SUNDAY'S NEWS.

Domestic.
WASHINGTON, April 6.—The National Board of Health after a several days session, adjourned last night to meet at Atlanta, Ga., on May 1st, the board agreed upon the provision of the bill to promote the public health and to prevent the introduction of contagious and infectious diseases, and will send that measure at once to the several committees on epidemics at whose request it was prepared. It has also selected a number of subjects which require immediate attention, and referred them for investigation and consideration to the various standing committees on food adulterations, epidemic diseases statistics, and to the executive committees, which when the board is not in session is empowered to act in all matters not involving money expenditures with the view to the more careful study of contagious and epidemic diseases in the foreign countries where they originate. The board has appointed a special committee, which will soon sail for Havana to investigate the yellow fever question in Cuba.

The National Emigration Aid Society is taking measures to further the westward emigration from the South to the West. An Executive Committee has been formed including several prominent Republicans. Senator Windom is President of the Committee.

CHARLESTON, S. C., April 6.—The United States Court for this District will commence here to-morrow. Judge Bond who is to preside arrived this evening. Intense interest is felt in the proceedings of the term from the fact that 250 well known citizens of the State have been arrested and will be tried for alleged violations of election laws.

The prosecutions are brought under section 5,522, 5,520, 5,518, 1,515, and 1,511 of the revised statutes of the United States, and are filed mainly by informants instead of by indictment. The United States Attorney, and his assistant, E. W. Mackey, the defeated candidate for Congress from this District, assertion that they propose to apply the test oath to all jurors creates much uneasiness as the jurors already drawn contain but few white men and none who can take oath. If test oaths be applied jurors will probably consist exclusively of negroes.

PHILADELPHIA, April 6.—The fire this morning on the northeast corner of Brown and Race streets, destroyed property to the amount of \$750,000.

Foreign.
CAPETOWN, April 6, 1879. Via Madeira.—Oham, Cetewayo's brother, with his eldest son and 300 warriors, surrendered unconditionally on 2nd of March, and are now in Col. Wood's camp. Oham is supposed to be an aspirant for Cetewayo's throne. There has been no important military movement against the Zulus. Kowe is still surrounded. The road leading to Hazy being defended by a large force of Zulus. The relieving force under Col. Hawes, is on the lower Tugela river. It consists of three companies each, the 36th and 88th regiments and a portion of the naval brigade of the iron clad Shah. The 25th regiment has landed at Durban from Ceylon and is now marching to join Col. Hazy. The latest intelligence from Kowe is that the garrisons are well supplied but their provisions are running short.

Col. Pearson has established a communication with the Tugela river, by means of signals.

London, April 6.—The *Observer* says advice from Paris state that the Puyou Quarantine Atlantic Cable Company will on April 15th, open books for subscriptions for 40,000 shares of 500 francs each, at 24 premium. As the nominal capital of the company provides for \$2,000,000, the present allotment, apparently restricts the scheme to a single cable from Brest to New York, instead of two, as originally intended. The steamer Kangaroo with part of the cable to be laid between Natal and Aden, will leave for London to-morrow for Natal, via the Suez canal. The Natal and Zanzibar section will be open for business in July. This will place South Africa within a few weeks on communication with London. The remainder of the line will be completed before the end of the present year.

Cetewayo is reported to be organizing a large army at the Royal Kraal. The steamer Pretoria, with the 41st highlanders arrived at Durban on the 16th of March. The Dublin Castle, with a battalion of the 6th Rifles at Capetown, on the 15th of March, and a Maogora with a battery of artillery at Sinter bay, on the 17th of March. Sir Bartle Frere has gone to Pretoria. The forts on the border of the chief Sececoens' country have been evacuated by the British.

A dispatch to the *Observer* from Cairo, says the Khedive, without consulting his ministers, has drafted a budget in opposition to that submitted by minister Rens Wilson. Seventy Pashas and ninety civil officers have signed this document, which pledges the government to henceforth pay the interest on the funded debt in full, punctually. The Khedive intends to submit this budget to parliament. He professes his readiness, in case of the resignation of ministers Wilson and de Bignieres, to guarantee the maintenance of the constitutional regime.

PARIS, April 6.—Elections take place to-day for 21 members of the Chamber of Deputies. They attract but little attention. In 18 districts Republican candidates only have been nominated, and in one, that of St. Nazaire, a Legitimist candidate is running without opposition. The Bonapartist and Republican candidates contest one district in the department of the Haute Garonne. In the 8th arrondissement of Paris the Champs, Elyses, Bonapartist, Orleanist and Clerical candidates are running.

