THE FARM.

SEASONABLE HINTS.—Pigs.—It is much better to kill early than late. As soon as cold weather comes on, pigs can very little, if any, and often lose during cold storms. Therefore, grow them not fat enough to kill.—*Ex.*

HAULING OUT MANURE.—Manure in good condition should be hauled to the fields. It saves time and labor in the spring season when the soil is wet and wet. Another advantage is that the rains wash it into the soil where it is needed.—*Ex.*

A LITTLE more of the cream of the cows in the form of butter, and a little less in bloom, would make both more energetic and more than we now are.—*Southern Cultivator.*

SHELTER FOR SHEEP.—As a general thing our farmers are too indifferent to proper shelter for their sheep during the winter months. Warm comfortable stabling saves feed, keeps sheep fattening and prevents sickness among live stock, and this should prompt farmers to provide good quarters.

HOGS.—This county produced last year, about 40,000 bales of cotton. The same land planted in corn and sweet potatoes, with one-tenth of the labor, would have produced enough to fatten 200,000 head of hogs, besides better and beef to supply a large part of the State.—*Planters' Journal.*

IT is becoming to be very generally understood that the character of a people is pretty much the product of diet. It is the roast beef of Old England that has carried the flag in triumph around the globe. Even food industry is quite as necessary to the busy and mind as to the clothes of our people.—*Planters' Journal.*

RICE IN EDGECOMBE COUNTY.—We were shown a specimen of rice Saturday last, raised in this county, by Mr. Geo. Mitchell, also three miles from this place. He has three acres. It is a fair sample, and demonstrates the fact that rice can be raised on our soil with good results. Rice is a profitable crop.—*Winston Leader.*

LARGE YIELD OF WHEAT.—Mr. A. P. Boren, of Sim Gordon, in this county, raised this past season 515 bushels of wheat from 18½ bushels sowed, an increase of over 27½ bushels to one. The field which was on a field where 5½ bushels were sowed, result 195 bushels, an average of 35½ for one. Mr. Boren's crop amounted to 800 bushels, and besides having in oats and barley—has only a splendid crop. We are glad to such reports.—*Patriot.*

THE VINEYARD INDUSTRY.—Mr. [illegible] Ridge, made 4,000 above all expenses on a three and a half acre vineyard, this season. He is now enlarging his vineyard, and will soon have planting 10,000 vines, mostly early shipping varieties. He and his brother, Harry, have large fruit interests near Ridgeway and Manson, on the R. & G. R. R. and are increasing their area every year. The above exhibit beats cotton badly.—*Raleigh Visitor.*

RACING HORSES.—We saw a fine male colt on our streets yesterday which we were told belonged to Mr. Jos. Neal, of this township, and that he had been offered $75 for it, though it was but three months old. This suggests the question, why is it that our farmers do not raise more mules? We find hundreds of calves over the country which at one year old are not worth more than five dollars, while a mule colt at that age is worth from $40 to $100.—*Davie County Reporter and Post.*

LIME IN THE DUNE HILL.—Dr. Joseph Jones, President of the New Orleans Board of Health, in his admirable report to the Cotton Planters' Convention, of Georgia, since the war, made this statement, which we give from memory, not of his language: Quick lime applied to the cane, kill Rhizoctus the amount, and causes it to escape, greatly depreciating the real value of the manure; carbonate of lime or marl, fixes the ammonia, and holds it for the use of plants when applied to the land; benefits cane in both instances; quick lime ruins it. Most available manure produces ammonia when rotted, as experience as well as science has often proved. Lime and plasters in any shape such as burned chips or rotten wood, or manure which is mostly vegetable matter, burn mixed and work together admirably when applied to field or garden crops, probably or vineyards.—*Exchange.*

SKINNY MEN.—"Wells' Health Renewer restores health and vigor, cures Dyspepsia, Impotence, Sexual Debility, $1.

A much abused editor wrote to a brother journalist telling him an ass in thoughtlessly signed himself, "Yours Fraternally."—*Ex.*

DON'T DIE in the House.—Rough on Rats" clears out rats, mice, roaches, bed bugs, flies, ants, moles, chipmunks, gophers. 15c.

