They seem only to have asked the increased facilities for the intercommunication during the term of the occupation of Bulgaria. Nevertheless, according to the Roumania Libera newspaper, the Bucharest Government has already declined the Russian proposal, declaring that the existing facilities are all that Russia needs, according to the treaty of Berlin and Russo-Roumanian convention.

### Almost Unanimously Gordon Elected.

ATLANTA, GA., Nov. 19 .- The Senatorial election took place in the Georgia Legislature to-day, resulting in the almost unanimous election of Gen. Gordon. He carried every vote in the Senate and every vote in the House with an exception of five, who are republicans. Strenuous efforts were made to organize an opposition, but without success. No man in the Senate could be found, who would nominate another candidate, and four of the five voting against him in the House were independents from the Seventh Congressional district. ### Opening Session-Addresses-Gov. Holliday Presides.

RICHMOND, Nov. 19 .- At the opening session of the Annual Public Health Association, at which one hundred members were present, besides many members of the medical fraternity from abroad and local physicians and citizens. The proceedings were opened with prayer by Rev. Dr. Peterkin.

Dr. Harris introduced Gov. Holliday as the presiding officer of the evening. The Governor extended to them, in behalf of the city, a cordial welcome, and said there never had been a time when the health of the body and mind were not needed to wrestle successfully with the aims and objects of life. He alluded to the convention as an audience of special culture, and spoke of the Association as one of vital importance to public health. It is, he said, of perpetual application, and goes throughout every department of life and penetrates every pursuit. Public health has a vast deal to do with public morals. and immorality is the most fatal blow that can be struck at public health. One of the great and beneficent objects of this Association is to investigate causes and if possible find remedies. This alone would ustify such a convention as the present To provide a remedy for such the dreadful plague that but yesterday swept the fairest portion of our land is a noble work, worthy of such men. In conclusion, the Governor

"But, gentlemen, beyond the immediate objects of the Society, other ends will be attained by your gathering. Coming from every section of our common country, bringing your learning and culture, your experience and earnestness, you will imbibe that gentleness and affection which are the very genius of unity, and when you go to your homes, wherever they may be, you will carry with you that feeling of fellowship that is stronger than political and sectional bonds. Here, in this beautiful city, where suffering of warfare was endured that will never be known till the great future, when blotted, even by the tears of the recording portant indication of the supremacy of brotherhood, to show by your words and English influence in Turkish affairs. It is deeds how peace hath its victories no less said the Pasha was sent into a species of renowned than war, and how we can by honorable exile at Broussa on account of the divine instincts of our nature make our republic one and what she ought to bethe mother of a mighty race.

> Prof. Cabell, of the University of Virginia, followed Gov. Holliday, introducing the president of the Association, Dr. Elisha Harris, of New York, whose annual address had been announced as the leading feature of the evening's exercises. ### Mr. Schurz and Gen. Sheridan. WASHINGTON, Nav. 19 .- The Secretary

of the Interior has written to the Secretary of War, taking earnest exceptions to the recent reports of General Sheridan, in which the latter mentions the Indian situation as unsatisfactory, with additional omments upon the management of the Congressional appropriations by the employers of the Indian Bureau. Mr. Schurz hopes that Gen. Sheridan will communicate any facts in his possession, which will warrant the charges made by that officer. Mr. Schurz says he makes this request, in the view of facts that the certain military officers seem to have fallen into the habits of indulging officially and publishing in general reflections on the Indian service, without taking the trouble of substantiating them with such statements in detail as would facilitate the discovery of the correction of abuses.

### Manager Clair's Charges Against Gen. Milton S. Littlefield.

New York World, 17. The first prisoner brought before Justice Morgan yesterday, at the Jefferson Market Police Court, was Gen. Milton S. Littlefield, who comes from Jacksonville, Fla. and who had been a guest of the Park Avenue Hotel from the 12th of October to the 9th of the present month. The prisoner left the hotel suddenly and without notice, and had neglected to pay his hotel bill, amounting to \$94. The arrest was made on Friday by the private detective attached to the hotel on a warrant issued by Justice Morgan on the complaint of Mr. Henry Clair, manager of the hotel. The General, after leaving the hotel both wrote and telegraphed that he would return in a few days and settle his account. "He arrived in town some days ago, and after waiting for him to put in an appearance, Mr. Clair placed the matter in the hands of his detective. On Friday afternoon the General was found in the neighborhood of the Astor House. He was allowed to enter the restaurant and there the warrant was executed. with from \$12 to \$15,000, leaving several When arrested he said it was his intention to pay the claim at once, and that, in fact. if he had not been detained he would have paid the bill at the hotel before dark. He was taken to Jefferson Market Police Court, but the business of the day being over he was locked up in one of the cells for the night. He had about \$20 in his possession. After midnight on Friday a representative of the General called at the hotel and tendered payment of the claim on his behalf. The case being then before