CONSTANTINOPLE, April 6.—Russia and Italy oppose the appointment of a commissioner to administer Turkish customs, upon which France and England would alone be represented. They demand a financial commission representing all the great Powers.

VIENNA, April 6.—The colonel of the 70th Austrian regiment has been murdered in Bosnia by brigands.

OVER THE CABLE.

The Old World's News.

PARIS, April 7.—Two hundred and thirty more communists have been pardoned. At the supplementary elections for members of the Chamber of Deputies held yesterday the moderate Republicans generally defeated their more radical competitors. Complete returns of twenty-one supplementary elections for members of the Chamber of Deputies, held on Sunday, show that thirteen Republicans and one Legitimist were elected. In seven instances second ballots will be necessary.

LONDON, April 7.—Eliza Meteyard, an English authoress, is dead. She was born in 1801. The strike of the Preston weavers, against the introduction of the Blackburn standard list of wages, is now at an end, the operatives submitting under protest.

A *Times* correspondent at Rome says now that the wild rumors as to the object of Garibaldi's visit to Rome have proved groundless, it is asserted that he has come to the city to attain which for Italy all his strenuous efforts have been directed. He is distinctly aware that politics are wholly unconnected with his going to Rome. He found that his health was not improving at Caprera, and thought the mineral springs near Civita Vecchia might benefit his gout. Garibaldi, replying to the *Syndic*, who visited him on his arrival, said he did not himself know the reason for his visit. A more pathetic scene than that which occurred on Garibaldi's arrival at the railway station has seldom been beheld. Shouts were raised as the train entered the railway station, but they were speedily silenced by the circulation of a report that the General was ill. He was carried from the train on a stretcher, and he lay motionless, with his eyes closed and a red handkerchief bound around his head. It looked as though a corpse was being carried in state. It was found impossible to move him from the litter, which was placed on an open carriage and driven, accompanied by a mournfully silent crowd, to the house of his son, Menotti Garibaldi. It was so impossible to move the General that at Civita Vecchia a portion of the side of the railway saloon had to be cut away to admit his litter.

A dispatch from Rome to the *Daily News* says: "Garibaldi slept well Saturday night. His doctor thinks he will be able to leave his bed within a week." At the Silott dock entrance the wall has fallen down, and it will be impossible for vessels to dock here for several months. The vessels in dock, will be unable to leave until the obstructions are removed.

Although a general strike has been averted to by the acceptance by 10,000 men of the masters terms, the decision of two-thirds of the pitmen at Durham, to strike against the reduction will have the effect of stopping close on ninety pits, and throwing idle 25,000 hewers, and should the struggle continue more than four or five days other industries closely connected with the coal trade will be paralyzed. Two managers of iron works and other employes of labor anticipated the coming struggle, a fortnight ago by placing their hands under notice. Several large concerns will be brought to a stand still in the course of a week, unless the owners or pitmen give in. At Consett Iron Works where from 1,200 to 1,400 tons ship plates are made every week for Clyde, the work will have to be suspended. The whole number of pits in the district is about eight or nine collieries are among those on strike.

A Berlin dispatch to the *Globe* says: "Porte refused the Russian proposals relating to the occupation of Eastern Roumelia and insists upon the execution of the treaty of Berlin."

A Constantinople dispatch to the *Times* dated Sunday, says there seems to be a pause in the negotiations for a mixed occupation of Eastern Roumelia. The subject is to be considered in the Council of Ministers on Monday. It has been suggested here that instead of each Power sending a contingent, one of them might send all the troops and the other bear the expense, but no official proposal has yet been made in this sense.

Russia will not probably object to the Turks occupying Bourgas, but is not disposed to permit a Turkish occupation of Ichtiman, as the troops, therefore, would have to traverse a part of Eastern Roumelia and Bulgaria, and the population might resist.

Among the numerous telegrams received from the Cape of Good Hope, there is no confirmation of the *Daily News*' special dispatch, reporting that an insurrection has broken out in the Transvaal, presumably among the Boers. The statement is improbable.

CARFO, April 7.—The Khedive has summoned the Foreign Consul General to his presence, and communicated to them the National Council scheme for reorganizing the finances which is made conditional upon the recall of the European ministers. Mohammed Tenfik has resigned the Presidency of the council. The Khedive has dismissed ministers Rivers, Wilson and de Bignieres and appointed a new cabinet under Chief Pasha, composed exclusively of native ministers.

RIOA, April 7.—The navigation to this place is re-opened for steamers.

VRENSA, April 7.—Four Russian Poles and one Serbian, students of medicine here, have been arrested as belonging to the socialist propaganda. It is believed that the arrests were connected with the recent investigations at Luenburg and Cracow.

