

The Daily Herald. A. M. WADDELL, Editor and Proprietor. TOWN PRINTER. WILMINGTON, N. C., APRIL 18.

HEAD QUARTERS CAPE FEAR LIGHT ARTILLERY COMPANY. ORDER NO. 1.

Fort Johnson, N. C., April 17, 1861. Members of this Company are hereby ordered to report themselves and appear for drill every night (Saturday excepted) at 8 o'clock, at J. M. Stevens's office.

ORDER NO. 2. A mail bag will be left at the store of Hedrick & Ryan, for the reception of letters and papers for members of the Company; also, a deposit will be established there, for the purpose of depositing packages and parcels.

ORDER NO. 3. We shall be compelled by the absence of our foreman and several of our Compositors, who are on active duty at the Forts—to issue the Herald on a half-sheet, until a part of our force returns, or until we shut up the office, and leave.

ORDER NO. 4. All packages or communications for members of the Cape Fear Riflemen must be left with Mr. Wm. M. Poisson, at the office of Wm. B. Flanner & Co., near the corner of Market and Water streets.

ORDER NO. 5. We learn that E. D. Hall, Esq., has enrolled and equipped about fifty able-bodied men at his own expense, who are to be under his own command, and are intended for service at Federal Point.

ORDER NO. 6. The Surgeon of the Regiment at the Forts will be grateful to the ladies of Wilmington, if they will make bandages and lint for the use of the Regiment. The bandages should be from 2 1/2 to 3 inches wide and 6 yards long.

ORDER NO. 7. We learn that Joseph Price, Esq., of Wilmington, N. C., 1st Lieutenant in the Reserve Artillery of the United States, has tendered his resignation to President Lincoln.

ORDER NO. 8. A dispatch received here last night from Columbus, Mississippi, states that Mr. Thos. W. Brown an active business man of that place, was robbed and murdered on the night of the 16th inst. No particulars have been furnished.

ORDER NO. 9. Mr. Brown was a native of Bladen County, but had lived many years in Mississippi. He has many near relatives in this section of North Carolina.

ORDER NO. 10. It is highly gratifying to observe the alacrity with which our friends in the interior of the State have responded to the news that more men were needed on our coast. We have heard of several tens of aid, and we learn that two Companies from Charlotte, and two or three from Warren, are expected to-night or tomorrow.

ORDER NO. 11. As the intelligence spreads through the State, we will have offers of assistance from hundreds of gallant fellows. Come along boys. We will try to feed you.

ORDER NO. 12. We see by the Charleston papers that Duncan K. McRae, Esq., of this State was serendipitously made a speech in that city on Tuesday evening last. Mr. McRae went to Charleston to borrow guns and ammunition for Fort Macon, and succeeded.

ORDER NO. 13. We learn that six pieces and twenty thousand pounds of powder were also secured for Fort George, which together with the present armament and stock of ammunition on hand, will enable our brave boys to resist successfully any attack on the fort.

ORDER NO. 14. RESPECT TO THE BRAVE.—We are informed, says the Charleston Mercury, that when Major Anderson and his command passed out of the harbor on their way to join the fleet of the United States, the Marion Artillery, a company which, according to high military authority, contributed very materially to the reduction of Fort Sumter, in testimony of their appreciation of his gallant defence, formed on the beach and stood with uncovered heads until the Island had passed their position.

ORDER NO. 15. NOBODY KILLED AT CHARLESTON.—A great deal of surprise has been manifested at the fact that no one was killed or otherwise died during thirty hours' bombardment of Fort Sumter, and the surprise is all the greater because it is alleged that the firing from all the batteries was continuous from the beginning to the end of the conflict. The guns on Fort Sumter were splendidly fought by Anderson's men, and yet it does not appear that any of the Confederate troops were killed or even wounded.

ORDER NO. 16. RESPECT TO THE BRAVE.—This can only be accounted for by the superior skill and science with which the batteries were constructed by the accomplished officers of engineers who erected them. The defence at Fort Moultrie, Sumner, Fort Morris Island, and the Iron Battery, were conducted with the intention that the artillerists should not be killed at their guns, and it appears that they accomplished their purpose. The experience acquired in modern warfare, especially in the Crimea, has rendered the effective working of batteries comparatively safe, by the substitution of earthworks, sand bags, and iron plates for the stocks and other defences formerly adopted. It is therefore to be seen that we must attribute the bloodless character of this terrific bombardment, and not to want of skill in the art of the artillerists.

