A negro person, said to be a chaplain of a negro regiment, made one of the most violent and inflammatory speeches ever listened to, in an upstairs room on Dock street, just below the Seaman's Home last night.

This negro devoted himself more particularly to the white men, the government at large, and everything affecting both the religion and social right of the whites.

The schooner Harold bound from this port to the West Indies, and loaded with lumber, took fire yesterday while lying at Smithville, and burned to the water's edge.

A PRETTY PLACE.—Whitaker has unquestionably the nicest place that we know of at present. It may be stated, without fear of contradiction, that he has the only book-store in town.

IN LIMBO.—Two negroes, one of whom had only been out of the jail for a few days, were marched up Market street from the direction of Water street and thence to the guard house by the police yesterday.

There was no need of asking the cause of their arrest, because they had been stealing, the countenance of either testifying to the fact on first sight.

Our New York Correspondence. NEW YORK, Oct. 25, 1865.

The weather in this city at present is most delicious. The skies are bluer than those of Italy; the sunshine pure gold, and the air cool, fresh and invigorating.

I remember once travelling through Canada with a large party of Gohamites, and being without civilization and oysters for three weeks in the fall of the year.

If you desire to mingle a little politics with your oysters, which are very fine this year, I have a nice little item for you.

Mr. T. M. Parsons: The public opinion in Italy, such as it may be represented by the former ministers of the government, B. Ricassoli and Minghetti, by the present premier, Gen. A. La Marmora, a number of senators, by 161 representatives, and by the most distinguished men and associations of that country, is in favor of supporting the humane idea of our great statesman, Cesare Beccaria, i. e., to have capital punishment abolished.

In this enterprise toward progress and christian civilization, the Italians have already gained the approbation and support of the greatest and most liberal minded men in Europe, such as Victor Hugo, Louis Blanc, Michelet, Jules Favre, Holtendorff, Mittermeyer, R. Colden, John Bright, and the like.

Thurlow Weed, who recently purchased an interest in the Times, has been amusing the town by a very egotistical letter, claiming that he has been manufacturing public men and controlling the administration of the state government for forty years.

Henry A. Wise has claimed his property in Virginia, but, as he refuses to take an oath of allegiance, it will not be given up to him.

President Johnson says that every dollar of the rebel debt should be repudiated.

The freedmen's bureau is restoring large amounts of property in Mississippi to its owners. The receipts of internal revenue on Thursday were \$250,000.

FROM WASHINGTON. No further Proceedings against those who fled from the Draft.

Completion of General Grant's Report of the closing Campaign of the Rebellion.

WASHINGTON, Oct. 24, 1865. GENERAL GRANT'S REPORT OF MILITARY OPERATIONS 1864-65.

General Grant's official report embracing the war, its operations of 1864-65 is just completed. The report is sent to the secretary of war, and will be sent to the president of much longer than any other report of the war, and unquestionably abounds with brief and concise bearing upon many disputed subjects, necessarily to be deferred in all probability, after the meeting of congress.

INTERESTING TO DESERTERS FROM THE DRAFT. An order has been promulgated from the war department, releasing all persons held as deserters for non-compliance with the terms of the several drafts, and promising that no further prosecutions will be made for evasions of the conscription law and its amendments.

Reports are in circulation that the findings of the military commission in Wirz's case have been submitted to the President for approval, and that the culprit will certainly be hanged on next Friday. They are by no means improbable, although not certain.

Petition from Italy in behalf of Jefferson Davis. From Washington we are informed that on Saturday afternoon an Italian committee, composed of Prof. Achille Magni, Mr. Henry Tarbella, who lately distinguished himself as general in the union army, and Mr. Theodore Manera, who fought for the independence of Italy, all residents of New York, gained an introduction to President Johnson, in order to present to His Excellency the following petition, sent to Prof. Achille Magni, by the committee in Milan.

Mr. Parsons: The public opinion in Italy, such as it may be represented by the former ministers of the government, B. Ricassoli and Minghetti, by the present premier, Gen. A.