When you read in the newspapers that a politician is brilliant but erratic, it means that he can't let whiskey alone.—*Texas Siftings.*

FOR TORPID LIVER, Heavy stomachs, bilious conditions, "Wells' May Apple Pills" anti-bilious, cathartic. 10 and 25c.

The paragrapher who has lived to see his items sandwiched among a column of leaded, special notice, fifty-cents-a-line advertisements has not lived in vain.—*Boston Folio.*

*Lydia E. Pinkham's great laboratory, Lynn, Mass., is turning out millions of packages of her celebrated Compound, which are being sent to the four winds, and actually find their way to all lands under the sun and to the remotest confines of modern civilization.

MEDICINAL.

A NOTED BUT UNTITLED WOMAN.

[From the Boston Globe.]

Messrs. Editors —

The above is a good likeness of Mrs. Lydia E. Pinkham, of Lynn, Mass., who above all other human beings may be truthfully called the "Dear Friend of Woman," as some of her correspondents love to call her. She is zealously devoted to her work, which is the outcome of a life-study, and is obliged to keep six lady assistants, to help her answer the large correspondence which daily pours in upon her, each bearing its special burden of suffering, or joy at release from it. Her Vegetable Compound is a medicine for good and not evil purposes. I have personally investigated it and am satisfied of the truth of this.

On account of its proven merits it is recommended and prescribed by the best physicians in the country. One says: "It works like a charm and saves much pain. It will cure entirely the worst form of falling of the uterus, Leucorrhœa, Irregular and painful Menstruation, all Ovarian Troubles, Inflammation and Ulceration, Bloatings, all Displacements and the consequent spinal weakness, and is especially adapted to the Change of Life."

It permeates every portion of the system, and gives new life and vigor. It removes faintness, flatulency, destroys all craving for stimulants, and relieves weakness of the stomach. It cures Bloating, Headaches, Nervous Prostration, General Debility, Sleeplessness, Depression and Indigestion. That feeling of bearing down, causing pain, weight and backache, is always permanently cured by its use. It will at all times, and under all circumstances, act in harmony with the law that governs the female system.

It costs only $1. per bottle, or six for $5., and is sold by druggists. Any advice required as to special cases, and the names of many who have been restored to perfect health by the use of the Vegetable Compound, can be obtained by addressing Mrs. P., with stamp for reply, at her home in Lynn, Mass.

For Kidney Complaints of *either* sex this compound is unsurpassed as abundant testimonials show.

"Mrs. Pinkham's Liver Pills," says one writer, "are the best in the world for the cure of Constipation, Biliousness and Torpidity of the liver. Her Blood Purifier works wonders in its specific line and bids fair to equal the Compound in its popularity.

All must respect her as an Angel of Mercy whose sole ambition is to do good to others.

Philadelphia, Pa. (2) Mrs. A. M. D.

THE SMITHDEAL
BUSINESS COLLEGE
is designed to give a practical course of business training, including the various forms of Book-keeping, Banking, Wholesale and Retail Merchandising, Insurance, Post Office, Exchange office, Real Estate agency, Railroading, Commercial Law, Commercial Calculations, Commercial Geography, Business Economy, Letter Writing, Advertising, Writing, &c.
BUSINESS COURSE.—In order to give time for the preparation of an original course, which will be adapted to the wants of this practical age, this department of the College will not be opened until the beginning of the fall term, on the 6th of August, 1883. The expenses will not exceed $65 or $75.
PENNING COURSE.
"Proud commerce with its busy hum of men
Owes to the sword less homage than the pen."
The first term of this department will open Jan. 4, and close May 18, 1883. The principal, G. M. Smithdeal, whose ability as a teacher is warranted by a certificate from Prof. H. C. Spencer, will have full charge of this department. The main object of this extra course will be to make good rapid business writers, though the whole course embracing the various forms and styles of Script Lettering and Writing, Card Writing, Flourishing, Drawing, &c., will be given. Will take about three months to complete the course, at an expense of from 45 to 50 dollars.
A gold medal will be given annually to the most proficient graduate in the penning course
For further particulars address the Principal,
G. M. SMITHDEAL,