ORDER NO. 17. DEFENCES ROUND CHARLESTON HARBOUR.—Only shows what protection such class of batteries could afford in case of an invasion by a foreign power, so that, if no other good has come of the assault on Fort Sumter, it has at least given us a practical lesson in the efficiency of coast defences.

ORDER NO. 18. THE FACT THAT NO LIFE WAS LOST IN thirty hours' firing at Charleston, however, need hardly excite much astonishment when we remember the results of the battle of New Orleans, when, notwithstanding the terrible slaughter of the British troops, who were exposed to the fire of Jackson's men, enclosed behind their works, a large number of whites would be compelled to fight on the American side, although they were opposed by the skilled troops who had distinguished themselves in the Crimea.

ORDER NO. 19. KNIGHTS OF THE GOLDEN CIRCLE IN BOSTON.—The Boston Herald says it is undoubtedly true that a secret order exists, the organization of which was started a few weeks ago and called the "Knights of the Golden Circle," for the purpose of aiding the South with men and munitions of war.

ORDER NO. 20. SOME MIGHTY MEN HAVE ALREADY BEEN recruited secretly from New York, for the leaders of the dark-lantern Lodge. It has leaked out that about a hundred young men (many of them formerly belonging to the volunteer military companies) have been recruited in New York, and are now on their way to the South.

ORDER NO. 21. THE DESTINATION IS SAID TO BE THE recruiting station of the Southern Army at Augusta, Ga. The order known as the "Knights of the Golden Circle," which was started down South a year or more ago, has its branches now in operation probably in almost every prominent city on the seaboard at the North.

Latest from Charleston.

CHARLESTON, April 15.—There is a strong suspicion that the United States squadron intended to make demonstration at Charleston, and to demand the surrender of the forts, military preparations have been made to this end.

They were waiting the return of one of the vessels which had been dispatched North for instructions.

Diocese Lynch, Roman Catholic, yesterday celebrated the bloodless victory of Fort Sumter with Te Deum and congratulatory address.

In all the churches allusions were made to the subject. The Episcopal bishop (Davis) wholly blind and feeble, said it was a strong persuasion, strengthened by travel through every section of the State, that the movement in which the people were engaged was begun by them in the deepest conviction of duty to God.

The Charleston Bank voted today to take two hundred thousand shares of the Confederate States Bank. President Davis for the present will not be to issue letters of marque, as was supposed, and seize northern ships.

NEW ORLEANS, April 15th.—Mr Lincoln's proclamation was received here this morning, and increased, if possible, the military ardor and excitement; otherwise there was no surprise.

The Louisiana Guard and Crescent Rifles departed for Pensacola this evening. The streets were crowded with citizens and the balconies with ladies, who cheered the marching column.

The Southern line being down, there is no news today from Pensacola. A bloodless fight is reported from the morning. A rumor that hostilities had commenced. The forces being concentrated at Pensacola will reach about ten thousand men.

NEW ORLEANS, April 16.—President Lincoln's proclamation was received here this morning, and increased, if possible, the military ardor and excitement; otherwise there was no surprise.

Telegraphic News.

From Virginia. WASHINGTON, April 17th. At Richmond, five o'clock in the afternoon, the ordinance of secession had not passed. The Convention was still in secret session.

From Washington. WASHINGTON, April 18th. It is the general impression from concomitant circumstances that the Virginia Convention will pass the ordinance of secession.

The Intelligence says that the telegraph yesterday was conveying messages between the Governors of South Carolina and Virginia, and in consequence, we are deprived of the use of the wires between Washington and Richmond.

The Northern papers and despatches are filled with war-like preparations.

Washington City will in a few hours be fully defensible against any attack.

New York Market. New York, April 18. Cotton, Upland Middling 12 1/2; Flour 6d. lower; Wheat, is lower; Corn, declining tendency; Turpentine, firm at 38. Rosin firm at 1.35. Rice firm.

