TO PLANTERS AND FARMERS.

THE Lodi MANUFACTURING COMPANY, (established since 1840), having the exclusive control of the right soil of New York City, offer for sale, exclusively for Cash, a new article of

Double Refined Poudreite.

Warranted free from impurity and rubbish, when it will sell for Twenty Five Dollars per Ton, delivered on board of vessel in New York City. This article, which is pulverized as fine as flour, has no equal for Corn, Cotton, and Tobacco, and is equal to No. 1 Peruvian Guano in the proportion of two lbs. for one of Guano, and better than the best brands of Super-Phosphates, pound for pound.

This is just the thing for those who will pay cash for a good article at a low price. We have a coarser article at Twenty Dollars per Ton. Samples sent by mail, free, on receipt of 3 cent stamp. Send for pamphlet, and be convinced. Address the Lodi Manufacturing Company, 96 Courtland street, New York.

ROCKY MOUNT, EDGECOMBE CO., N. C.

Mr. James E. Dey. Sir: In reply to your inquiry of the results of our experience in the use of your improved Poudreite, purchased by this year's Cotton Crop, we would beg leave to say that the present season has been quite unfavorable to the action of all fertilizers. A better kind of manure was used by us, with the exception of your Poudreite, with little or no effect to the crop. Where the Poudreite was applied it gave us near half a bale more per acre, and caused the Cotton to open much earlier, and we would therefore recommend the same as a concentrated manure for the growth of Cotton, as well as improvement to the soil.

Yours very respectfully, HENRY P. FULTS & BRO. Nov 12th, 1866. 393-6 w

THE DAILY DISPATCH.

WILMINGTON, N. C., FEBRUARY 7, 1867.

The publications in the newspapers in regard to a plan of settlement under the provisions of which the breach between the President and the Radicals is to be healed, and the States of the South to be restored to their rights in the Federal Union, has attracted the attention of our people for some days past, and induced a degree of cheerfulness which has, we fear, yet to be disappointed.

The efforts of Governor ORR and Judge STARKEY in behalf of such a movement have been constantly referred to recently in the public prints; but no definite statement has been made as to the terms upon which this settlement is to be based.

We learn from a gentleman of intelligence who had a conversation with a member of Congress elect from this State, that the terms which had been agreed upon were that the suffrage qualification throughout the country shall be made so as to apply to all classes whether white or black alike, with the proviso that no one shall hereafter be admitted to the privilege of the ballot box who is not an owner of \$250, and who cannot read and write, the New York property qualification and the Massachusetts intelligence qualification to be combined and made applicable to all the States. Upon the adoption of this arrangement by the Southern States representatives are to be admitted to Congress. Such is the understanding which we have of this compromise measure from which so much has been hoped both North and South.

Granting that the Radicals will stand to

their bargain and admit the Southern representatives upon the adoption of this arrangement, granting that the Southern States yield the concession asked for their ends with honor, and that such a course would be expedient, still to our mind there suggested an obstacle which is insurmountable. The test oath is still on the Federal statute book. The Southern people who have any character or intelligence, or gentility will be disfranchised in effect. Though privileged to vote they will not be eligible to office under the Federal government, and will be forced to look for representatives among the abhorred class of so-called Southern loyalists.

Now we do not think anything is to be gained by the admission of representatives from the South to seats in the Federal Congress, so long as this proscription test oath continues in existence. We shall oppose every movement which proposes to sacrifice this right of free and unqualified representation which belongs as well to this section as to the North.

But we have no idea that the Radicals would stand to the rack even if the South were to make the concession proposed, for they have proven themselves to be so recreant to every emotion of honor, and sentiment of justice, as not to be worthy of trust. Nor do we think that this measure of negro suffrage, however much restrained, is a thing so grand precipitately; we do not see what evil which is now imposed is to be escaped through this agency, and as nothing is to be made by it, we advise great hesitancy before plunging into the unknown depths.

If the South will rest patiently, Time will yet solve the problem for us; the master-inactivity which should characterize our action will do more for our relief than compromises, or concessions. All we have to do is to stand fast by our principles, and refuse to barter our honor. If we will do this we have no fears but that the Future will vindicate the wisdom of such a policy.

By firmness and manliness we can conquer all that we desire; while by bargaining for better things we may lose what little we now enjoy. Our advice is, "Don't give up the ship."

Since the above has been written we have seen, and in this issue publish, the programme adopted by the self-constituted Southern representatives in Washington City. LEWIS HAINES and NATHIEL BOYDEN, Esqs. were of the party from this State.

