SACRED CONCERT .- At the request of the ves-Irv of that parish the choir of St. John's Church have consented to give a sacred concert on Wednesday evening next at the City Hall. The programme of this concert appears in our advertising columns this morning. We are advised that the proceeds of the entertainment will be appropriated to the general uses of the parish. The choir of St. Johns has for a long time been noted for its excellence. Its members have changed somewhat recently, but we believe that nearly all the old members, and some other amateurs of conceded talent, will assist at this concert. The nature of the programme and the known ability of the singers are guarantees of an entertainment of the very highest order. We advise those of our friends who desire a rare treat to make early application to the committee for their tickets.

INDIAN AFFAIRS.

The number of Indians residing within the jurisdiction of the United States does not probably exceed 350,000, a large majority of whom maintained during the past year peaceful relations. Some of them have made gratifying progress in civilization and manifested, during the late war, a steadfast loyalty to our flag worthy of emphatic commendation. Civilized and powerful tribes, however, residing within the Indian territory, united early in the year 1861 with the Indians of the prairies immediately west and north, for hostile operations against the United States. In flagrant violation of treaties which had been observed by us with scrupulous good faith, and in the absence of any just ground of complaint, these confederated Indians entered into an alliance with the rebel authorities and raised regiments in support of their cause. Their organized troops fought side by side with rebel soldiers, and detached bands made frequent assaults on the neighboring white settlements, which were without adequate means of defence, and on the Indians who maintained friendly relations with this government. This state of things continued until the surrender of the rebel forces west of the Mississippi. Hostilities were then suspended, and, at the request of the Indians, commissioners were sent to negotiate a treaty of peace. In the United States senate yesterday the house resolution for the appointment of a special com-mittee on the subject of the late rebellious states was received, and Mr. Johnson, of Maryland, objecting to its consideration it lies over under the rules of the senate. Mr. Cowan, of Pennsylvania, presented the credentials of Provisional Governor Sharkey and James L. Mr. Foot, of Vermont, submitted series of resolutions passed by that state in favor of equal rights in the late insurrectionary states." Mr. Doolittle, of Wisconsin, i stroduced a very important bill in relation to the qualification of jurors, providing that in trials for treason or high misdemeanors committed against the United States by organized military force no juror shall be incompetent on account of having formed or expressed an opinion as to the guilt or innocence of the accused based upon public rumor, statements in public journals, or the common history of the times, provided that he will impartially try the accused. This act evidently looks to the trial of Jeff. Davis and other traitors by civil law. Mr. Morrill, of Maine, submitted a bill repealing all laws in force in the District of Columbia and the territories which make any distinction between persons on account of color. A bill to compensate the owner of a house in Fairfax. county, Virginia, for injury done his house by the United States authorities was ordered to be printed. It is supposed that the robbers recently infesting the great cavern under our city have found their way to the main outlet, in Logan county, Kentucky.