ROME, April 7.—A letter from the Cardinal Vicar is published complaining bitterly of the existence in Rome of Protestant schools, supported chiefly by foreign money. It announces that the Pope has appointed a vigilance committee to increase and improve the Catholic schools, and to appeal to the nobility and clergy to subscribe for their support.

ST. PETERSBURG, April 7.—The *Agence France*, referring to the reports that the mixed occupation scheme has been abandoned, says the European Cabinets continue the discussion with the view of aiding the present scheme or substituting another for it.

These Gorham Police Commissioners.
ALBANY, April 7.—The charges against the Police Commissioners of New York City and the certificate of their removal were submitted to Governor Robeson to-day.

WASHINGTON.

Congress—Army Bill and Bell's Case in Senate.

WASHINGTON, April 7.—The army appropriation bill was received from the House and referred to the Committee on Appropriations.

The Senate resumed the consideration of the New Hampshire Senatorial case, the question being on the amendments of Mr. Hoar to the resolution of the majority of the Committee on Privileges and Elections, declaring that Charles H. Bell is entitled to his seat, the majority reporting that he is not.

There was a debate further consideration went over until to-morrow. A resolution was agreed to that the President of the Senate appoint a select committee of five members on Freedman's Savings and Trust Company, to take into consideration all matters relating to said institution.

WASHINGTON, April 7.—Petitions for writs of *habeas corpus* and *certiorari* were submitted to the United States Supreme Court to-day by the Governor of Virginia, on behalf of the State, and by J. D. Coles, Judge of the county court of Pittsylvania county for the purpose of bringing up and listing of the legality of Judge Rives and the district court had and has no jurisdiction of the matters charged against Judge Coles in the indictment, and that the finding of the indictment and consequent arrest and imprisonment of the said J. D. Coles are unwarranted by the Constitution of the United States or by any law made in pursuance thereof, and are not only in violation of the rights of the prisoner, but are in violation also of the sovereign rights of the State of Virginia, whose Judicial officer he is, and to whom alone he can be held accountable for his acts or omissions as such officer. The petition closes with the declaration that it is proper and necessary that the said J. D. Coles be discharged from the illegal custody in which he is now held for trial, and left free to perform his duties without the interference on the part of the District Court of the United States, or any one acting under its authority. The petition of Judge Coles sets forth some facts, and prays that the records of the proceedings of the District Court be brought here by certiorari, and a writ of *habeas corpus* be issued to the marshal in order that he, and the reasons of his arrest and detention may be brought before the court.

Secretary Sherman gave New York an official business.

The Secretary of the Navy has designated as medical inspectors Drs. Hord, Dean and Leach, to visit the United States steamer Plymouth, now at Portsmouth, N. H., and investigate the recent outbreak of the yellow fever on that vessel.

The debate on the army bill will probably commence in the Senate on Wednesday.

Decree reversed each party to pay its own costs.

The Canada Bank of New Orleans et al. vs. Wm. B. Partee et al. from the United States Circuit Court of the Southern District of Mississippi; decree reversed, Justice Miller dissenting.

The following is furnished by the Comptroller of the currency:

The Comptroller of the currency has received from the Bank Examiner Georgia, a specimen of the new four per cent. bonds recently issued by that State. They are in size and color, similar to the Greenbacks, and in other respects they are a bond with interest payable six years after date, with six annual coupons amounting to twenty cents each, upon the right end of the note.

The Comptroller in his report for 1872 and 1873, called the attention of Congress to the issue of the certificates of the denomination of five dollars by the State of Alabama, which were receivable in payment of taxes and all dues to the State.

dollars, nor less than fifty cents receivable in payment of taxes, the faith and credit of the State being pledged for their redemption, are bills of credit within the prohibition of the Constitution.

A Colored Mass Meeting Approves Judge Rives' Action.
RICHMOND, Va., April 7.—A Mass meeting of colored people in this city, held to-night, at which resolutions were adopted declaring their rights as American citizens, sustaining the action of Judge Rives of the U. S. Court in regard to mixed juries and appointing a committee for raising contributions through the churches and societies for the employment of colored men in their ranks before the Supreme Court of the United States in the case of writ of *habeas corpus* against Judge Rives, requiring him to show a cause why he should not be restrained and enjoined in the matter of assuming authority in the removal of the Reynold Bros., (colored) under conviction in Patrick Co., Virginia, from the custody of the State authorities.