The section of the amendment proposed which strikes at the doctrines of Jefferson and Madison, and all the great Democrats of the country, as announced in the famous Virginia and Kentucky resolutions, makes it so objectionable as to preclude us from the possibility of a support of the measure under any circumstances. War cannot and ought not to settle great principles. Might does not make right, though it may prevent its assertion; and we shall oppose to our utmost any attempt to foist upon the constitution any such unworthy amendment, destructive of its entire spirit and calculated to centralize and monopolize the country. If we are to have an Empire let there be an Emperor.

THE DIFFICULTY.—The following extract from the Report of the Commissioner of Immigration for the State of Virginia, shows that one of the difficulties in the way of immigration to the Southern States, is the indisposition of the land holders to sell land in small tracts at reasonable prices:

"About the last of June, 1866, the President of the American Emigrant Aid and Homestead Company of New York opened a correspondence with the Virginia Board, tendering the co-operation of that Company in directing immigration to Virginia. We were notified that early in September one of the company's steamers from Copenhagen, with 700 emigrants as a select class were expected to arrive at New York, and that they would be sent to Virginia if lands could be purchased for them in 50 and 100 acre farms. A gentleman of high character connected with the company came to Richmond and after conference with the Board, endeavored to purchase lands for settling those emigrants; but owing to the high price demanded, failed to make the purchase, and there being no time for delay the opportunity was lost. I have since been credibly informed that this company of emigrants brought on more than \$280,000 in gold.

It is quite certain, I think, that extensive sales of land may be effected to the mutual advantage of the proprietor, the emigrant and the State, if some effective plan of operations were adopted.

The Southern coastwise trade has been greatly affected by the ice embargo during the month. The trade with Richmond has been entirely suspended by the ice in James River, and that with Norfolk greatly interfered with by the same thing in the Patuxent River and Chesapeake Bay. The receipt of cotton were 3,013 bales of which 1,054 bales came from Savannah, 876 from Norfolk, 737 from Charleston, 233 from New Orleans, 68 from Wilmington, N. C., and 29 from Eastville, Va. Of rice, 700 tierces were received from Charleston and 48 tierces from Savannah. The receipts of naval stores were 214 barrels turpentine; 234 barrels rosin and 248 barrels tar from Wilmington, N. C., and 25 barrels pitch and 10 barrels rosin from Norfolk. From New Orleans 499 barrels molasses, and 31 hogsheads and 5 barrels sugar were received, and from Charleston 190 barrels sugar.—Baltimore Sun.

DIRECT TRADE.—We have regarded the proposition to inaugurate direct trade with Europe, from Wilmington, Morehead City and Norfolk, with great interest. And we observe that those who have undertaken it in Wilmington and Norfolk, have the true spirit of perseverance. We hope they will meet with deserved success. Our cotton, naval stores, best lumber, staves for wine casks, &c., and our tobacco and medical plants, and perhaps dried fruit, may be shipped directly and with advantage. To make it profitable and certain, our merchants must become importers. We hope to see the whole scheme inaugurated on a firm basis.—Gal. Sentinel.

Cucumbers raised in Senator Fessenden's garden cost him twenty-five cents a piece.

[From the Raleigh Sentinel.]

The Plan of Adjustment. We intimated on yesterday, that, in a day or two, the plan, which rumor had for several days affirmed was being concocted in Washington, would no doubt be given to the public.

We have been furnished with a manuscript copy of the proposed plan of settlement, by Hon. Lewis Hanes, of Salisbury, who, as a party in the conference, on his own responsibility, furnishes it for publication thus early, believing that no scheme involving such important consequences, should be kept from an interested public.

We have gathered from various sources, a partial history of this scheme. Gov. Orr, of South Carolina, Ex-Gov. Parsons, of Alabama, Ex-Gov. Marvin, of Florida, Hon. Nat. Boyden, and Hon. Lewis Hanes, of North Carolina, and Judge J. T. Jones, of Arkansas, being in Washington city on other business, frequent conversations with members of Congress and others, both Democrats and Republicans, conservative and radical, felt that the exigencies of the country demanded the earnest efforts of every true friend of the South and of the Union. They accordingly determined upon a conference, each acting upon his own personal responsibility, and disclaiming all right to act in a representative capacity. Several conferences were held, and the following programme was agreed upon as the only one they could devise promising to effect the desired end:

PROPOSED AMENDMENT TO THE CONSTITUTION OF THE UNITED STATES.

Article 14.—Section 1. The Union under the Constitution is, and shall be perpetual. No State shall pass any law or ordinance to secede or withdraw from the Union, and any such law or ordinance shall be null and void.