Improvement in Ships.—Mr. Charles Langley, shipbuilder, working on the wharves of Charles Wye Williams, has produced the model of a ship, which you may see on fire, dash against rocks, stern in, and set on pieces, but which, it is asserted, you cannot sink.

Disturbing the Bones of the Royal Dead.—In excavating for the temporary grave of the Duchess of Kent, a small opening was made in the wall of the tomb, containing the coffin of Henry VIII., and one of his queens, Lady Jane Seymour—also the coffin of Charles I., and an infant child of Queen Anne. The coffins, and even the crissoms for the preservation, and the spear hole in the coffin of Henry VIII., said to have been made by one of the soldiers of Oliver Cromwell, was clearly discernible.

Special Dispatch to the Baltimore Sun.—Cannons and Powder Sent to the Governor of North Carolina. CHARLESTON, April 16.—The fleet has disappeared from off this port. It is supposed that the fleet has sailed for the coast of North Carolina.

Disturbing the Bones of the Royal Dead.—In excavating for the temporary grave of the Duchess of Kent, a small opening was made in the wall of the tomb, containing the coffin of Henry VIII., and one of his queens, Lady Jane Seymour—also the coffin of Charles I., and an infant child of Queen Anne.

CHAMPION SAFE BURNED UP IN TWO HOURS! READ! READ!

LEAVING THE STATE.—Well grounded apprehensions exist, that in default of some decisive movement by the State Government in defence of the South, large numbers of the most respectable and influential citizens of the Old Dominion will pack up and move off with their effects to some more congenial latitude.

EDGEMOND, SHELDON & OSBORN. The undersigned were present when the safe was burnt, and saw the fire burn up the safe, and saw the fire burn up the safe, and saw the fire burn up the safe.

OSBORN, WIS. MAY 20, 1859. GENTLEMEN: In answer to your inquiry in regard to the preservation of my books, papers, watches and jewelry, contained in one of S. C. Herring's Patent Champion Safes, at the time of the great fire in this city, the 14th inst., I would say that although the safe was removed to the sidewalk, six feet from the front of my store, the contents were almost wholly destroyed.

By the foregoing letters and statements, all of which are well authenticated, it will be noticed, 1st. That Herring's Patent Safes have burnt up, and destroyed, the contents of the safe, and that the safe was removed to the sidewalk, six feet from the front of my store, the contents were almost wholly destroyed.

By the foregoing letters and statements, all of which are well authenticated, it will be noticed, 1st. That Herring's Patent Safes have burnt up, and destroyed, the contents of the safe, and that the safe was removed to the sidewalk, six feet from the front of my store, the contents were almost wholly destroyed.

By the foregoing letters and statements, all of which are well authenticated, it will be noticed, 1st. That Herring's Patent Safes have burnt up, and destroyed, the contents of the safe, and that the safe was removed to the sidewalk, six feet from the front of my store, the contents were almost wholly destroyed.

ALMANACS FOR 1861. TURNER'S North Carolina Almanac, at KELLEY'S BOOK STORE.

TO ARRIVE. 500 BBL'S FLOUR, for sale by STOKLEY & OLDMAN.

FAMILY, Super and Family Flour, for sale by Wilmington inspection, in store, and for sale by ZENO H. GREEN.

A QUESTION FOR MATHEMATICIANS AND ECONOMISTS. Turners, in 8 nights, at a cost of \$5 per hour, and cost of an hour is consumed by each burner, at what cost, and what would be the cost of an hour of light obtained from Kerosene Oil? Answer: There is consumed by each burner, 25 feet per night, or 6 feet per hour, at a cost of 6 cents per hour, or 60 cents per month, or a cost of one cent per hour per lamp; therefore, by burning gas, the expense is only six hundredths of a cent greater than that of the RENDEZVOUS of the Inimitable.

IT IS A HISTORICAL FACT that South Carolina has secured 41. This would not have been the case, if some of her citizens had not bought.

KEROSENE OIL AND LAMPS, as well as a great variety of Fancy Goods, suitable for the Holidays—Candy, Toys, &c., at the patriotic CASSIDY.

JUTE ROPE AND TWINE.—25 coils best Jute Rope, for sale by ZENO H. GREEN.