PHILADELPHIA, Pa., April 7.—The dispatches from Pittsburgh this p.m. says that the coal miners' strike has ended in a *hela river*, the Pan Handle R.R. and in the coke region of Western Pa. are now over and work has been generally resumed. These strikes have resulted in an advance, except in the coke regions, where the demand for an advance was withdrawn. A new strike is expected in the coal region of the Pennsylvania railroad in Westmoreland county.

READING, Pa., April 7.—The Reading cotton mill resumed operations this morning. The greater portion of the strikers are working at ten per cent reduction.

The Lutherans of Pennsylvania have 550 ministers, 1,050 churches and 150,000 communicants. It is estimated that the Lutheran population is about 750,000—one-fifth of the population of the State.

The Louisville *Courier-Journal*, a strong advocate of the election of Mr. Blackburn to the Speakership, in a double-leader article, in its issue of April 2d declared for Tilden and Hendricks for 1880. The *Augusta Chronicle*, another influential paper, is also for Tilden.

When the Confederate army was on its shortest rations, Gen. Lee remonstrated one day with a straggler for eating green persimmons, and asked him if he did not know they were unfit for food. "I'm not eating them for food, general," replied the man, "but for the sake of drawing my stomach up to fit my rations!"

A female book agent caused the publication in the *Sacramento Bee* of the death of one George W. Bruff. Now, Bruff was not dead, and appealed to the *Bee* to restore him to life. The *Bee* found the woman, who explained that Bruff owed her and had fixed a day when he would pay if he was alive; as he did not pay she concluded he was dead, and so published him in the *Bee*. Bruff and the *Bee* people are angry; everybody else laughs.

Armstrong at Camden, the Supreme court to-day refused to order Attorney General Stockton to enter a nolle prosequere, but says that if Mr. Graham is convicted on confession made by him at the trial of Hunter, he will be entitled to mercy.

Washington Notes.
A leading Republican said that Mr. Tucker's peroration was one of the noblest pieces of eloquence he had ever heard in Congress.

The fact that the German mission was offered to Mr. Whiteleaf Reid, the editor of the *New York Tribune*, last December, seems to have been one of the best kept official secrets which the present Administration has had.

Scholar Pendleton's bill giving members of the Cabinet the privilege of seats upon the floor of the Senate and House, with the right to debate measures relating to their respective departments, requires their attendance in the Senate on Thursdays and Fridays and in the House on Mondays and Tuesdays. The proposition is not new, but it is more favorably received now than at any former time, says a *State* special.

Of the three hundred and sixty-two members of the Forty-sixth Congress, exclusive of vacancies and including the Senate two hundred and forty-one are lawyers. The others are divided as follows: Merchants, 24; farmers, 16; bankers, 12; editors, 10; manufacturers, 9; physicians, 7; railroad men, 5; teachers, 3; clergymen, insurance men, miners, lumber-dealers, professional office-holders, 2 each; carpenter, stone-cutter, miller, surveyor, livestock dealer and ticket-agent, 1 each; and 18 without regular calling.

World special of the 4th: Apart from the brilliant, logical and very wise speech of Mr. Blackburn, to which no report can do justice, the prominent feature of the debate of yesterday was the real ignorance of the issues involved or the ignorance feigned for party purposes, and especially of the Southern Democrats, in the pending discussion, comes of the fact that Republicans, and especially those who have been in public office since 1861, have been compelled to think of anything but a numerical majority; whereas, Democrats have been constantly compelled to study, and take their stand upon the accepted principles of the common law and of constitutional law.

Michigan Election.
DETROIT, April 7.—The election in this city, throughout the State was quiet and orderly. John Logan Chapman was elected Judge of the Supreme Court of this city by a plurality of 1,411, and a majority of 46 over both the Republican and National candidates. The returns to-day: Mary C. Gordon vs. James H. Gilfillan from the United States Circuit Court of Louisiana. The court held that the plaintiff cannot have any personal decree against the defendant, but is entitled a decree for foreclosure and sale of one undivided half of the plantation covered by the mortgage. Decree reversed each party to pay its own costs.

The Comptroller in his report for 1872 and 1873, called the attention of Congress to the issue of the certificates of the denomination of five dollars by the State of Alabama, which were receivable in payment of taxes and all dues to the State.

The question is likely to arise whether these bonds are bills of credit, or not. The Comptroller in his report of 1872, said the Constitution of the United States provides that no State shall emit bills of credit, and it has been held by the Supreme Court of the United States, in the famous case of *Buscus vs. The Bank of Kentucky*, that a note of circulation, issued by a State, involving the faith of the State and designed to circulate a money on the credit of the State in the ordinary course of business, is a bill of credit. Other decisions of the Supreme Court, hold that certificates issued by a State in sums not exceeding ten