Section 2. The public debt of the United States, authorized by law, shall ever be held sacred and inviolate. But neither the United States nor any State shall assume or pay any debt or obligation incurred in aid of insurrection or rebellion against the Government or authority of the United States.

Section 3. All persons born or naturalized in the United States, and subject to the jurisdiction thereof, are citizens of the United States and of the States in which they reside. No State shall make or enforce any law which shall abridge the privileges or immunities of citizens of the United States; nor shall any State deprive any person of life, liberty or property, without due process of law, nor deny to any person within its jurisdiction the equal protection of the laws.

Section 4. Representatives shall be apportioned among the several States according to their respective numbers, counting the whole number of persons in each State, excluding Indians not taxed. But when any State shall, on account of race or color, or previous condition of servitude, exclude from voting at any election for the choice of electors for President and Vice President of the United States, representatives in Congress, members of the Legislature or other officers elective by the people, any of the male inhabitants of such State, being twenty-one years of age and citizens of the United States, then the entire class of persons so excluded from the elective franchise, shall not be counted in the basis of representation. No State shall require as a property qualification for voters more than two hundred and fifty dollars worth of taxable property, nor as an educational qualification, more education than enough to enable the voters to read the Constitution of the United States in the English language and write legibly his own name.

PROPOSED AMENDMENT TO STATE CONSTITUTION.

Article. Every male citizen who has resided in this State for one year and in the county in which he offers to vote six months, immediately preceding the day of election, and who can read the Constitution of the United States in the English language and can write his name, or who may be the owner of two hundred and fifty dollars worth of taxable property, shall be entitled to vote at all elections for Governor of the State, members of the Legislature and all other officers elective by the people of the State: Provided, That no person by reason of this article, shall be excluded from voting, who has heretofore exercised the elective franchise under the Constitution and laws of this State, or who at the time of the adoption of this amendment may be entitled to vote under said Constitution and laws.

SEIZURE OF A STEAMSHIP, WITH CANNON AND SMALL ARMS.—The New York Express of Saturday says:

The steamship R. R. Cuyler, which has been preparing in this harbor for some time past ostensibly for the service of the government of the United States of Columbia, and which was sold a few days ago, it was said to General Salgar, the representative of Columbia, was seized this afternoon by Surveyor Wakeman, under the direction of Collector Smythe. The charge against the R. R. Cuyler is that she has been armed and fitted out for the Chilean or Peruvian service against the government of Spain, in violation of the neutrality laws of the United States. She had on board an armament consisting of nine-inch howitzers, two pivot rifles, (Parrott guns), and a large quantity of ammunition and small arms. There were, besides, several great packages containing sections of boats, which were, it was supposed by the officers of the government, to be used for torpedo boats. A party of ex-rebels, numbering probably sixty, it is said, were also on board. The Cuyler was formerly a merchant ship, running to a Southern port. She was for some time in the employ of the government as a gunboat, and at the conclusion of the war was sold out of the navy, and purchased ostensibly for the Columbian Government.

COTTON.—The large quantity of cotton which accumulated upon our wharves during the suspension of navigation at the North, has been shipped off within the last few days. Over ten thousand bales have been sent forward since the first of January, and about 2,500 bales are waiting the arrival of the steamer Peruvian, for shipment to Liverpool. The Peruvian will be here from Philadelphia as soon as it is possible for her to get out of the Delaware, which at last accounts was blocked with heavy gorges of ice near the Pea Patch.—Norfolk Journal.

THE NEW YORK LOTTERY "ENTERPRISES."—The New York Post announces that all persons who may buy tickets in the various gift enterprises or lotteries now advertised to take place in that city in a short time, are likely to lose their money, on account of the fact that the authorities are taking steps to stop these enterprises, and as they are clearly in violation of the law, the officers will not doubt be successful. If the lotteries are stopped, of course persons who have bought tickets will never be able to recover their investments.

The band of the Stonewall Brigade, of Virginia, is to be reorganized.

PERUVIAN GUANO SUBSTITUTE!!

BAUGH'S RAW BONE SUPER-PHOSPHATE OF LIME.

MANUFACTURED UNDER THE FORMULA originated in 1854 and patented by BAUGH & SONS.

SOLE PROPRIETORS, DELAWARE RIVER CHEMICAL WORKS, Philadelphia, U. S. A.

This old established MANURE is manufactured from Bones that have not been burned or steamed, and it contains all their original organic matter. It is active in its operation, and is a fertilizer of great durability. It does not exhaust the soil like Peruvian Guano, but on the contrary permanently improves it.

