, in addition to this, they possess the most BEAUTIFUL QUALITIES' OF TONE

which are poculiar to themselves; and tha the arrangements and inventions which they alone make use, give to them' a capacity for producing the GREATEST VARIETY OF OR-CHESTRAL and INSTRUMENTAL EFFECTS and a range of expression which is TRULY

These advantages are due severally to the general plan of the construction of the Instruments; the great amount of came, skill and TANTE given to the TUNING and voicing of the ceds ; and, above all, to the merits of their COMBINATION SOLO

STOPS,— THE EOLINE. -A soft or

execusite tone which will never require tuning. The above Stops are in every case separate nd additional sets of vibrators and steel hars, and entirely distinct from the Tremolo which 8 distinct varieties, Monthly roses, whater flow accompanies them. The great variety of comintigns and variations of which they are ca-

pabl. impart to the instrument a WONDER-

FUL CAPACITY for the production of MUSICAL EFFECTS and they can all be brought AT WILL into the full origin, adding largely to its power and Brenness on Tong.

fustruments containing these Sono EFFECT can be obtained at very reasonable figures, and those intending to purchase will do well to consult them before purchasing elsewhere.
