Will North Carolina be Represented ?. The appointment of five distinguished gentlemen, by the Legislature of Virginia, as Commissioners to proceed to Washington City, on the 4th February, to meet such Commissioners as may be appointed by other States, and confer with them for the purpose of effecting, if possible, some satisfactory settlement of existing difficulties, is the best practical movement towards the attainment of that most desirable object, . which has yet been made. There has been speaking and manouvering enough already, the States that have not seceded, should do something to avert the calamity that overhangs the country. The Conventions which have been called in the Southern States, and which have acted, have, in no instance, made any attempt diate secession the primary business. FORTS AND VESSELS .- Another of the many examples of the inability of ships to compete with forts is mentioned by a New York journal Mr. Clark's substitute passed its 2d reading in | in some reminiscences of Fert Morgan, which has been lately occupied by the troops of Alapama. IMMENSE INFLUX OF SPECIE. The Asia brought out a million and a half of specie, making up about ten millions received from Europe since the panic set in. The consequence of this drain has been that the Bank of England has been obliged to raise its rate of discount to six per et.

and the Bank of France to five and a half. These rates are far from having reached the maximum.

Notwithstanding that the conclusion of peace with China has stopped the drain eastward, it will be more than counterbalanced in the spring by the commencement of hostilities against Austria and a general arming of the European governments. As regards its flow in this direction. there do not appear to be any probabilities of its proximate cessation. Altogether the position of the European governments and populations, is no more re-assuring than our own. CLOVE ANODYNE TOOTHACHE DROPS. - This simple and efficacious remedy acts instantly upon the nerve of the tooth, and immediate relief is given. It will not unpleasantly affect the breath, like Kreosote, injure the gums, or destroy the enamel of the teeth; the numerous oures it has accomplished are well attested, and it has only to become generally known to be as highly appreciated by the public, as it has long been by Dentists.

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Diseases of the Throat, Chest, and Lungs, however long standing and severe in character, are quickly cured by that long tried, efficient and faithful remedy-WISTAR'S BALSAM OF WILD CHERRY.

The universal opinion fully accords with that lately expressed by the "Saratogian," which says: "Wistar's Balsam has achieved many remarkable cures of Pulmonary disorders-its success being so great that taken in time it is deemed a specific." The thousands of Certificates in the hands of the propretors from those who from long suffering disease have been "redeemed, regenerated, disenthralled," and now by this remedy enjoy immunity from pain and suffering, are still better evidence

Still More Testimony. ANDOVER, N. H., Oct. 15, 1859.

Messrs. S. W. Fowle, & Co., Boston,-Gentle-men:-I have an earnest desire that all persons suffering from pulmonary complaints, should know the wonderful virtues of Dr. Wistar's Balsam of Wild Cherry, and make the following statement with the hope that some skeptical person may be induced to give him a trial : Six years since I was attacked with a violent cough, and resorted to physicians, first at home, and next abroad, of acknowledged skill and repu-

tation, and made use of many patent medicines, vithout the slightest benefit. The disease augmenting to such a degree as to lefy the skill of the physicians, and the hopes of nds, I was induced, as a last resort, to make a your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. But the effect was magical! My friends were again hopeful, and I was astonished at the rapid change. The acking cough, the severe pain in my side, and deuging night sweats, which had reduced me almost o a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the reme-