Previous to 1861 it was introduced into the Southern States to considerable extent, and again in 1865, where it has been used with remarkable success upon Cotton, Corn, Tobacco, and all Crops.

A trial will convince any planter of its merits. Pamphlets containing well-known Southern evidence furnished upon application to New York or Philadelphia offices.

Testimonials of most reliable character can be obtained from well known Planters in N. C. Sold by Dealers in all the principal cities and towns throughout the United States and British Provinces.

A NEW AND GRAND EPOCH IN— DR. MAGGIEL'S PILLS AND SALVE.

THESE wonderful medicines are now so familiar to the people that but little endorsement of their value as a physic need be made. The Pills of Dr. Maggiel contain no mineral system by extreme purging. They are universal in curing.

A VIGOROUS APPETITE! And correspondingly strengthened the digestion. They tone the liver, clear the head, and steady the nerves. To those who are not familiar with the use of DR. MAGGIEL'S PILLS

as an anti-bilious remedy, the following extracts from various letters will be, it is hoped, of sufficient importance to justify the quoting of them here:

WHAT THE PATIENTS SAY OF DR. MAGGIEL'S PILLS AND SALVE "The best Pills for headache I ever had."

"My liver works like an engine, thanks to your Pills."

"I am pleased to say to you, Dr. Maggiel, that I would not be without a box of your Pills for curing me of morning nausea for the world."

"You will find enclosed one dollar. Your Pills are only 50 cents, but I consider them worth to me one dollar."

"Dear Doctor—My tongue had a fur on it every morning like the back of a cat. Your Pills took it away."

"I took half a pill and crushed it to powder, and gave it in jelly to my little babe for cholera morbus. The dear little pet was well in three hours after."

"I suppose it is hardly worth while to tell you my burned foot has got well from the use of your Salve. Enclosed find 25 cents for another box to keep in the house."

"Send me another box of Salve." "Enclosed find 50 cents for two boxes of your Maggiel's Pills and one of Salve." "The most gentle yet searching medicine I ever swallowed."

MAGGIEL'S PILLS AND SALVE Are almost universal in their effects, and a cure can be almost always guaranteed.

FOR BILIOUS DISEASES Nothing can be more productive of cure than these Pills. Their almost magical influence is felt at once; and the usual concomitants of this most distressing disease are removed. These remedies are made from the purest vegetable compounds.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

FOR CUTANEOUS DISORDERS And all eruptions of the skin the SALVE is most invaluable. It does not heal externally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS INVARIABLY CURE THE FOLLOWING DISEASES: Asthma, Bowel Complaints, Coughs, Cholera, Chest Diseases, Costiveness, Dropsy, Dyspepsia, Diarrhoea, Dizziness, Debilty, Fever and Ague, Scalds, Indigestion, Influenza, Irritability, Inward Weakness, Liver Complaint, Lowness of Spirits, Ringworm, Rheumatism, Salt Rheum, Skin Diseases.

Each box contains 12 Pills. ONE PILL IS A DOSE.

Notice.—None genuine without the engraved trade mark around each pot or box, signed by DOCTOR J. MAGGIEL, New York, to counterfeit which is forbidden.

PLANTATION BITTERS.

Persons of sedentary habits troubled with weak eyes, lassitude, palliation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try this celebrated

They purify, strengthen and invigorate. They create a healthy appetite. They are an antidote to change of water and diet. They overcome effects of dissipation and late hours. They strengthen the system and enliven the mind. They prevent miasmatic and intermittent fevers. They purify the breath and acidity of the stomach. They cure Dyspepsia and Constipation. They cure Diarrhoea and Cholera Morbus. They cure Liver Complaint and Nervous Headache. They make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calceola bark, winter green, assafras, roots and herbs, all preserved in perfectly pure St. Croix rum. For particulars, see circulars and testimonials around each bottle.

Beware of impostors. Examine every bottle. See that it has our private U. S. Stamp unimpaired over the cork, with plantation scene, and our signature on a fine steel plate side label. See that our bottle is not retined with spurious and deleterious stuff. Any person pretending to sell PLANTATION BITTERS by the Gallon or in Bulk, is an impostor. Any person imitating this bottle, or selling any other material therein, whether called Plantation Bitters, or in a criminal under the U. S. Law, and will be prosecuted by us. We already have our eye on several parties re-filling our bottles, &c.; who will succeed in getting themselves into close quarters. The demand for Drake's Plantation Bitters from ladies, clergymen, merchants, &c., is incredible. The simple trial of a bottle is the evidence we present of their worth and superiority. They are sold by all respectable druggists, grocers, physicians, hotels, saloons, steamboats and country stores.
